

ACETYLENE

Saves your Eyesight

You know how much easier it is to read by daylight than by lamplight, gaslight or electric light, even though these artificial lights are just as bright.

That's because they are not white lights, like sunlight, but contain too many red and yellow rays.

Acetylene is a white light—nearer to sunlight than any other lighting system known. You can read, sew or do fancy work by

Acetylene with little, if any, more fatigue than by daylight. By Acetylene you can match colors, or enjoy the beauties of flowers or paintings, just as well as by daylight.

And you can have Acetylene lighting in your home, at a cost lower, for equal illumination, than that of coal oil lighting. It's easily installed in any house. Write and we'll tell you how, with full particulars as to cost and advantages.

GET RID OF YOUR BARN DRUDGERY

A BT LITTER CARRIER will lift the entire burden of your barn work from the expenses account. With a BT in your barn, what was once the most distasteful bit of slavery in the day's work, becomes a mere pastime and the effect is a big and immediate reduction in the cost of the hired help.

The BT Litter Carrier carries the manure from the gutters to the shed or pile in a fraction of the time it takes under the old style. No matter how many cows you keep or what it costs you with the pitchfork and wheelbarrow system to clean the barn the BT will save you half the expense.

The first step in financial success is to cut all unnecessary trimmings from your expenses. In the business of farming, the BT Litter Carrier with the whole BT Equipment is planned to increase the profits by reducing the stable expenses.

THE BT LITTER CARRIER

is so simple in its construction that there is nothing on it to get out of order. WE GUARANTEE our Carrier absolutely FOR FIVE YEARS. With no other carrier is such a guarantee given. In fact, most of the firms change their carrier every year, and they will have to keep on changing, for they simply cannot get around the patented points on the BT Carrier.

More BT Litter Carriers were sold in Canada last year than all other makes combined. Here are some of the reasons why:—

The BT Carrier has double purchase in lifting. It elevates easily. There are no worm gears to wear out. The Carrier is windlassed by a crank wheel. There is no noise or rattle as with a chain lift. The bucket is made of 18-gauge galvanized steel—four gauges heavier than others. The track is two inches in depth—the next deepest is only 1½ inches. It will carry a much heavier load than any other, and is much easier to erect.

It costs no more than others. There are many other reasons which you should know. Get our catalogue and learn them—it is free.

It will pay you to write us now. Fill out the coupon and mail it to-day. You will be surprised how cheaply you can put in a BT Litter Carrier.
