THEY SPLIT ON A PARTY VOTE

Committee of Ontario Legislature Met This Morning.

Minority Report Was Also Presented But Rejected.

[Canadian Press Despatch] TORONTO, May 6.—A dozen reports were on hand this morning when the committee on a party vote met to prepare their report on the Proudfoot charges. The newspaper men however, were not admitted to the deliberations of the committee and it was eleven o'clock when the committee adjourned and it became impossible for the press to learn anything of what had been done. "Agreed on report?" said Chairman Ferguson. "Sure. We did better than that. We have agreed on two reports, at least the majority have agreed on one report and the minority on another." "Everything went off quietly," said another member of the committee. "You never saw a Sunday School convention more peaceable." All of which meant that the majority report was carried in the committee on a strictly party vote and the minority report rejected in a precisely similar fashion. Neither N. W. Rowell, nor the Proudfoot attended the committee this morning, but all the other minority members were there. "The sense of the two reports is contained in the summing up, viz: by the majority report: 'Your committee therefore recommends that after a full and complete inquiry your committee finds—that there is absolutely no evidence to support the charges of impropriety and you have no foundation in fact.' And by the minority report: 'In view of the foregoing resume of the evidence your committee recommends that the legislature be requested to appoint a royal commission to investigate the whole subject of the charges that were referred to the committee on privileges and elections in order to secure a full, fair and impartial investigation.'

A Letter By Archbishop Langevin on the School Question is Read.

[Canadian Press Despatch] WINNIPEG, May 6.—Archbishop Langevin has issued an important pronouncement upon the school question in the form of a letter to be read in the Catholic churches. A portion of this letter was read at high mass in St. Boniface Cathedral Sunday by Monsignor Dugas, vicar-general and the remainder is to be read on a future occasion. The letter is an exposition of his grace's views on the school issue. In this letter his grace laments that the bill enlarging the boundaries of Manitoba does not safeguard the rights of the minority. The Goldwell amendments were he says, the result of negotiations at Ottawa following the passage of the bill. It is pointed out that the acceptance by the Winnipeg school board of the proposition made Coldwell, would be a part concession and would not be regarded as a settlement in full. The Roblin Government is highly commended for having given French Catholics their own normal school, three inspectors of their own language and faith, the right in French schools to employ teachers in religious and to keep the crucifix upon the walls of the schools. These are declared to be "appreciable services." Commendation, though less specific is also passed upon the Saskatchewan Government. The letter closes with a declaration of unalterable loyalty to national schools, state university and compulsory education.

ANXIOUS TO GET ROAD INTO HOLMEDALE IMMEDIATELY

But Water Commissioners are Holding Out For \$7500 For Right of Way—Property For Lake Erie and Northern—Railway is Ready to Start Work Immediately in That District.

The Courier understands that there has been somewhat of a hitch between the Water Commissioners and the Lake Erie & Northern Railway with reference to crossing the waterworks property in the Holmedale. The Commissioners held a meeting and decided to sell the property needed at a price of approximately \$1200 an acre, or a total of \$7,500 in all. The company responded with an offer of \$1000 per acre. The Commissioners again met and affirmed that the \$7,500 named by them was the minimum. The same to cover easement and possible damages, the possible damage to crops to be adjudicated by the company with the adjacent tenants. If this was not satisfactory to the railway, leave the whole thing to go to arbitration.

FRIENDLY SUGGESTION

In their reply the company hoped that the Commissioners would consider the matter upon a broad basis, as the road would be of undoubted advantage to the Holmedale and all of Brantford. They added that they had instructed their lawyers to accept arbitration, but suggested that in order to avoid expense the same should take a friendly form, and the decision be left to a committee of prominent men, such as Messrs. Franklin Grobb, W. J. Verity, C. H. Waterous, D. J. Waterous, or any other well-known citizens who might be suggested and mutually agreed upon.

WILL PUT UP CASH

The company, who are very anxious and ready to start the Holmedale work, also made the offer that if consent should be at once given to commence operations on the waterworks property, they were prepared to deposit \$3,000 with the city treasurer, to be held by him as security pending the outcome.

AN INTERVIEW

Manager and Chief Engineer Kellett, when questioned by a Courier man regarding the above, said that the statements were substantially correct. He added: "We hope the Commissioners will see their way clear to meet us in a liberal way, as the directors consider that our line will be of very great general advantage to Brantford."

GALT AND THE GRAND TRUNK

In connection with the Grand Trunk switch into the Holmedale, this paper would like to point out that they secured their right-of-way for nothing, the city in addition to pay part of the cost of the subways. In Galt, also, in order to accommodate this line, the authorities have reduced one of the main streets in the factory district from 66 to 33 feet, at a charge of \$1000.

CAPTAIN SCOTT WAS LAST TO DIE

Canadian Who Led the Rescue Party in The South

Tells How He Found Scott in The Tent.

[Canadian Press Despatch] CALGARY, Alb., May 6.—Lieut. TRIGGS, Gran, one of the party which found the bodies of Captain Scott and comrades after their dash to the South Pole, stopped off here a few hours en route from Vancouver to New York bound for England. Describing the finding of the bodies, Lieut. Triggs said: "I was the Canadian who commanded the little party approached the tent first and lifted the flap. 'We followed. Captain Scott lay on his back as if asleep, but outside of his sleeping bag. The bodies of Wilson and Bowers were in sleeping bags, which would have been carefully wrapped up by Scott, evidently himself the last to die. 'The sad thing about their deaths,' said Lieut. Gran, 'was the fact that they perished only eleven miles from a supply depot, which would have saved their lives had they been able to reach it. You must remember, though, that nine miles is a full day's journey in that region for men in the best of physical shape and condition. While they did not die of starvation, all their food had given out, and worst of all their fuel. Then they were experiencing terrible and unexpected storms. When we had secured all the equipment and records of Captain Scott's party we laid the bodies side by side and said the burial service for them. Then we removed the poles from the tent and covered the bodies over with the canvas of the tent, and on top of this built a cairn of snow and ice about fifteen feet high. We then took two skis and bound them together in the form of a cross and erected it as a last memorial to the dead, and left them where they fell.'

Parade at Park 2 O'clock

The Opening Day parade will line up at Victoria Park to-morrow at 2 o'clock. The Dufferin Rifles band will furnish music for the opener and the members of the two teams will ride in autos. Members of the City Council and other invited guests will also be in line. The club would esteem it a favor if there are any who can place their autos at the disposal of the parade. It is thought that there will be over thirty buzz-carts in line.

Child Killed

WINNIPEG, May 6.—Clara Pritchard, aged 6, was run down by an automobile while playing in front of her house, on Pritchard avenue and died in ten minutes.

JOINT USE OF ALL POLES

Hydro Electric Closes Arrangements With Local Companies.

It was announced to-day, at the Hydro-Electric Office, that arrangements had been completed, with most of the pole using companies in this city, for the joint use of quite a large number of their poles for the new Hydro-Electric wires. On quite a large number of the streets of the city there are already a large number of poles, and in these cases it has been endeavored to avoid the erection of any more poles. The companies which have consented to the use of their poles by the Hydro-Electric system on such streets are: The Western Counties Electric Co., The Great North Western Telegraph Co., C.P.R. Telegraph Co., Machine Telephone Co., and Bell Telephone Co. It is also expected that arrangements will be completed in a few days with the Street Railway Co., for the joint use of their poles on a number of the streets of the city. The total length of streets on which joint pole arrangements are being made is approximately six miles and comprise all the streets which are at present badly built up with poles.

HAMILTON MAN LIKES THIS CITY

Brantford Due For a Big Real Estate Boom He Says.

Mr. Hugh McReynolds, president of the Hamilton and Inter-Urban Realty Co., was in the city yesterday looking over the real estate situation. He said his company intend investing in Brantford properties, as he considers they will substantially increase in the near future. "Brantford," he said, "is due for a boom—the boom that Toronto and Hamilton has enjoyed for the past two years." Mr. McReynolds is said to have made about \$100,000 in real estate in the past eighteen months. He came to Canada from England less than two years ago.

Loyal Orange Lodge No. 742 have changed their place of meeting from the Moffatt block to quarters in the Temple Building.

Long Hauls Cost Money

A special committee of the City Council made a tour of inspection yesterday afternoon of the different corporation yards and buildings in the city. They also looked over a few sites which they had in view with the idea of opening up a more central yard. The present one is away to one end of the city, and corporation teams are forced to make at times extra long hauls, which could be avoided if the yard was more centrally located. The committee will bring in their report at the next meeting of the Council.

Mr. Scace

Doesn't Like Certain Procedure of Township Council

At the meeting of the Township Council on Saturday, Reeve Kendrick and Councillor Scace engaged in a pyrotechnical display of words over the giving a cheque in part payment for the hauling of gravel for the White Gridge, and Wilson's arch on the Hamilton Road, before the agreement had been signed by Mr. Hunter who is doing the work. At a meeting of the council held several months ago it was decided in a very great hurry to give Mr. Hunter the contract. Mr. Watts did not receive definite instructions as to the drawing up of the contract until a subsequent meeting. The contract was drawn up but owing to an error the contract had to be redrawn and has been ready to be signed for some time. Mr. Hunter omitted to execute the contract and in the mean time he received the cheque. Part of the work has been done. Councillor Scace became very hot and demanded to know why the cheque had been given and who was responsible for the giving of the cheque. The wrothy Councillor started in to have everybody on the carpet. Reeve Kendrick claimed that he signed the cheques as usual. The trouble finally cooled down. It was said around the Court House this morning that the council tried to transact too much business in too short a time.

Wm. Milmine Was Elected

In the township bye-election in Burford yesterday, William Milmine was elected over Blackwell Doran by 222 majority.

Caught Bomb Placed Under Grand Hotel by Suffragette Who Was Arrested.

[Canadian Press Despatch] LONDON, May 6.—A militant suffragette caught at half past two this morning by the police in the act of placing a bomb at the entrance to the Grand Hotel, which is crowded with tourists, was brought up at Bow street police court later in the day and remanded by the magistrate for her inquiries. She gave the name of Ada Ward. The bomb was in the form of a tin container to which was attached a lighted fuse, while a placard bearing the words: "Votes for Women" was wrapped round it. The hotel which was the object of her attack situated on Trafalgar square facing the spot where the disturbance at the foot of Nelson's column on Sunday, between the police and the militant suffragettes and their supporters.

MONCTON HAS BAD FIRE TO-DAY

A Rink, a Church and Houses Formed the Loss.

Two Other Churches Narrowly Escaped Destruction.

MONCTON, N.B.—Fire which broke out in the Victoria Rink here about half past one o'clock this morning destroyed that building also one church, a hall, and five residences. The buildings destroyed were the Baptist church and parsonage, and hall, Victoria rink, four dwellings and a barn in Robinson street and Mrs. J. A. Killams house and barn in Church street. The Methodist and Church of England churches caught several times, but the fire was subdued before it secured a hold. At the time aid was telegraphed for from St. John and Amherst, but cancelled soon after, as it was seen the fire was under control.

Late Wire

A Wireless Fire. ST. JOHNS, Nfld., May 6.—The fire which destroyed the wireless station at Cape Sable last night started through a spark from the sewing apparatus, igniting the side of the wood of the building in which the apparatus was installed. The blaze spread too quickly for the operators to man-oeuvre and the building was consumed with its contents. The aerial was not damaged. The station is one of the best known on the North Atlantic coast and the company will install a temporary equipment as soon as possible. The losses are placed at \$10,000. It was through the Cape Race station that the first news of the collision with the iceberg, which resulted in the loss of the Titanic, reached the world a little over a year ago.

Bridges Destroyed.

WEEHAWKEN, N. J., May 6.—Flames destroyed three floating bridges, ten freight cars loaded with merchandise and a portion of a pier jutting into the Hudson River last evening, causing a loss of about \$200,000. Train crews hastily fired up locomotives and saved valuable goods by dragging cars from the danger zone. Three firemen were thrown into the river when a hose burst and a car float collapsed. Several persons were removed to the hospital.

Ice Field Broken.

DULUTH, Minn., May 6.—The ice field which for days has blocked Duluth entry and many miles of the Steamer Lane on the Minnesota side of Lake Superior last night, was blown over on the Wisconsin side. Boats are having no difficulty in reaching Duluth to-day. The south shore ports, however, seem blocked. Marine men say that unless the field is blown south where it can melt, navigation may be hindered for several weeks to come.

New Torpedo Boat.

SAN FRANCISCO, May 6.—The United States submarine torpedo boat H-1, was launched here to-day. Miss Leslie Jean Meakin of Montreal, Quebec, christened the boat and qualifies for membership in the Sponsors' club, composed of young women, who have christened war vessels.

HIGHER WAGES FOR WORKING GIRLS

National Council of Women Meet at Montreal.

Compulsory Education is Vital Necessity to People.

[Canadian Press Despatch] MONTREAL, May 6.—The vital importance to women of compulsory education because of its necessity in properly equipping those who have to earn a living for entering the various employments, and the great hardships and the shortening of the lives of many mothers because of the impossibility of getting domestic servants, were two of the subjects discussed at the National Council of Women's convention here this morning.

At the outset the announcement was made that Mrs. Plumtree of Toronto, had been called home on account of the illness of one of her children. Mrs. Derick of Montreal said that one of the reasons why the council should press for compulsory education was because it would equip women to earn a higher wage. She favored compulsory education up to sixteen years, the last two years to be trade and technical schooling. Mrs. Adam Short of Ottawa, discussing the servant problem, gave instances of where women with children actually had their lives endangered because they could not get help. In one case a woman in the west had to clothe, feed and care for five children and also six men. This woman died.

Mrs. Short also deplored the character of some of the immigrants coming to this country. Some of the girls going into domestic service were of bad character and should not be allowed to come into contact with the young children in a family. "One excitable paper in the Old Country," said Mrs. Short, "was telling outrageous stories of what happens in this country to working girls and this deters the better class from coming here. An advertisement stated that five thousand men were waiting here for wives, and some girls came out in the hope of getting married." Mrs. Short urged that next year the subject should be discussed thoroughly, with a view of finding a solution. A proper training should be provided in the schools for girls going into domestic service. Turning to compulsory education, Mrs. Short said they wanted to broaden out as much as possible skilled businesses in which women could be employed and to encourage them to thinking in order to compete with men and become properly trained.

Are Home

B. C. I. Cadets Had a Fine Time at Toronto Yesterday

The B.C.I. Cadets, numbering 26, who took part in the Toronto Cadet Tournament, returned home at two o'clock this morning. The Brantford boys arrived in Toronto yesterday afternoon, and in the afternoon took part in the shooting, and in the evening in the drill and signalling competitions. The Brantford Cadets compared favorably with the other cadets at the tournament, who were there from Hamilton and Toronto, especially the senior drill team and the signalling team. The local senior shooting team made good scores. The result of the shooting and other events will not be known until Wednesday, owing to the tournament not being concluded until this evening.

The evening performance was opened by the Lieutenant-Governor, with a general salute and a march-past, in which over 300 cadets took part. At the evening performance the Mississauga Horse Cadets of Toronto were especially good.

The performance, which drew some 1500 people, consisted of physical drill displays, drill squads and maxim gun displays.

Police Didn't Hear Them

This morning in the neighborhood of three o'clock a man and wife who reside over a Colborne street store were awakened by what they believed to be revolver shots. Upon inquiry at the police department information was given that the constables on duty last night had not reported the matter. Probably some joker thought he would have a little sport at the expense of the Colborne street slumbers.
