

COUNTY COUNCIL DOWN TO WORK FOR YEAR

William Milmine Was Escorted to the Wardens Chair Yesterday.

Knowing that it was the Township of Brantford's turn to have its reeve elected to county affairs and because they believed that Reeve William Milmine would most capably fulfil the duties of Warden the members of the County Council at the inaugural meeting yesterday afternoon unanimously voted that he was to occupy the position for the year 1914.

The nomination of Mr. Milmine was made by First Deputy Reeve Marshall Baris of Brantford Township and seconded by Reeve Hudson Jennings of Brantford Township.

Upon his election, Warden Milmine was escorted to his seat by his mover and second. In a few well-chosen words the gentleman upon whom such a high honor was conferred, thanked the councillors for electing him and expressed his desire to carry out the duties of the office in the best manner possible.

The head of county affairs has well and truly earned the honor. He has spent several years in the township and county councils and as he has been retained to office with such frequency it goes without saying that he has proved himself a man in whom the people might trust municipal matters.

The Members

When County Clerk A. E. Watts called the council to order there was not a vacant seat. The personnel of the council this year is changed to some degree. Concerning the Brantford Township council there is one new representative, who never before was a county councillor. First Deputy Reeve Rupert Greenwood, is the one referred to. Hudson Jennings who last year sat in the council as second deputy reeve, now occupies a seat as reeve of the Township, while First Deputy Reeve Arthur McCann again occupies a seat in the same capacity as last year. The two last named gentlemen have entered upon their second term.

Reeve O. A. Waite from South Dumfries has also entered upon his second term.

Onondaga Township is represented by Reeve James Walker, who, here-

fore has not occupied a seat in the County Council.

The Town of Paris is this year represented by two gentlemen, who have had previous experience as members of the council, although neither gentleman occupied seats in the council last year. Reeve Henry Stroud was warden in 1895.

Reeve George Cook is again found representing the Township of Onondaga. He has been in the council for five or six years.

First Deputy Reeve Marshall Baris from Brantford Township had a partner when he entered the council chamber yesterday but the council was made him warden. Mr. Baris has occupied a seat in the council for several years.

The Warden having been well and truly installed, County Clerk Watts read the minutes of the last meeting which were adopted with correction.

GRANDMA NEVER LET HER HAIR GET GRAY

Kept her locks youthful, dark, glossy and thick with common garden Sage and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store, the ready-to-use tonic called "Wyeth's Sage and Sulphur Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger. Agent T. George Bowles.

Premier's Young Son

Master Anthony Asquith, the 12-year-old son of the Prime Minister, is evidently following in the oratorical footsteps of his father, judging from a statement in the "Eclair" of Nice.

The boy, who is staying with his mother at Cap Antibes, delivered a speech at a soiree before a number of invited guests, dealing with aviation and the differences in construction of aeroplanes.

The young lecturer described the different types of aircraft briefly and clearly, and explained the main principles of their construction. He talked, too, about the exploits of the best known airmen. He spoke with out the aid of a single note.

Three years ago, Master Asquith, an enthusiast for aviation born of a visit to the Hendon Aerodrome, became the possessor of a toy aeroplane, and his flying ground extended from the back of Downing Street to the Horse Guards Parade. He now makes his own gliders and a few months ago sent one with which he had been experimenting to the editor of "Flight," with some comments on its behaviour in the air.

"I thought perhaps you would like to see this glider," he wrote. "It is supposed to be a copy of the Westlake monoplane. I am afraid it is rather battered and a little warped."

but for all that it's an excellent glider. "I tried it to-day in quite a gusty wind; it behaved splendidly, banking up against the wind. It rose about ten feet, and when turned round and glided about sixty feet. If you send the glider very hard, and very much down it will rise up vertically, and sometimes loop the loop."
