Mr. Levine of the Star Clothing House a Close Observer.

"This winter promises to be one of unusual activity in social circles," said A. S. Levine vesterday to a Nugget scribe "A large number of ladies, the wives of our business men, have come into the city this summer and the result is remarkable from a conmercial standpoint.

"It seems but a few mont ago since the usual clothing won by the Dawson public was of the coarest nature, and mackinaws in all their hideous colors were seen upon men who today are as careful of their dress as the most fastidious habitue of the boule

vards in the effete east. "Fortunately for me, I antic pated just such a change, and it placing my orders for this will ter's supply I have made it point to have shipped to the Str Clothing House the finest wear ing apparel obtainable. At m establishment today I can supply my customers with the swell clothing and haberhashery manded by the changed cond-

tions to which I have referred "Women are a great factor" trade, and the commerce of the world is largely effected by them.

"It would amuse you to see how sharp some of them are in the matter of prices. The Star Clothing House is Fecognized a low priced house, and while have but one price at my store have almost been tempted by some of these ladies to reduce a quoted price on some of my good which would be insisted could be obtained at another store at lower price. This, in some in stances, when I had the on stock of that particular article is Dawson.

"I like to see close buyers my establishment, for people cannot but notice the di ference between prices for me chandise obtained at the S Clothing House and those of big companies.'
