The man who does care what it costs but does not care what he gets, won't get his suit here, that's certain.

The man who both cares what it costs and cares what he gets,—that's the man we delight in.

According to the revised marriage rules of the Methodist Episcopal Church in Pittsburgh the word obey has been struck out of the vow taken by a bride and word kept substituted. Love honor and keep is the way it now reads. Isn't it lovely?

The B. W. & N. W. Ry. Co. have arranged to run a special train to Brockville on Monday, Sept. 11th, leaving Athens at 6.45 p.m., for accommodation of parties wishing to attend Grand Opera House opening, when the great English comic opera, "Flora-dora," will be the attraction.

The opening of the new town hall will likely be about the last of September or the first of October. There is every reason to believe that Sir Wilfred Laurier, premier of Canada, will be present and deliver an address. A good concert will be given, for which arrangements are now being made.

We understand that, although the early closing only held good for the summer months, the merchants in town intend to keep the regulation in force during September. As the people of this community are used to the practice it will, therefore, be no inconvenience to them if the stores are closed for one month longer.

Mrs. M. A. Everitts and son returned last Monday evening from their nine weeks' trip visiting her brothers George, William and Charles at Duluth, Fargo and Winnipeg respectively. They went by boat to Duluth and on their return came in the same way from Fort William. They report a bona voyage, save a little settlement with Neptune. It makes one shiver to read of the "Fall Millinery Openings." The coal bill is all right, but the thought of paying for your wife's new hat is enough to take away all the pleasures of your summer vacation.

We noticed two weeks ago the recent movements of Miss Addie Hunt. Such however, have been the "tact, push and principle" manifested in her life as to assure the propriety of noticing those as an inspiration to others. We have room to point out only two guiding stars: 1. Fitness to attain the highest position in life can only be attained by assiduous effort; 2. There is always room at the top. As to the first she applied herself to study, not only at Brockville, but Toronto and Philadelphia also. As to the second she found when she began her professional nursing that there was room for her in the wealthiest families in New York, and when the sad calamity befell her on that memorable 21st of June, at Great Neck on Long Island, necessitating the amputation of both feet above the ankle, those same millionaire patients were the first to look the railway magnates in the face and ask the reason why—which may be answered some day in the "Key of G—."
