Strike to involve 50,000 Men.

Cleveland, Aug. 8.—Five of the seven members of the executive board of the International Association of Bridge and Structural Iron Workers have voted in favor of a strike against the American Bridge Co. The strike is contingent on the action that may be taken by President Frank Buchanan. He is in Chicago. If the structural iron workers are called out on account of the grievances that exist at New Haven, Conn., it is said that 50,000 men will be involved, mostly in the eastern States.

### VALUABLE ADVICE TO MOTHERS

If your child comes in from play coughing or showing evidences of la grippe, sore throat, or sickness of any kind, get out your bottle of Nerviline. Rub the chest and neck with Nerviline, and give internal doses of ten drops of Nerviline in sweetened water every two hours. This will prevent any serious trouble. No liniment or pain reliever equals Polson's Nerviline, which has been the great family remedy in Canada for the past fifty years. Try a 25c. bottle of Nerviline.

Prof. Bell's Father Dead.  
Washington, Aug. 8.—Alexander Melville Bell, father of Prof. Alexander Graham Bell, died yesterday.

He was 86 years of age. Death was due to pneumonia, following an operation for diabetes. He was born in Scotland and was one of the three generations notable because of their developments of the art of instructing the deaf and dumb in methods of communication.

### RADIANT WOMANHOOD.

The glory and satisfaction of beautiful womanhood can be known only to those possessing the unlimited advantages of health. No weak woman can be happy or enjoy half the pleasures of life. Paled cheeks, sunken eyes, exhausted nerves, all tell of a terrible struggle to keep up. What the weak woman needs is Ferrozone; it renews, restores and vitalizes instantly—it's a "woman's remedy," that's why.

Ferrozone makes women strong, plump and healthy because it contains lots of nutriment, the kind that forms muscle, sinews, bone and nerve. Vitalizing blood courses through the body, making delightful color, happy spirits, true womanly strength. Fifty cents buys a box of Ferrozone in any drug store.

### ELEPHANTS LUMBERING.

They Were Not Only Doing Man's Work, but Doing It Man's Way.

The elephants round us were dragging the logs to the mill to be sawed. They were harnessed for this with a broad breast band and heavy chains. A native jumped the chains round the legs, and the elephant started off with them and deposited them on the trolley. Others were picking up the sawed planks with their trunks and carrying them across the yard to be piled.

A mahout sat on the neck of every elephant, and if the animal picked up too small a plank the mahout would hint, with his iron spike, that two might go to that load. Then, grunting, the elephant would pick up the second with infinite delicacy of balance, turn, march over and deposit them beside the pile, always returning for another load so long as there were any planks ready. When there were none he would take his ease in the sun and wait, or perhaps there were heavy logs to be pushed from one place to another, and if the animal picked up the trunk curled against the log, no elephant would give himself the trouble of picking it up any more than a housemaid will pick up a chair on casters.

More fascinating to watch than I can tell to see the jungle patriarch kneel down to a heavy log, twist his trunk round it, place it on the top of the pile and then calculate its position and push and pull until it was square in its place. The oddest because the most reasonable thing was to see the elephant, pushing against the end of a very heavy log, stretch out one hind leg to give himself balance and purchase. That seemed to bring him somehow very near to us. He was not only doing our work, but he was doing it in our way.

Presently, with one accord, all the elephants dropped work and moved in the direction of the sheds. "That means it's 11 o'clock," said the foreman; "dinner hour. Not for himself could we get them to do a stroke of work from now till 3. It's their off time. At 3 they begin again and work till dusk, and they start about 6 in the morning, but they don't understand overtime."

### The Baby Beetle's Cradle.

If at almost any time of the year we walk through the woods where the red, scarlet, black or pin oaks are growing—that is, where we find those that ripen their acorns in two seasons and therefore belong to the pin oak group—we shall probably find on the ground fallen branches that vary in size from that of a lead pencil to that of one's thumb or even larger. These at the broken end appear as if cut away within the wood, so that only a thin portion is left under the bark. Within the rather uneven cut, generally near the center of the growth, is a small hole tightly plugged by the "powder post" of a beetle larva. Split open the branch or twig, when a burrow will be seen, and the little, white, soft, hard jawed larva that made it will be found or perhaps the inactive pupa.

### A Russian Bear Story.

Here is an odd hunting tale from Russia: A certain count was out for bears and, tracking a dam and cub, shot one of the latter, had it slung into his sleigh and drove for home, about fifty miles distant. Immediately after his arrival his gunkeeper announced that a huge bear had scaled the wall of the park. The count went out and shot it—the dam of the cub which he had killed and brought home! The faithful creature had followed her dead offspring those fifty miles at the same pace as relays of post horses and arrived in time to share the fate of her cub and to have a monument erected where she fell.

Mercury and the Sun.  
The distance of Mercury from the sun varies owing to the eccentricity of its orbit. When he is nearest to the sun he receives ten and a half times more light and heat than we do, but when he moves to his greatest distance the light and heat are reduced by more than one-half. Even then, however, the sun blazes in the skies of Mercury with a disk four and a half times larger than that which he shows to us on earth.

### HE TELLS THEM TO ASK THE I. O. F.

John J. Burns Cured by Dodd's Kidney Pills.

He Had Chronic Inflammation of the Kidneys—Says his Brother Foresters Can Tell All About It.

Darley, P. E. I., August 7.—(Special).—John J. Burns, a prominent member of the I. O. F. here, whose cure of Chronic Inflammation of the Loins and Kidneys caused a sensation some time ago, reports that he is still in splendid health. "Yes," says Mr. Burns, "my cure is entirely satisfactory. I have had no trouble since I used Dodd's Kidney Pills. They drove away the disease from which I suffered for eight years."

"No, I'll never forget Dodd's Kidney Pills. The doctor could not help me. I got so bad I could scarcely walk, sit or sleep. I was about to give up entirely when an advertisement led me to try Dodd's Kidney Pills. Now I am in good health. Dodd's Kidney Pills saved my life."

If any one doubts Mr. Burns' story he simply refers them to his brother Foresters. They all know how he suffered and that Dodd's Kidney Pills cured him.

### Dancing Birds.

Sailors visiting the Island of Laysan, in the Hawaiian group, are greatly amused by the curious antics of the Laysan albatross, or gony. These birds sometimes perform, in pairs, a kind of dance, or, as the sailors call it, "cake-walk." Two albatrosses approach each other, nodding and making profound bows, cross their bills, produce snapping and grunting sounds, rise on their toes, puff out their breasts, and finally part with more nodding and bowing, only to come together again and repeat the performance. Occasionally "three engage at once in this singular amusement."

Woman is often referred to by man as "doubling his joys and halving his sorrows." That may be complimentary, but it would seem to be rather hard on the woman. For in plain terms it means that where things are going well with the man his wife makes them go better. But when things are going ill with him, he expects the wife to share half his burden. And there, more truth than poetry in this presentation of masculine selfishness. Men don't appreciate the fact that the strain of motherhood alone is a burden bigger than all the loads that rest upon male shoulders. They see the wife groaning, pale, nervous and worn, without a thought that she is overburdened. Among the pleasant letters received by Dr. Pierce are those from husbands who have waked up before it was too late to the crushing burden laid upon the wife, and in the search for help have found in Dr. Pierce's Favorite Prescription a restorative which has given back to the mother the health of the maiden and the maiden's happiness. "Favorite Prescription" always helps, and almost always cures. It has perfectly cured ninety-eight out of every hundred women who have used it when afflicted with diseases peculiar to women.

### The Alternative Malady.

A doctor friend of mine, writes a correspondent of the Manchester Guardian, named M—, who was a naturalist, was once hurried up to see a charming young gentlewoman who had the misfortune to swallow a big fly while playing lawn tennis. He brought to her a large spider, which he said would most certainly bring back the fly if she would be so brave as to swallow that, too. One day she received a letter from him, accompanied note, asking him to call upon a man who was suffering from "mumps," but his ailment turned out to be of a very different nature. "I want to know why you wrote 'mumps'?" (said the doctor, "whose truth she replied, 'there wasn't nobody' the house I knew how to spell rheumatism."

To be seventy years young is sometimes far more cheerful and hopeful than to be forty years old.

### Had Diarrhoea so bad he had to give up work.

HAVE YOU EVER BEEN IN THIS POSITION?

If you have not been, but ever do be, remember that Dr. Fowler's Extract of Wild Strawberry is nature's specific for all Bowel Complaints.

It has been on the market for 60 years. Surely this is reputation enough as to its efficacy.

Mr. Henry Voll, Carthage, Ont., writes: "I have used Dr. Fowler's Extract of Wild Strawberry with the best of results. Last summer I had the Diarrhoea so bad that I had to give up work. A friend of mine persuaded me to give Dr. Fowler's Extract of Wild Strawberry a trial, which I did, and can say that it cured me entirely. I can recommend it to all who are troubled with Diarrhoea."

Be sure and ask for Dr. Fowler's and take no substitute. All dealers sell it.

### THE LAW OF FINDING.

Against All Save the Owner the Finder's Title is Perfect.

In common law finding is a qualified source of title to goods and chattels. Briefly, the law is that the finder has a clear title against all the world, excepting the owner. The proprietor of a coach or a railroad car or a ship has no right to demand property found on his premises. Such proprietors may make, in regard to lost articles, regulations which will bind their employees, but they cannot bind the public.

The law of finding was declared by the king's bench more than a hundred years ago (when it was the supreme court of common law in England) as follows:

A person found a wallet containing a sum of money on a shop floor. He handed the wallet and contents to the shopkeeper to be returned to the owner. After three years, during which the owner did not call for his property, the finder demanded of the shopkeeper the wallet and the money. The latter refused to deliver them upon the ground that they were found on his premises. The finder then sued the shopkeeper, and it was held, as stated above, that against all the world save the owner, the title of the finder is perfect. The finder has indeed been held to stand in the place of the owner.

Thus A prevailed in an action against B, who found an article which A had originally found, but subsequently lost. The police have no special rights in regard to articles lost unless these rights are conferred by statute. Receivers of articles found are trustees for the owner or finder. In the absence of special statute they have no power to keep an article against the finder any more than a finder has to retain an article against the owner.

A finder must, however, use every reasonable means to discover the owner of found goods before appropriating them to his own use. It has been declared that if the finder knows the owner or knows that he can discover him he is guilty of larceny in keeping or appropriating to himself the articles found.
