The Ideal—Mr. C. H. Starr has purchased a third interest in the "Ideal" Working Machine Factory and we understand the business is to be enlarged so as to better meet the demand for these machines. Business Change—We notice that a change has been made in the name of the business lately conducted under the name of Caldwell & Murray. The name of the Junior partner, Mr. D. An Old Tree—Mr. Alexander Fullerton, of Long Island, recently cut down a oak tree which measured across the stump four feet two inches and showed by the grain to be over one hundred years old. This tree was planted by the late Elisha Woodworth in the year of his birth when it continued to grow until cut down, and was probably the oldest tree planted by the hand of man then growing upon this island.

Latest American Styles Ladies Hats opened this week at BURPEE WITTER'S.

Entertainment—The subscription given by Acadia Lodge on Wednesday evening was a pleasant affair and very creditable to those taking part. The attendance was good. Mr. J. L. Bishop presided and announced the programme which consisted of choruses, quartets, readings, chorales, tableaux, &c. After the programme ice-creams, &c. were furnished and found a ready sale. We understand a neat amount was realized.

The Base Ball!

Season began last week and the interest in the game is quite as strong as ever, and it will be probably a good year in that business. At any rate the good year in the shoe business is for the man who buys a pair of

More frequent fraternal visits among divisions was especially urged as was also the necessity of the divisions co-operating with the Inspector of license. A public meeting was held in the basement of the Methodist church in the evening. Rev D. W. Johnson occupied the chair and gave a very able address followed by Rev J. A. Smith, A. McN Patterson, F. G. Curry and others. The choir furnished some excellent music suited for the occasion. The meeting was all that could be asked for and after a collection was taken all retired seeming very well pleased. The next meeting is to be at North Kingston, the second Thursday in July.

EDITOR OF THE ACADIAN,

DEAR SIR,—While I have found it necessary to withdraw my weekly visits from your chaste and valuable paper you may put me on record as an occasional correspondent and I will endeavor to keep your readers posted upon local news that may be of general interest to your readers, and if some of your ever-suspensive Wolfville patrons will only excuse me for my past sins in putting Berwick too much I will try and do better in the future. What I have been endeavoring to do for Berwick is just what should be done in every village in the country and there is no place more worthy of it than your own famous village of Wolfville. Nothing would be more acceptable to your readers than a weekly contribution from the "Hill."

The friends of Acadia are everywhere in the country and are interested in everything that interests the school and nothing astonishes them more than the apparent indifference of those who ought to be your co-laborers in everything that pertains to the prosperity of your village and especially of the schools.

Truly yours,

D. O. P.

CATARHUS CATARRHAL DEAFNESS, MAY FEVER.

A NEW HOME TREATMENT. Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks. S. B.—For catarrhal discharges peculiar to females (white) this remedy is a specific. A pamphlet explaining this new treatment is sent on receipt of ten cents by A. H. Dixon & Son, 205 West King St., Toronto, Canada.—Scientific American.

Sufferers from catarrhal troubles should carefully read the above.
