**BURNING OILS.** I have taken advantage of an opportunity (by S. S. "John Hill," due at Newcastle 4th of October) of importing my oil direct from the refinery of Pennsylvauia. This is a finer grade of oil having a greater brilliancy and free from that disagreeable odor noticeable in the oil you have been lately using. Dealers, therefore, should not be in too much of a hurry in buying from parties now scouring the country with an oil that every housewife in the country has con-demned, but rather encourage those who are endeavoring to put a pure oil on the market and at a price equal to what is asked for the inferior article.
