

TEA TABLE GOSSIP.

THE ICE TEST.

I want no fine thermometer
To tell me of the weather,
I have a rule that's better than
All others put together.
I simply note what's left me by
The ice man—naughty ruler—
If small, the day will be cooler,
If large, it will be cooler.

Miss Taylor was injured and was cared for at the residence of Capt. Fairgrieve. The horse was caught at the corner of James and Vine streets. The rig was damaged considerably.

—When giving your grocer an order for coffee, try a sample pound or half pound of Dalley's Perfect Coffee, and you will find it is the best. Do not take anything else. It is the only one that is recommended as being "just as good," for there is no coffee made or sold in Canada as pure as it.

ART SCHOOL DIRECTORS MEET.

Principal Ireland Re-engaged—To Give Scholarships.

At a special meeting of the directors of the Art School last evening, a formal resolution was adopted, re-engaging S. John Ireland as Principal of the school. The terms of the re-engagement were referred to the Internal Management Committee, which will obtain full data, and report at a future meeting. The re-engagement of the assistants of the teaching staff was postponed until after the exhibition of the Art School. The Minister of Education and Hon. J. M. Gibson will be invited to attend the Art School exhibition, which will take place on July 10th. Provincial Government pictures, including studies from the Art Institute, South Kensington, will be exhibited. The Internal Management Committee recommended the rearrangement of the class rooms, if about \$350 could be raised by special subscription. As an inducement to pupils to earn scholarships, anyone bringing in new pupils to the evening class will receive a free scholarship for a year, and for five pupils will get reduced terms. The pupil bringing in six pupils to the day, or Saturday class, will receive a free scholarship in such classes, and for half that number of pupils brought in to these classes a scholarship at half fee will be granted. The report was adopted. A committee of school inspectors to ask that a printed schedule of classes and subjects taught in the Hamilton Art School be allowed to hang in the rural schools for the edification of the pupils.

It was decided to give a free scholarship to the girl taking highest marks in drawing in the junior fourth class of the Separate Schools, similar to that already given in City Public Schools.

Tenders were opened for kalamining and otherwise improving the class room, but owing to irregularities in some of the tenders, the awarding of the contract was postponed.

Ald. Dixon presided at the meeting, and there was a large attendance of directors.

AT GRIMBSY CAMP.

Great Success of the Christian and Missionary Convention.

The wonderful convention meetings of Christian Workers now in session at Grimsby Park is undoubtedly one of the best ever held there. Eminent clergymen from many denominations are present, among whom is Dr. Henry Wain, of the Anglican Church, New York, who opened the convention with an address of great spiritual power, which impressed all present. Many signified their intention to live more holy lives. Dr. G. D. Wilson, of the Wesleyan Methodist Conference, South Carolina, gave morning lectures, which are marvellous expositions of truth. Perhaps one of the most attractive features of this gathering is the sweet and weird singing of a converted Maori from New Zealand. He speaks the most perfect English, and captivates his audience at once. The attendance yesterday was larger than expected by the committee. Dr. A. B. Simpson, of New York, and other speakers will be on hand Wednesday, and will remain until the close of the convention.

THE TEAM WAS DROWNED.

Horses Meet a Watery Death in the Filtering Basin.

Yesterday a team of horses, owned by H. McAllister, of Binbrook, were drowned in the filtering basin at the beach. The driver was taking the horses to water, and not taking into his calculations the steepness of the bank, drove them in. He let go of the reins before being pulled in himself. The horses floundered out some distance into the basin and drowned before tackle could be procured to get them out. The team was employed by Contractor Dickinson on the extension to the filtering basin.

At St. Paul's German Lutheran Church, at 5 o'clock this afternoon, Mr. James C. Riach, chief clerk of the Rosin House, Toronto, will be married to Miss Emma Richter. Rev. E. Hoffmann will perform the ceremony. The bride will be attended by her sister, Miss Clara Richter, and the groomsmen will be Mr. Joseph Riach, brother of the groom. After the ceremony a reception will be held at the residence of the bride's mother, Cannon street east. The newly-married couple will go west on their wedding trip. Mr. Riach was for many years in the office of the Royal Hotel here before going to the Rosin House.

Smithville Boy Stole.
Last evening P. C. Miller arrested Elmer McIntosh, a 13-year-old lad, who has been behind a picture on the wall disappeared. She also said \$3 had a prosto change out of a vase in her house a few weeks ago.

The brave man is not he who feels no fear,
For that were stupid and irrational;
But he whose noble soul its fear subdues,
And bravely dares the danger nature shrinks from.

The name Bell occurs in to-day's despatches as that of one of the Canadians captured by the Boers, and there is no definite information yet as to which of the Bells have fallen into the hands of the enemy.

Took Swig of Wrong Stuff.
Kingston, June 26.—Last night Mrs. G. L. Cutts, aged 30, drank bug poison in mistake for whiskey, and died soon after. The bottles in which the liquids were, were alike, and in a cupboard. Mrs. Cutts picked up the wrong bottle in the dark.

MAKE NOTE OF CHANGES.

Semi-Weekly Scavenger System Begins Next Monday.

BOARD OF WORKS BUSINESS.

For the Board of Works meeting to-night Chairman Findlay will have a varied programme to present. It is likely that the middle into which the City Council got at its recent special meeting over the question of cement sidewalks and curbs will come in for consideration. There are a number of electric light applications to consider; two protests against the advertising of cement walks on streets where the ratepayers petitioned against similar works last year; the Hamilton Electric Light and Catering Power Company's protest against being charged \$1 a pole for poles erected in the city, and a formal notice from the Board of Education withdrawing its offer to pay part of the cost of cement walks around the Collegiate Institute unless the walk on West avenue is laid at the curb.

Ald. Nelligan says he will not ask for a reconsideration of the settlement between the city and Mr. Geo. Stroud re the Birch avenue sewer right of way, but will not oppose a reconsideration if anyone else wants it. The Sewers Committee Chairman takes the ground that he is sure of getting a "roast" from the kickers. As it is at present people are hinting at a job, and so he finds himself in a hot place. If he had insisted on arbitration and the city had been stuck for more than the \$800 for which the trouble has been settled, then he would come in for just as much, or more, blame. He says the city's experience with arbitrations convinces him that to arbitrate with Mr. Stroud would cost a great deal more than \$800.

Only four days remain in which dog owners can comply with the city by-law by registering their dogs and taking out tags. Inspector Brick, on account of a judgment given in the Police Court last year, is going after delinquents right after July 2nd.

Chairman Fearnside of the Harbor Committee notified members today that the dredge would be here from Deseronto to-day. It will first do about three days' work on the west side of the Smelting Works' dock, so as to get a sufficient depth of water to allow our larger vessels to come in. The dredge will then go to the beach, and will probably work in the canal most of the summer.

Engineer Ernest Adams, of Newark, N. J., has written to Engineer Vincent, of the City, regarding the Engineers' Conventions, for information about tar macadam roadways, particularly as to cost of repairs.

Commencing on Monday next, July 2nd, the semi-weekly collection of garbage by the city scavengers will be undertaken, and will continue during July, August and September. This will necessitate changes in the time of collection, which citizens will do well to note. In the section west of MacNab street from the way to the mountain the collections now made on Mondays and Tuesdays will hereafter be made on Mondays and Thursdays; those now made on Wednesdays and Thursdays will be on Tuesdays and Fridays, and those now made on Fridays and Saturdays will be on Wednesdays and Saturdays. In the section east of MacNab street the changes will be: Present Monday collections will be made on Mondays and Thursdays; Tuesdays on Tuesdays and Saturdays; Wednesdays on Wednesdays and Saturdays; Thursdays on Mondays and Thursdays; Fridays on Tuesdays and Fridays; Saturday on Wednesday and Saturday.

The Board of Public Park Management will meet to-morrow Wednesday afternoon at 4 o'clock.

City Clerk Beasley has received notice from John Hardie, Acting Minister of Marine and Fisheries, stating that the Department does not consider it advisable to remove the lifeboat at the beach from its present location to the south pier, the boat having been supplied the lightkeeper for use in case of accident and for light-house purposes. The Department thinks the city should make provision for life saving and protecting its citizens who may visit the beach piers.

On Friday afternoon, beginning at 2 o'clock, the diplomas will be presented to the successful pupils in the city schools, according to the following arrangements:—

Mayor Teetzel was engaged at the court to-day, and Ald. Findlay was acting Mayor.

The Fire and Water and the Harbor and Beach Committees will meet to-morrow night. Neither has much business, but the latter has to deal with the question of leasing beach lots.

Well Worth Remembering.

A firm to be progressive must keep in touch with the requirements of the people. Messrs. Green Bros., the undertakers, have recognized this and have introduced a system to their increasing business by manufacturing their own burial cases, thus doing away with the middleman's profit. Their office is open day and night, and patrons will be well looked after.
