Notes From Rome.

The Holy Father has just sent a handsome offering of 100,000 francs to the Catholic Institute of Paris accompanied by a letter addressed to the Bishops who have the care of this renowned seat of learning.

The most important and significant passage of the Pope's letter is the following: "With regard to the teaching of philosophy we ask you to see to it that the regulations laid down with so much foresight by Our Predecessors be not neglected in the seminaries. This is a most important point for the maintenance and protection of the faith."

This week Austria has definitely entered the company of nations which entrust the making of their laws to deputies by practically universal suffrage. By the terms of the law recently passed the electorate of the country has increased from three to six millions, and it is estimated that eighty per cent of those on the lists went to the polls.

Rickets. Simply the visible sign that baby's tiny bones are not forming rapidly enough. Lack of nourishment is the cause. Scott's Emulsion nourishes baby's entire system. Stimulates and makes bone. Exactly what baby needs.

Pains in the Back

Are symptoms of a weak, torpid or irregular condition of the kidneys or liver, and are a warning that it is extremely hazardous to neglect, so important is a healthy action of these organs.

"I was taken ill with kidney trouble, and became so weak I could scarcely get around. I took medicine without benefit, and finally decided to try Hood's Sarsaparilla. After the first bottle I felt so much better that I continued. In six weeks I was able to do a new woman. When my little girl was a baby, she could not keep anything on her stomach, and we gave her Hood's Sarsaparilla which cured her." MRS. THOMAS LINDA, Wallaceburg, Ont.

Hood's Sarsaparilla

Cures kidney and liver troubles, relieves the back, and builds up the whole system.

—the Social Christians, and the Socialists, while the minor parties and even the Pan-Germans and Catholics have melted away almost to vanishing point. "Liberalism" is obviously destined to disappear from Austria just as it is disappearing from Belgium, Germany, France, and even from Italy and Spain.

The real hero of the Austrian elections is Karl Lueger, the famous Mayor of Vienna, recovered from what seemed to be a fatal illness in time to take his place in the van of the battle.

At the same time the administration of the affairs of the city was carried on to favor the private, industrial interests of the dominant party. Lueger began his agitation in a small way, but gradually he was joined by Catholics of all shades of political opinion, until at last he was elected mayor.

Next week the American College of Louvain will celebrate the golden jubilee of its foundation. It was established just half a century ago by a number of American Bishops with the consent of the Cardinal Archbishop of Mechlin and the Bishops of Belgium, and with the approval and blessing of the Holy See, yet it was only in June, 1858, that the rules and constitutions were approved by Propaganda and confirmed by Leo XIII.

dividuals arise who proclaim themselves lovers of light and wisdom. \* \* \* Infatuated with themselves, as heretics are wont to be, and intolerant of all authority, they are fond of proclaiming that the work assigned to the visible Church of Jesus Christ is finished, that the epoch destined for the triumph of interior grace is arrived, and that the age of the Holy Spirit is ripe. In the same way, they continue, as the coming on earth of the Messias brought to an end the domination of the Eternal Father, the Guide and the Lord of the Jewish people, so too the kingdom of Jesus Christ must now cease, to leave the field open for the illuminations of the Holy Ghost. And even in those times they spoke of the evolution of dogmas, of abolitions of practices, of a new worship, of a wisdom before unknown, of a total reform. Anybody who reads the history of those aberrations, and then casts his eyes over some of the pages written in our own time, cannot fail to recognize a strong affinity between the old heresy and the silly talk of would-be modern reformers."

Cardinal Ferrari, Archbishop of Milan, last week published a striking letter to his clergy in which this passage occurs: "There exists, today, a pernicious modernism, a mass of errors, which may be reduced to a negation more or less explicit of the true Church of Christ, and I say negation because those errors attack the visibility and the cognoscibility of the Church. What remains of this visibility when distinctions are drawn between the true Church of Christ, and the official Church of the Church of external forms, the Church of Rome; when the authority of the supreme pontiff and of the bishops is rejected on this or that point (and therefore, logically, of all), when some men, disaffected with their present pastors, appeal to the pastors of the future, when priests without any mission, or even simple laymen take it upon themselves to act as masters of the children of the Church in matters of faith, religion and morality?"
