Special to Evening Telegram.

LONDON, To-day.
The Imperial Conference which at the outset many persons feared would be a failure, has justified its existence. The cause of the pessimism at an early period of the Conference was the rejection by the Dominions of the proposal for the establishment of an Imperial Advisory Council, which most of the Dominions were afraid would interfere with their autonomy, so jealously guarded by Premiers Laurier, Botha, and Fisher. The Home Government was unable to support scheme for state-owned Atlantic cable, as the cost is considered prohibitive, but it is hoped to secure cheaper cable rates by negotiations with telegraphic companies. The movement to appoint royal commissioners to visit overseas dominions and report on their trade and resources and the best methods of their development is regarded as important. Other important matters are the taking of the dominions into the confidence of the Government on foreign relations and the suggestion of negotiations with foreign governments to secure the right of the dominions to withdraw from any commercial treaty while leaving it in force elsewhere.

LONDON, To-day.
On the eve of Coronation week London is ablaze with colour. Musical rehearsals are proceeding with full choir and orchestra for the ceremony at Westminster Abbey. Early in the week the last of the Royal delegates will arrive. London will then contain as distinguished a company as ever gathered in any capital. Lord Kitchener, in command of the soldier, is so overwhelmed with work as to be unable to take time for meals and sleep. Sultans, Pashas, princes and princesses are pouring into London by every train, through full crowds attracted in all the colors of the rainbow and brilliant uniform.

PARIS, To-day.
Fifty aeroplanists took wing from an Aviation field at St. Vicennes for the first stage of the European circuit race, which calls for a flight to London and return with stops at various places going and returning. Two aviators met tragic deaths, immediately after starting, one was killed later and one seriously injured.

PEKIN, To-day.
Sir Robert Hart, Imperial director of Chinese Customs, has received further leave for one year. Ching found some objection to Sir Robert's work two years ago, and gave him a year's leave of absence. This expired in the spring of 1910, and he got another year off. Now his leave is extended to 1912.

Uncle Walt THE POET PHILOSOPHER.

Missouri, grand old commonwealth, in buttermilk I drink your health! Your prairies form a verdant park, your Bowling Green produced Champ Clark, your pleasant hills are crowned with schools, you

beat the world on raising mules. 'Twould take a year to write a list of all your glowing charms, I wish, but when your hands take down their lyres, and, stirred by patriotic fires, attempt to sing Missouri's praise, the hearers scatter forty ways. Missouri's song! And not a line about her elderberry wine, her paw-paw groves and placid streams, wherein the catfish lurks and dreams; and not a word about the corn that rustles in the summer morn; and nothing of the wheat and oats, the hogs, the chickens and the goats, which help to swell Missouri's fame and hang large tassels on her name! Missouri's song, and naught set down about the city and the town which rose triumphant in a day on plains where bison used to stray. And nothing of the pioneers who labored through the bitter years, who o'er the lonely reaches trod, and builded homes and broke the sod. Your song should be a rugged strain with strong, victorious refrain, with minor chords that tell of tears, and hardships, toil, and doubts and fears, and pulsing through it there should be a fine heroic melody to tell of men who laughed at scars and fixed their eyes upon the stars. Your anthem is too dull and Gray, Missouri, take your song away!
