sept 16, 11 S. B. KESNER, Proprietor.

Annoyed With the Government.

Mr. John Diamond, who lives on the White Hills, says that owing to the digging of a drain opposite his house and only a few feet from it, and which, owing to the peculiarities of its construction, became choked, his house, in the floods caused by the rain of Tuesday night, became inundated and he suffered much loss. He had to drill holes in the floor to let the water down through, his furniture and effects were saturated, he had to remain up all night to try and free the domicile of the water which poured in and had to take his children from their beds to keep them from getting wet. Of course the drain was dug by the employees of the present apoplexy of a Government, who care as much about the people as their masters. Graft and hoodlums are their water-walk, but they will soon receive their just deserts at the hands of the people who are wise to their conduct.

St. Joseph's Society Holds Meeting.

St. Joseph's Society, of Bell Island, composed of Catholics of the Maronite rite, met in their hall on Sunday last and held their annual meeting. The Society is comprised of all the Syrians on the Island, and is affiliated with others in different parts of the Island. Rev. Fr. Svab is the Spiritual Director, and comes here annually to minister to those people. The reports of the Society presented at the meeting were very satisfactory and show a good balance to its credit. The officers elected for the year were:—President, Mr. Garbage; Secretary, Mr. J. Kazine; Treasurer, Mr. Nacossle. A good working committee was also formed. The Society is doing much good for the Syrian people.

Be sure you have a bottle of Stafford's Liniment in your home.—agls

Stole Valuable Glasses

Yesterday morning the captain of the mission ship Geo. B. Cluett reported to the police that a pair of binoculars worth \$12 had been stolen from the cabin of his ship, which is lying at Job Bros. premises. The steward, a man named Burge, told the captain that about 4 a.m. he had found a man who he thought was on board the ship all night asleep in the chart room, and he put him ashore quickly. He described this man to the captain, but there were certain circumstances surrounding the case which led the police to believe that the steward himself was the thief. About 7:30 p.m. the captain again came to the station stating that his steward was drunk and disorderly on the ship and asked that he be arrested. Sergt. Mackey and another officer took him into custody. Coming up to the station the man admitted that he had stolen the glasses and that he had sold them in a shop across the street for \$5. The police will try and find the glasses.

IN BAD STATE.—At 8:30 last night Const. Keefe found an unfortunate drunk in the darker part of George's Street, at the rear of the Lyon property, lying in that thoroughfare. He was in a stupor from liquor and his clothing was covered with mud. The officer had not found him, he might have smothered. He had him conveyed to the station in a cab.

Municipal Lighting of the City.

St. John's May Soon Control Its Own Lighting System—Power Will Come From Mobile River and Ponds. We understand that some time ago the municipality of St. John's acquired the right to use the waters of Mobile River and the ponds and lakes which feed it for the purpose of supplying to the city its own lighting system, municipally controlled. For the past two or three weeks at different intervals Engineer John Ryan of the City Council has been up in that section, assisted by Messrs. John Holden and Wm. Ryan, and has taken a complete survey of this large river and the lakes and ponds adjacent to it and also securing locations and doing other necessary work on behalf of the Council. Big Pond at Mobile is a splendid sheet of water, four miles in length, and its greatest width is 1 1/2 miles, while there are other ponds near which are very large and contain a great volume of water. A dam erected at the foot of Big Pond will back up the water there to a depth of 75 feet, and we learn it is proposed to use this water to the merits of the Order and its claims for our earnest support. Every candidate applying for admission into the mysteries of Freemasonry declares himself actuated by a favorable opinion conceived of the Institution, a desire of knowledge and a wish to be serviceable to his fellow creatures. Every Mason declares his belief in the Great Architect of the universe, and is bound to be true and faithful to the laws of his country. Touching the antiquity of Freemasonry a word at this time will suffice. Some writers affirm that it has a being "ever since symmetry began and harmony displayed her charms." It is traced by many to the building of King Solomon's temple; and it is said the architects from the African coast brought it into Spain, about the 13th century. "The Freemason" says: "Freemasonry, in its present form, is the result of many modifications, and the lesson of its progress can best be learned by a careful study of its own allegories and emblems. Like the stone, 'rude and unpolished, which passes into the hands of the expert workman, and finally receives the polish of perfection from the master's skill, so our Order has been handed down to us; good in its ori-

Escaped From Jail.

Yesterday by the express Sergt. Goodland brought in two prisoners one of whom is held for larceny and has been given two months, and the other for a crime recently committed. The prisoner who committed the larceny escaped from the jail at Bay St. George's last week. The grounds around the jail are not enclosed by a fence, and the man with some other prisoners were working about the place when suddenly Sergt. Goodland missed him. He was told by the other prisoners that the man had gone to the lavatory but the officer could not find him there and concluded he had escaped. Locking up the others Goodland went after him and had to walk 25 miles to effect capture. He took the man at his home in Bay of Island, and deserves credit for doing so, as he had to walk this distance over a very rugged section of country. The famous Autopiano. This splendid Player Piano is one of the wonders of the age. CHESSLEY WOODS, Sole Nid. Agent.—aug 28, 11

Consecration of Botwood Lodge

A. F. & A. M., No. 3512. Yesterday the Masonic delegation returned from opening a new Masonic Lodge at Botwood. The delegation left town on Sunday and had a most enjoyable time, being entertained royally by their hosts. The delegates arrived at Norris' Arm on Monday morning and were met by a number of brethren and taken across the Arm to Botwood in a large motor boat, and provided with homes and entertainment. At night the Botwood Lodge was consecrated under the registry of the Grand Lodge of England by the District Grand Master, W. Bro. J. A. Chitt, K.C. He was assisted by W. Bro. James Scott, D.D., G.M. as Senior Warden; C. S. Pincent, P.D.D.G.M. as Chaplain; S. G. Collier, D.S.G.M. as Junior Warden; W. J. Edgar, D.G. Secretary, as Secretary and Director of Ceremonies; W. Barker, D.G. Steward, as Inside Guard; and Bro. W. N. Gray as Organist. Some forty Masons took part in the ceremony. These included representatives from Lodges in St. John's, Grand Falls and Twillingate. The ceremony in due and ancient form was impressively conducted by the District Grand Master. He also delivered a short address and congratulated the brethren on the consummation of their desire to have a Lodge established among them, and his great pleasure at the privilege of consecrating it. He impressed upon them the responsibility of making the Lodge a success. Chaplain Bro. Pincent delivered the Oration, as follows:—

ADDRESS BY P.D.D.G.M. PINCENT. Right Worshipful District Grand and Brethren:

The purpose for which we are now assembled is one which must stir in our hearts enthusiastic feelings as Masons.

While we are thankful for the progress which Freemasonry has made in Newfoundland in the past, we may yet hope that, with the increasing growth and prosperity of the Colony, the opportunities will be afforded for the further advancement of the work of the Order. The pleasing duties which we are called upon this evening to perform justify that hope, and we may well congratulate the brethren of Botwood upon the Masonic zeal which has prompted them to take the necessary steps for the formation of a new Lodge. May they in the near future see the reward of their labor in a large and prosperous Lodge fully engaged in carrying on and extending the good work for which it was formed.

And this leads us to say a word at to the merits of the Order and its claims for our earnest support.

Every candidate applying for admission into the mysteries of Freemasonry declares himself actuated by a favorable opinion conceived of the Institution, a desire of knowledge and a wish to be serviceable to his fellow creatures.

Every Mason declares his belief in the Great Architect of the universe, and is bound to be true and faithful to the laws of his country. Touching the antiquity of Freemasonry a word at this time will suffice. Some writers affirm that it has a being "ever since symmetry began and harmony displayed her charms." It is traced by many to the building of King Solomon's temple; and it is said the architects from the African coast brought it into Spain, about the 13th century. "The Freemason" says: "Freemasonry, in its present form, is the result of many modifications, and the lesson of its progress can best be learned by a careful study of its own allegories and emblems. Like the stone, 'rude and unpolished, which passes into the hands of the expert workman, and finally receives the polish of perfection from the master's skill, so our Order has been handed down to us; good in its ori-

When You Feel Cross

And are worried and irritated you can get the liver right by using Dr. Chase's Kidney-Liver Pills. Life is too short to be cross and grouchy. You not only make yourself miserable, but also those about you. Don't blame others. Blame yourself for not keeping the liver right. There is nothing in the world which will more promptly afford you relief than Dr. Chase's Kidney and Liver Pills. This statement is true. A trial will convince you. Mr. Theo. Sedard, Lac aux Sables, Piqueur County, Que., writes:—"I have found Dr. Chase's Kidney-Liver Pills the best treatment obtainable for indigestion and impure blood. They cured me of indigestion, from which I suffered for four years. This certificate is given without solicitation, so that others may not waste their money buying medicines of no value when they can get Dr. Chase's Kidney-Liver Pills, which I am convinced are the best." Dr. Chase's Kidney-Liver Pills; one pill a dose, 25 cents, at all dealers, or Edmondson, Bates & Co., Toronto.

gin as a friendly and brotherly association, but better in its expansion as a humanizing principle and noble throughout the length and breadth of the earth. As we have said before, the true power of Freemasonry is to be found in its principles, and however much we may venerate antiquity, we had rather admit that the Order was founded in 1717 than allow a lot or title of those great principles to be obliterated or destroyed. One of the leading principles of Masonry is the cause of charity. In this connection we, in Newfoundland, have two important funds, namely, the Tasker Educational Fund, and the Masonic Benevolent Fund. Last year the Educational Fund supplied the means for the education of 43 children. The Benevolent Fund, too, has many calls upon it, and is doing noble work. In addition to these two benevolent funds, there is the Masonic Life Insurance Association, which is a valuable organization and is availed of by many of the craft. And here it may be mentioned that the charitable and benevolent institutions of the Order throughout the world are of such a character and magnitude as to elicit the admiration of those even who are not members of the craft. Time would not permit at present of an extended reference to such work, and so we shall merely give a few facts in connection with the three great charities of the Grand Lodge of England. The oldest of these is the Royal Masonic Institution for Girls, and was instituted in 1788. At the Centenary Festival of the Institution held in the Royal Academy Hall in 1888 the collection amounted to over £51,000. The income last year exceeded £24,000, and there were 430 girls on the roll. The Royal Masonic Institution for Boys was instituted in 1798. At the Centenary Festival held in the Royal Albert Hall in 1898, the collection amounted to upwards of £141,000. Last year 553 boys were on the roll and the income was £48,000. The Royal Masonic Benevolent Institution for Prisoners and their widows was established in 1835. Last year there were 900 annuitants on the roll and the income was over £43,000. The Masonic Fraternity may well rejoice that such figures can be quoted as an illustration of what is being done by the Order.

But we must be careful not to regard our Order as a benevolent society only. It is a great moral system, illustrated by symbols borrowed from the ancients and from the operative craft, conveying instruction to the Freemason, for the formation of the character, the guidance of the conduct, and the improvement of the mind. Let us now enter a Lodge. We see before us in the East the seat of the Worshipful Master. In the West that of the brother next in order, the Senior Warden; and in the South that of the Junior Warden; then there are the places appointed to the other officers of the Lodge. The symbolism of the three principal seats is thus described by Hemming: "The sun rises in the three stages of its diurnal progress, first in the east to open the day, and dispenses life and nourishment to the whole creation. This is well represented by the Worshipful Master, who is placed in the east to open the Lodge, and who imparts light, knowledge, and instruction to all under his direction. When it arrives at its greatest altitude in the south, where its beams are most piercing and the cool shade most refreshing, it is then also well represented by the Junior Warden, who is placed in the south to observe its approach to meridian, and at the hour of noon to call the brethren from labor to refreshment. Still pursuing its course to the west, the sun at length closes the day, and lulls all nature to repose; it is then fitly represented by the Senior Warden, who is placed in the west to close the Lodge by command of the Worshipful Master, after having rendered to everyone the just reward of his labor, thus enabling them to enjoy that repose which is the genuine fruit of honest industry."

members. For the present the Botwood Lodge will meet in the Orange Hall. The opening of the Lodge was commenced under happy circumstances and everything points to a successful and useful career in the future. ROYAL HOSPITALITY. The city visitors speak with the highest appreciation of the courtesies and hospitality extended to them. On Tuesday a banquet was tendered them in the Orange Hall, and about forty guests were entertained sumptuously. The toast list was honoured appropriately, and with the chiming of eleven o'clock and the singing of "Auld Lang Syne," the banquet was brought to a close. Falkenburg House, the residence of H. J. Crowe, Esq., was placed at the disposal of the visitors, and a dance was held for them there. On Wednesday the visiting brethren left Botwood, carrying away with them the warmest feeling of admiration for the homely welcome extended to them. They visited the works of the A. E. Reed Co., at Bishop Falls and saw the plant at work and the extension already being made. They then proceeded to Grand Falls where they visited the extensive power-plant, cutting, grinding, and paper mills and the settlement which houses the staff and employes. On Wednesday evening they joined the express and returned to town.
