OPEN REVOLT IN CAPE COLONY

Tactics of Dewet in Rallying the Dutch Successful.

There is Likely to Be Sharp Fighting—Baden-Powell and Brabant Ordered to the Front—Dewet's Generalship Resulted in Bold Movement That Caused Even His Enemies to Admire the Daring of the Man.

London, Dec. 22.—"We understand that reliable private advices have been received in London," says The Daily Mail, "to the effect that virtually all the districts of Cape Colony in the vicinity of the Orange River, are in more or less open revolt, and that there is likely to be sharp fighting on a large scale before the invasion is crushed. The tactics of the Boers in rallying as many as possible of the Dutch in the back country to their cause are proving successful."

Concentration of Troops. From the Cape Town correspondent The Daily Mail has received the following: "The second invading force was designed to occupy Britstown, but, being checked by the De Aar troops, it has disappeared into the Cedarberg Mountains.

An enormous concentration of troops is being made up on the belt country occupied by the invaders, but it is not likely that the Boers will offer battle in large numbers. There is a renewed demand for the wholesale proclamation of martial law."

B. F. and Brabant For the Front. Cape Town, Dec. 21.—Gen. Baden-Powell will start for the Transvaal to-morrow. The Boers derailed a train at Barberton, killing an inspector and others.

General Brabant, commander of the newly-raised colonial division, has been ordered to the front, and will start to-morrow. At Thordale, General French has routed 2,500 Boers, with four guns and a pompom.

Boer Resources Exhausted. Toronto, Dec. 22.—I. N. Ford, the London correspondent, cables the

loss of a 15-pounder ant to Boers. The British force despatched after Haasbroek came in contact with his commando at nightfall. The burghers were scattered, and the Welsh Yeomanry galloped among the retreating Boers, using their revolvers and the butt ends of their rifles with great effect.

An incident of the fight was the gallop of a British ammunition wagon right through the scattered Boers, the gunners using their revolvers freely.

SITUATION IN CAPE COLONY.

Fighting in the Older British Territory, But Boers Are Checked.

Cape Town, Dec. 22.—A Government memorandum issued last evening makes the following announcement: "The principal seat of action has been transferred to the northern part of Cape Colony. Early Dec. 16 a large body of Boers crossed the Orange River toward Burgersdorp.

A British force followed, to avoid which the Boers turned westward and occupied Venterstad, Dec. 18. But they evacuated the town the same day on the approach of the British, and marched in the direction of Steynsburg.

The Boers, however, have been intercepted, and find difficulty in moving in any direction, as Steynsburg, Burgersdorp, Stormberg, Rosmead and Naauwpoort are all strongly held by the British, and the Orange River has risen considerably in their rear.

"Another 2,000 Boers crossed at Sand Drift, making for Colesberg, but on the despatch of a British force, they diverged and occupied Philipstown Dec. 19, cutting the telegraph wires between Philipstown and Houtkraal. Early this morning a portion of these Boers reached Houtkraal Station, and cut the line there.

"Considerable reinforcements have been sent to De Aar and Hamover, and it is expected that further invasion will now be stopped, except in the case of scouting parties, which may slip through to raid cattle and to obtain much needed supplies.

"Hitherto there has been very little fighting, as the enemy in every instance have retired before the British. They took our garrison of 20 men at Venterstad prisoners; but the Magersfontein garrison repulsed their attacks, inflicting heavy loss, after some hours' fighting, and a refusal of a demand to surrender.

"It is probable that of the two invading forces the former is a part of Dewet's commando, and the latter consists of several small commandoes hitherto operating in the west of Orange River Colony, and of a number of rebels."

Martial law has been proclaimed in the following additional districts: Britstown, Victoria West, Richmond, Hanover, Murraysburg, Graaf Reinet, Aberdeen, Middleburg, Steynsburg, Cradock, Tarka and Molteno.

Boers Driven From Houtkraal. London, Dec. 22.—A despatch from De Aar, Cape Colony, says that the Yeomanry have driven the Boers out of Houtkraal, the enemy retiring westward.

Beaten off at Zunftfontein. Johannesburg, Dec. 21.—The Boers attacked Zunftfontein, Dec. 18, but were beaten off.

LOYAL NEW ZEALAND.

Little Colony Has Decided to Send Another Contingent to Africa.

Wellington, N. Z., Dec. 22.—The Government of New Zealand has decided to despatch another contingent to South Africa.

Activity at Aldershot. London, Dec. 22.—Considerable activity is now manifested at Aldershot. A large draft of mounted troops will be ready to start for South Africa Jan. 6, while others have been notified to hold themselves in readiness for the same destination.

According to the Cape Town correspondent of The Daily Mail the treason court sitting in Colesberg was obliged hurriedly to remove to Cape Town with the records and documents, owing to the vicinity of the invading Boers.

KRUGER DEFEATED BY ONE.

Darmstadt, Dec. 22.—By the President casting his vote, the second Chamber yesterday defeated a motion to instruct the Hessian representatives in the Bundesrath to propose the assembling of the Foreign Affairs Committee, with the object of initiating a proposal for arbitration between Great Britain and the Transvaal. Twenty-two votes were cast each way. All the anti-Semites and Social Democrats favored the motion. The representatives of the Government left the House before the debating on the motion.

THE GALE ON BRITISH COAST.

Ocean Liners Suffered Damage—No Loss of Life Reported.

London, Dec. 22.—The storm appears to have reached its height during the night, and, while the gale is still severe and the seas very heavy, it is hoped that the worst is over. Stories of wrecks and damage are coming from all directions. Happily, the fatalities are few. The steamers Somerset and West-Orland are now riding safe at anchor in West Bay, near Weymouth, after a fearful night. The Somerset is apparently considerably damaged, and tugs have gone to her assistance.

black top, of the rocks on Shearwater Island. She will be a total wreck. Her crew of 24 men is reported to have reached the shore. The vessel turns out to be the British ship Allswald, which sailed from Penarth, Dec. 19, for Bermuda.

The Dominion Line steamer New England, for Boston, had such a bad time in the channel that several of her crew were injured.

Telegraph lines are down in all directions. Communication with Scotland is cut off. The Mersey ferry boats have suspended service, and Channel passages have been the most tempestuous in years.

The storm at Belfast and in its neighborhood was the most severe in a decade. Great damage was done to property, and many persons were injured.

Gale Raged in Scotland.

London, Dec. 22.—The telegraph wires are being slowly restored, and news is arriving. The gale has done great damage generally in the north of England and Scotland. A Glasgow correspondent says: "Not since the storm which destroyed the Tay bridge, has such a gale raged in Scotland. High walls have been wrecked in Glasgow at Coalbridge, 10 miles east of Glasgow, several people have been killed, while at numerous other places roofs and chimneys have been destroyed and persons injured. Some of the buildings of the University of Aberdeen have been seriously damaged, and every telegraph wire, telephone and railway line are interrupted."

STEER RUINED A BULLFIGHT.

Texas Longhorn Had Ideas of Sport and Changed the Programme.

A resident of Des Moines was a witness to a Spanish bullfight at Seville, Spain, a few years ago in which one of the animals in the amphitheater was a Texas steer. As a steer, he says, will never attack a horse or a man on horseback. A man on foot he may kill, but a man on horseback he will not molest. He also does not shut his eyes when he charges, while a bull takes his line and then shuts his eyes and charges, never deviating from the line his sight gave him before he closed his orbs. This it is that enables the torador to step so easily out of the way, for the bull, not seeing, makes no attempt to reach the man when he has moved from the spot he occupied when the bull charged.

"The only trial of the Texas steer," continued the Iowan, "was pulled off at Seville, and while they intended potting seven the first one they let loose gave them all they wanted and quickly brought that experiment to an inglorious end. After the steer had cavorted about the ring for awhile they turned a horse loose. The steer paid no attention to him, but the horse, fearful of the unknown beast, would not advance. In came a helper with a sharp stick, and the steer, positively believing for joy started, as the crowd supposed, for the horse. By him the steer went in pursuit of the bigger game, and the helper shortly cleared the protective fence, with ten feet to spare owing to the steer's able assistance.

The representative of the Texas cattle trade went over that six foot barrier as though it was a prairie dog mound of his native plains, but the helper went out to one of the protective boxes and called.

"The steer did his best to get at him, but finding it impossible looked about for other game with which to sport. The representative of the Texas cattle trade went over that six foot barrier as though it was a prairie dog mound of his native plains, but the helper went out to one of the protective boxes and called.

"The steer did his best to get at him, but finding it impossible looked about for other game with which to sport. The representative of the Texas cattle trade went over that six foot barrier as though it was a prairie dog mound of his native plains, but the helper went out to one of the protective boxes and called.

"The steer did his best to get at him, but finding it impossible looked about for other game with which to sport. The representative of the Texas cattle trade went over that six foot barrier as though it was a prairie dog mound of his native plains, but the helper went out to one of the protective boxes and called.

Why a Cemetery Fence?

It was a Maine graveyard, and the fence thereof was in a most disreputable condition.

Some of the neighbors were trying to start a movement to put a new fence around the cemetery, and it was meeting with general approval till the caustic wit of Darius Howard was aroused. "What for?" he inquired. "What's the need of fencing the graveyard? There ain't no one inside that wants to come out, and I'm darn sure there ain't any one outside that wants to get in. So what's the need of the fence?"

Constipated Bowels.

Constipation, or inactivity of the bowels, is probably the cause of more distress and suffering than any other organic derangement. Once the bowels are constipated, the kidneys become clogged, the liver torpid, and the stomach and whole digestive system completely interfered with.

The head aches, there is dizziness, weakness and dimes of vision, pains in the back, sides and limbs, the accumulation of wind and gas on the stomach, and fullness in the region of the stomach, and depression and despondency of spirits.

Constipation can never be cured by the use of salts and similar weakeners, and debilitating purgatives. Dr. Chase's Kidney-Liver Pills not only cause the natural action of the bowels, but so strengthen and invigorate them as to enable them to regularly perform their functions without the aid of medicines. One pill a dose, 25 cents a box, at all dealers.

SEE THAT THE FAC-SIMILE SIGNATURE OF CHAS. H. FITCHER IS ON THE WRAPPER OF EVERY BOTTLE OF CASTORIA. Perfect Remedy for Constipation, Sour Stomach, Diarrhoea, Worms, Convulsions, Feverishness and LOSS OF SLEEP.

"THOSE OLD DAYS" When everything went wrong—fire just wouldn't burn—oven wouldn't bake—no matter how recklessly you piked in the coal! GURNEY'S Imperial Oxford Range. Has changed all that. You never hear of baking day "troubles" from a cook who uses the "Imperial." Its scientific perfection and superiority over all old style ranges is acknowledged throughout Canada.

ORIGIN OF TRADE MARKS Trade marks were used as far back as the 16th Century. They originated from the signs that, in the early ages, were hung over the shops telling of the wares inside. To-day the trade mark is branded on the goods themselves, enabling the purchaser to identify the good from the bad and indifferent.
