of the features. Barrows made three scratches in succession in the effort to break, and Sheere claimed all the

Trainmen in Sympathy With the Operators-The Men Anticipate a Substantial Victory.

Toronto, Oct. 2.—The strike of the C. P. R. telegraphers showed no particular developments yesterday. The officials report that on the Ontario division all vacancies are filled. Although the Brotherhood of Locomotive Engineers could not order its members out on strike until the expiry of their seven years' contract with the company, there is no doubt that the organization as a whole is in sympathy with the telegraphers. At their meeting in Toronto Junction it was decided that every assistance be rendered the men who are out by both the train-men and the engineers. But so far as the report that a general strike may be preciritated at any moment, there is nothing whatever to verify the rumor

TRAINMEN'S SYMPATHY. Ottawa, Oct. 2.- The railway trainmen, firemen, conductors, locomotive engineers and the trackmen at Ottawa and all the leading divisional points clear through to the Pacific coast, held a meeting Wednesday night at which resolutions were passed sympathizing with the railway telegraphers, approving of the stand taken by them, and expressing willingness to go out on strike with them. The resolutions conclude by calling upon the grand officers of the different organizations to at once call out their members on the C. P. R. system if neces-

AN OFFER FROM THE COMPANY. Montreal, Oct. 2.—If there is a change at all in the C. P. R. strike situation at this point it is in favor of the railroad, which is now beginning to move some freight trains. The trainmen are interesting themselves in the strike, and it is said a compromise is being arranged. Advices from Winnipeg say the locomotive engineers are likely to support

the strikers. Freight in Manitoba is badly choked, but the passenger trains are moving along, somewhat late, how-A notice has been issued by Assistant General Manager Tait to all the division officers, which concludes as follows: "Every dispatcher and operator who was at his post when the strike was ordered, and who quit work in consequence of such order, may, if his place has not already been

filled, return to his post, provided that he do so before 5 o'clock this (Thursday) afternoon. He must not return, however, unless he is willing to conform to the company's rule, that Toronto, Oct. 2.—The Woodbine track all grievances must now be submitted and dried out well yesterday, but was to divisional officers before they are laid before the management at Montreal. They were which had never been discussed with the officers responsible for the company's affairs on the divisions upon which the men were employed. As a result a strike was ordered by one of the officers in the United States of the telegraphers' organization. Every locomotive driver, conductor, fireman and other employe connected with reputable organizations knows that the demand of the telegraphers in this instance was unwarranted, in violation of common practice, and every rule of discipline.
