PAID DEARLY FOR HIS POTATOES

Piccadilly Street Resident Has His Faith in Human Nature Rudely Shattered.

When Mr. Phillip McGinnes, of Piccadilly street, hereafter buys anything from an apparently unsophisticated countryman on the market, he will not only demand and receive a receipt therefor, but he will also obtain a full description of the guileless rustic, and if possible, secure his measurements may the Bertillon system for use in subsequent identification and prosecution by the criminal authorities. Mr. McGinnes' course will be prompted by an experience which he had on Saturday last. He had gone to the market to purchase some potatoes, and after inspecting those displayed on several wagons, he found some very nice ones, for which the owner asked 40 cents per bag. Mr. McGinnes produced three quarters and a dime, but as the farmer had no change, Mr. McGinnes told him to keep the extra nickel, at the same time instructing him to deliver the potatoes at the purchaser's home on Piccadilly street. The farmer's subsequent action, it must be confessed, is calculated to shake the simple faith of those who believe that the farmer brought so close to nature in his most softening and ennobling moods, must necessarily be thereby lifted to a plane of moral and spiritual excellence untouched by the ordinary city dweller. The farmer, though he knew he had already been overpaid for his potatoes, evidently decided that he needed the money, for upon delivering the vegetables, he collected the price from the mistress of the house, and drove away. He is described as a tall, elderly man, with a long beard, and the local police will keep their eyes open for his reappearance on the market.

BEAUTIFUL OPAL FOR DR. CLARKE.

Popular Lecturer of Western Medical College Honored by Class of '04.

Dr. George L. Clarke, who is one of the most popular lecturers at the Western Medical School, was presented Saturday evening with a beautiful opal ring at the hands of the class of '04. The presentation was made by Mr. J. A. Wright, and an address, expressing the esteem in which Dr. Clarke is held by the students, was read by Mr. H. G. Taylor. Dr. Clarke responded in suitable terms. The address was as follows:

To George L. Clarke, M.D.: Dear Doctor—There are times when a feeling of gratitude must in some way, however small, express itself, and we realize that this is such an occasion.

We have for some time desired to express in some way the high esteem in which we hold you, both as our instructor and friend, and to show you that we are deeply grateful for your ceaseless energy and untiring zeal, which have in great measure laid the foundation for our future studies. We cannot hope to repay you in any intrinsic manner for your kindness, and these words fail to convey our heartfelt appreciation; but we ask you to accept this ring as a reminder to you that the class of '04 are not indifferent of your efforts in their behalf. We trust that in the future, even more so than in the past, success and happiness may attend your every effort, and that you may long be spared to ornament the noble profession to which you belong.

ENTOMBED 60 HOURS

Rescuers Reach the Imprisoned Aurora Miners—Two Rescued Alive.

Aurora, Mo., April 29.—Rescuers reached three of the five miners who had been entombed in the Rosebud mine since last Thursday, at 2 o'clock yesterday morning. Two were rescued alive, one was found dead, and the other two are supposed to be lifeless. Grant Shard had been manfully fighting rocks and earth, and undoubtedly died instantly.

Pat's taps on the iron rails announced that two others were still alive. They are William Shane and George Foster. A large stone boulder had Foster plied by the foot, and in that position he had remained for a day. He was nearly famished when reached by the workers, but was revived with the aid of stimulants.

At 10:30 p.m. the rescuers were near William Shane, who was plied by the foot with a dead man underneath him. Shane was scarcely able to talk. His arm is broken, and it is feared that he may lose his mind. He was removed at 11 o'clock, after an imprisonment of 60 hours and 50 minutes.

The other two are probably dead. Five thousand persons were about the shaft all day and night.

Mark Twain, at the reunion of a business college society in Poughkeepsie, N. Y., was introduced as a personal friend of Tom Sawyer, who was one of the types of successful business men. He recounted some of the various business ventures he had failed in and said: "I was still undismayed. You see, one of the strong points about my business life was that I never gave up. "I undertook to publish Gen. Grant's book and made \$140,000 in six months—and lost it all in the next six months. My axiom is: To succeed in business, avoid my example."
