FIRST-CLASS WATER.

Government Analyst Harrison has analyzed the water from the Victoria Richards. Hospital well, and pronounces it firstclass, and as good drinking water as he city's Where standards of purity state that water is first-class if it absorbs 0.5 parts of oxygen in four hours or .05 parts of nitrogen, this water absorbs only .135 of the first and .016 of the latter. It contains considerable solids, but Prof. Harrison was of opinion that they will not scale, but deposit as a fine powder, which would readily flow off. This will do away with the difficulty experienced by the scaling of the boilers which followed the use of city water.

The annual meeting of the teachers

and officers of the Adelaide Street Baptist Sunday school, which was held last evening in the lecture room of the church, was one of more than or- Hrs. Jessie Clark Gives Evidence of dinary interest and enjoyment. At 7:15 the teachers and officers sat down to an excellent tea, provided by the staff of the school. After tea the business meeting took place. Mr. D. H. Gillies, the superintendent, occupied the chair. Mr. Gillies made an excellent address, briefly reviewing the bourne, charged with the murder of year's work. He then called upon the the latter's infant child by the per-

on hand of \$88 16. The report also showed an increase in the junior department of the school, this class having 69 scholars on the roll. The largest attendance for any one Sunday during the year was 234 and the smallest 132. Mr. Moorhead also referred in grateful terms to the kind assistance given him in his work as secretary during the past twelve years.

Pastor Thomas S. Johnson was present and made a few timely remarks, in which he congratulated the school on the success attained. The election of officers for 1902 was then proceeded with, resulting as fol-

WHAT GOES UP

Must Come Down

Nothing is more certain than that the use of so-called tonics, stimulants and medicines, which depend upon alcohol for their effect, is injurious to health in the long run.

the elevation of spirits, the temporary exhilaration resulting from a of medicine containing alcohol, will certainly be followed in a few hours by a corresponding depression to relieve which another dose must be taken. In other words, many liquid patent

medicines derive their effect entirely from the alcohol they contain. Alcohol, and medicines containing it, are temporary stimulants and not in any sense a true tonic. In fact it is doubtful if any medicine or drug

is a real tonic. A true tonic is something which will renew, replenish, build up the ex-hausted nervous system and wasted tissues of the body, something that will enrich the blood and endow it with the proper proportions of red and white corpuscles, which prevent or destroy disease germs. This is what a real tonic should do, and no drug or alcoholic stimulant will do it. The only true tonic in nature is wholesome food, thoroughly digested. Every particle of nervous energy, evblood is created daily from the food

we digest. The mere eating of food has little to do with the repair of waste tissue, but the perfect digestion of the food eaten has everything to do with it.
The reason so few people have perfect digestion is because from wrong habits of living the stomach has gradually lost the power to secrete the gastric juice, peptones and acids in sufficient quantity.

To cure indigestion and stomach troubles it is necessary to take after meals some harmless preparation which will supply the natural peptone and diastase which every stomach lacks, and probably the best preparation of this character is Stuart's Dyspepsia Tablets, which may found in every drug store, and which contain in pleasant palatable form the wholesome peptone and diwhich nature requires for prompt digestion. One or two of these excellent tab-

lets taken after meals will prevent souring, fermentation and acidity, and insure complete digestion and Stuart's Dyspepsia Tablets equally valuable for little children

as for adults, as they contain nothing harmful or stimulating but only the natural digestives. One of Stuart's Dyspepsia Tablets will digest 1,800 grains of meat, eggs or other wholesome food, and are in every sense a genuine tonic because they bring about in the only natural way a restorative of nerve power, a building up of lost tissue and appetite, in the only way it can be done by the digestion and assim-

MONTREAL AND BOSTON. MURDER CASE IS UNDER WAY

Preliminary Examination Begun at Police Court.

Miss Kilbourne's Visit to Dr.

The preliminary examination of Dr. Alex. Graham and Emma Agnes Kilbourne, charged with the murder of secretary and treasurer, Mr. Charles forming of an operation, was prograted very gratifying.

The amount received by the school during the year was \$225 20 and the expenditure \$137 14, leaving a balance on head of \$88 16. The report also ing. By order of the police magis-trate the public were excluded from the courtroom, and only members of the press and those connected with the case were admitted. Mrs. Jessie Clark, a neighbor of the Kilbourne's, was the first and only

witness called at the morning session. Her examination was conducted by Crown Attorney Magee, Mrs. Clark told substantially the same story as related by her at the coroner's quest last week. Mr. Magee's examination was not finished at noon, and an adjournment was made till 1:15, when court resumed. Mr. McEvoy started his cross-exam-

ination of Mrs. Clark about 2 o'clock. To him she said that she had come from St. Marys about six years, when she was 18 or 19 years old. She had never been ordered off the street by policemen there. Witness refused to tell the reason why she came to London, except that she came to be sick. She refused to deny that she was in trouble. Mr. McEvoy secured from her the admission that she had at different times kept four or five illegitimate children for pay, but the children had never been born in her house. She was not told to leave St. Marys by her parents. She never bought or pennyroyal in her life at a drug store, and only one packet of cottonroot pills, which was for Miss Kilbourne. Witness admitted that she had had a miscarriage herself. Witness never advised Miss Kilbourne to

take turpentine. The examination continued all af-

Results of Vigorous Educational Campaign.

Premier Ross Expresses Great Satisfaction-Predicts That the Province Will Be Carried in the Same Way.

[Globe, Dec. 6.] The result of the West Huron bye-

election was regarded with very great satisfaction by Liberals in the city yesterday. It was felt to be a perfectly safe augury of victory in the coming ery minute muscle, fibre and drop of general elections, having in view the desperate efforts of the Opposition campaigners who filled the riding, and who failed to overcome the sober judgment of the electors when once they understood the significance of the Liberal policy. Premier Ross, when seen by a representative of the Globe, regarded the result with great satisfac-

"The government was confident from the outset," the premier said, "that West Huron would support the Liberal candidate if the electors were fully informed as to the policy of the government, and accordinly from the very beginning the campaign was conducted on educational lines. It was with this object that several members of the government visited the riding, and also with the same view secured the valuable assistance of leading members of the party. The local leaders, including the candidate, applied themselves with great energy to the work of organization, and to the platform as

"I am convinced," the premier said, "that a campaign similarly conducted throughout Ontario is the surest way to victory. Every elector seized the importance of the watchword of the government, 'Build up Ontario,' and, whether a Conservative or a Reformer, cannot but appreciate the advantage of developing the resources of old Ontario as well as opening up New Ontario to settlement and colonization. Against this was placed the feeble criticisms of Mr. Whitney and his colleagues on the policy of the government. They had nothing to offer of a constructive character, and it is grati-fying to find that the electors are not prepared to pull down a government with such a splendid record as the Lib-

Liberal, Col. Leys, a majority over his opponent of 1,655, and now West Huron increases its Liberal majority five-fold. change." Who says it is time for a

shoes? It seems impossible to get a Rubber that won't pinch or be loose on my foot. You know, I have a peculiar shaped foot, and have to wear one of the "Slater" special

shapes. Now, why don't you people make special rubbers to fit these shapes?"

"Slater Shoe" agents had so many customers who wanted rubbers to fit "Slater Shoes" that the "Slater Shoe" makers decided to meet their wishes,

Last year "The Slater Shoe Rubber" made i

appearance. It fits all shapes of "Slater" an All styles of rubbers and overshoes, \$1.00 up.
