What opinion have you fegarding Canada as a field for the investment of British capital? 2. What do you think of Canada as a permanent home suitable for the British emigrant? 3. What impression have you of the progress of the development of Canada? The vice-president of the South of Scotland Chamber of Commerce urges that changes be made in the law so as to secure greater protection for investors, and also in the bankruptcy laws. T. A. A member of the Chamber of Commerce of Dublin thinks Canada offers a pre-eminently encour-

D SDUSSING CHAMBERLAIN.

The Scotsman says Mr. Chamberl most remarkable feature of the situation is that, outside of party politicians, no one has any real hostility to his scheme. Nowhere is there the shadow of a sign that the workingmen of this country are opposed to the new fiscal policy. Mr. Chamberlain hints that the general election will not come as soon as the prophets predict, and he promises an interval to

educate the country.
The Times calls Sir Campbell Bannerman's assigning British trade stagnation to the need of more technical skill a cheap argument. British labor, it says, despite its weakness, is more effective than that of any continental

country. Staffordshire potteries, at largely attended meeting, pledged themselves vesterday to further the fiscal proposals of Mr. Chamberlain Ritchie says that on Dec. 12, at Croydon, he will make a complete answer to Mr. Chamberlain.

SAYS CHAMBERLAIN'S WRONG

Mr. Wyndham Takes the Stump and Declares Himself for a Retaliatory Policy.

London, Oct. 24.-At a meeting held in Westminster of the parliamentary Leagues, the Duke of Devonshire was unanimously elected president of the league, and Lord Goschen, Chancellor of the Exchequer, in the second administration of Lord who occupied the same office from 1895 to 1902, and C. T. Ritchie, who resigned as Chancellor of the Exchequer The meeting approved the issue of a manifesto setting forth the views of the league. Briefly this manifesto expresses the willingness of the league

to consider in a friendly and loyal spirit any definite plan the Premier may submit to Parliament. It criticises adversely and at considerable length, however, Joseph Chamberlain's proposals and declares they would impose all the disadvantages of an imperial zollverein with none of its gains and tend to promote the disintegration rather than the union of the empire, while leading inevitably to a policy of protection.

Victor Cavendish, heir to the Duke of Devonshire, who recently was ap pointed Financial Secretary to the Treasury, speaking at Derby made trader, and his consenting to in the Government created comment at the time of the crisis.

Chief Irish Secretary Wyndham, whose declaration on the fiscal question has been awaited with considerable interest, which has not been diminished by his successful land bill fight, spoke at Dover last night. He announced himself as thoroughly in accord with Premier Balfour and Jos. Chamberlain in fiscal matters, and he paid a tribute to the former Colonial Secretary, as "the man who has seen the lack of wisdom of the nation entering the commercial lists without arms and without armor." The meeting was enthusiastic, although the mention of Mr. Chamberlain provoked some interruption. Replying to the disturbers, Mr. Wyndham declared that Mr. Chamberlain was still of the party, if not of the Government; that he had gone ahead to reconnoitre the path for the Unionist army and that e had resigned in order not to commit the Unionist to follow him unless his course. Mr. Wyndham said the when followed by damage.

There has been some demand here for Canada fleece wool for export to the United States, but prices are apparently above the view of buyers. Northwest orders to igation are larger.
