WORK IN CLIQUES

Continued From Page One.

gured to be out on the streets so late at night. Many complaints, he said, had been made by parents. "It hardly seems right," he said, "to have little chaps out until 11 o'clock at night, not one night a week, but often several."

Chairman Wecker said that he agreed with Dr. Teasdale, and had also heard of the matter. Things, however, are being arranged so that in future the Scouts will not be out late at night.

Normal School W-k.

Dr. Teasdale thought the present system of allowing the Normal School students to take the work in the en-

trance classes at Simcoe street and building. The matter was left with Grand avenue schools interfered very greatly with the work of the teachers, and had a bad effect on the classes. He thought that more schools ought to be included so that the teachers could go to those and not be so often at the two schools. In this way the effects on the senior class would not be so bad. It was decided to have Inspector Edwards consult with the principals of the Normal school and Simcoe street school in regard to the matter.

Exhibits at the Fair.

A letter was read from Secretary Hunt, of the Western Fair, asking that the classes in manual training give exhibitions of their work in the main building at the Fair. He thought such an exhibition would be of great interest, and said the board will willingly provide a place in the main

The resignation of Miss Lily Westland, of Victoria school, who is leaving on account of ill health, was also respectfully accepted.

Recommendations.

The following recommendations of Inspector Edwards also carried: That Miss Eva Field, Zella Fawkes and Elsie McCallum be placed on the permanent staff. That the annual supply of pictures for the public schools. That Miss Morris be transferred from Simcoe street to Wortley road, and Miss Fisher from Princess avenue to Simcoe street.

TO CURE KIDNAPPERS

New York State Makes the Punishment More Severe.

New York, Sept. 1.—Two new laws went into effect in New York State today, which the police here expect will do much to curb the activities of kidnapers and Black Hand extortionists. The new laws extend the definition of extortion and double the penalties for the Black Hand letter writer and kidnapper.

One of the laws distinguishes between a kidnapper of a child where a parent is concerned, and where the kidnapper is other than a parent. If by a parent, the penalty is imprisonment for a maximum of ten years, but if by a person other than a parent, imprisonment for a maximum of 20 years and a minimum of ten years. A person found guilty of extortion is punishable by imprisonment for not more than 20 years.

Mild, But Effective Remedies

Those who prefer homeopathic remedies to the regular old school medicines will find an unusually complete line at our store. Besides the leading lines of ready put-up specifics, we carry

HOMOEOPATHIC MEDICINES
In bulk and can furnish fresh mother tinctures, and pellets and tablets medicated as desired.

"ROUTLEDGE AND RECIPROCITY" PROVING WINNING COMBINATION

Dorchester Audience, Irrespective of Party, in Sympathy With Move for the Larger Markets.

[Special to The Advertiser.]

Dorchester, Aug. 31.—"Routledge and reciprocity" make a popular combination in East Middlesex, and their popularity is now more than evident in Dorchester. Last night the Liberal candidate, assisted by Mr. T. H. Purdon, K. C., and Mr. Jared Vining, spoke here, and he was greeted by a very large audience, all of whom were apparently much in sympathy with his platform. Many Conservatives are throwing party allegiance to the winds, being determined to vote for their own interests in this campaign. This cause is gaining ground continually. From every section of the riding come excellent reports, and there is every prospect that Dr. Routledge will win.

Mr. Jos. S. Rogers, sen., occupied the chair at the meeting last night. He was delighted to see so large an audience, and hoped that all would be convinced of the reasonableness of the Liberal appeal in this campaign and support it.

A Treaty.

Dr. Routledge was given a great reception when he arose to speak. He was glad to be among his many old friends in Dorchester. They had always been good to him, and he hoped that in this contest they would do better than ever.

The speaker dealt particularly with the statement that the agreement was a treaty that could not be abrogated at will. This was not the case, as the prelude to the pact clearly showed, but was merely a bargain that could be terminated at any time at the will of either party to it.

"Any time we find it is not in our interests, we can abrogate it," said Dr.

Routledge. "It will do no harm to try it. I am firmly convinced that it will prove of inestimable benefit to Canada." The horse industry would be greatly benefited by the pact. The markets of Boston, New York, Buffalo and other cities would take a large number of Canadian horses. Dr. Routledge quoted the opinions of such well-known horsemen as A. Yeager, Simcoe; Lot Edmunds, Blenheim; Art Bedford, Chatham, and others, who declared that although their politics were not Liberal as a rule, they were convinced of the benefits that reciprocity would be to Canada, and, therefore, would support it.

Benefit All Classes.

Mr. T. H. Purdon, K. C., made an excellent impression. He declared that the reciprocity agreement was certain to be of untold benefit to the farmers of Canada, and, as a result, beneficial to all classes. The argument was in accord with the new movement inaugurated not long since by President Taft and King George, and it would do much to bring the great English-speaking nations to a better understanding and into closer relations.

The Last Chance.

Mr. Jared Vining pointed out that this was the last opportunity that the farmers would have to test reciprocity. If it were rejected now, not in the lifetime of any of his audience would the Government of the United States give Canada an opportunity to obtain it. He warned the farmers not to lose it, but to vote for the candidate that was in favor of the pact, regardless of party feelings.

The meeting closed with cheers for the King and the candidate.

PORT MASQUERADE SPOILED BY WEATHER

Only Six in Costume and Small Crowd of Sightseers.

[Special to The Advertiser.]

Port Stanley, Aug. 31.—Miss Eva Elliot, of St. Thomas, is the guest of Miss Hazel Haight, of Indiana Cottage, Hill Crest.

Mr. John Stevely and family, of Invererie Heights, have returned to their home in London.

Miss Cecelia Russell, of 34 Trowbridge avenue, and Miss Jessie Garretton, of 779 Humbolt avenue, Detroit, are spending their holidays at Woodlawn.

Miss Alma Price and her cousin, Miss Elvira Price, of St. Joseph, Missouri, have returned home after visiting relatives at Ipperwash Beach, Lake Huron.

Miss Minnie Ferguson, daughter of Mr. James Ferguson, formerly of this

PLACE, HAS RETURNED TO DETROIT

after visiting relatives here the past week.

The local Brotherhood of Locomotive Engineers of St. Thomas, will picnic here on Saturday.

The steamer Glen Erie left for Erie, Pa., this evening to be placed in dry dock in order to have a new propeller wheel installed, which was made by the Erie Engine Company, of Goderich.

Mr. Harold F. Meek has left for New York City, after spending his holidays with his parents, Mr. and Mrs. Thos. Meek, of Hill Side Farm, Southwold.

An excursion from Stratford was run here today.

The much heralded masquerade on the board walk for tonight was a complete failure owing to the weather. Only six appeared in costume, and the crowd of spectators was small.

The Citizens' Band of London, furnished the programme at the roller coaster. The weatherman froze the whole affair.

COAL GOES UP

Fifty Cents a Ton Was Added This Morning.

Today being the 1st of September, coal prices in London advanced 50 cents on the ton. Every year the price of coal advances at this time, the end of August being the last day of the low rate from the mines. The dealers in this city have decided on the following prices:

Coal, 14-ton, 14-ton, 14-ton.
Chestnut \$7.50 \$7.75 \$8.00
Store and chestnut, 14-ton \$7.50 \$7.75 \$8.00
Egg and stove \$7.25 \$7.50 \$7.75
Pea \$6.00 \$6.25 \$6.50

SECOND DEGREE MURDER IN GEIDEL CASE

The Verdict in Trial of Bell-Boy Who Killed Broker.

[Canadian Press.]

New York, Sept. 1.—The jury in the case of Paul Geidel, the 17-year-old bell-boy, charged with the murder of William H. Jackson, in the Iroquois Hotel on July 26, returned a verdict of murder in the second degree this morning. The jury had been locked up all night.

By the verdict of the jury Geidel escapes the electric chair, but will be sentenced for a long term in either Sing Sing or Auburn Prison.

Motions were deferred by Judge Crain until next Tuesday, when sentence will probably be passed. A verdict of second degree murder provides for imprisonment for a minimum term of twenty years to a maximum of imprisonment for life.

When Geidel was brought into court to learn his fate he was pale and wept. He looked into the faces of his relatives who were in court. The prisoner had nothing to say after the verdict was pronounced, and he was quickly led away to the Tombs Prison.

CHICAGO SKYSCRAPERS ARE LEANING TOWERS

Half a Dozen Big Buildings Are Out of Plumb, and One Threatens To Topple.

New York, Sept. 1.—A Chicago dispatch says: The discovery that the thirty building, a sixteen-story Dearborn structure, is three feet out of plumb at the skyline has set the city building inspectors investigating. They say every skyscraper in the city is leaning more or less. The twenty-one-story Masonic Temple is seriously out of plumb, while the Elsworth building and the Pullman building also are tilting the tower of Pisa. The owners of the thirty building have been ordered to straighten it out, or it threatens to topple.

The subway, constructed in swampy soil, is blamed for giving the skyscrapers a dangerous tilt. If it were not for the steel construction the city would order several tumbled.

EXPLOSION AT MONTREAL

Great Excitement in Chinatown When Street Splits Open.

[Canada Press.]

Montreal, Sept. 1.—The explosion of a twelve-inch gas main in the heart of Montreal's Chinatown caused great excitement among the Oriental residents of Lagardette street east shortly before midnight last night.

The main had been leaking for some time, and it is thought a smoker's match caused the trouble. The street was torn

open for a distance of about 100 feet, and the gas escaped in great quantities.

The explosion caused the street to split open for a distance of about 100 feet, and the gas escaped in great quantities.
