GOVT. APATHETIC AS TO FISHERIES

Opposition in Legislature Scores Do-Nothing Policy of Sir James Whitney.

U.S. TRUST CONTROLS

Report of Fish and Game Commissioner Brings Repudiation From Government Member.

[Special to The Advertiser.]

Toronto, March 18.—This, the second day of the last week in Lent, found the Legislative Assembly discussing fish. Mr. W. E. N. Sinclair (South Ontario), quoted from a report made by Mr. Kelly Evans, the Government's special commissioner, to show that the United States fish trust has been allowed to dominate the fishing industry of the Great Lakes. It was three years since the Government had appointed Mr. Kelly Evans to investigate the condition of the fisheries of the province, the South Ontario Liberal pointed out, and on March 7, 1911, he had presented his final report. Only a month ago the House had been informed by Hon. Dr. Reaume, minister of public works, that the Government had taken no action in the matter, and he thought it was time for them to wake up, in view of the increasing cost of living. He charged that every game warden and overseer employed by the Government in the fisheries department was a politician first and an employee last.

Quotes Report.
Quoting from the report of Mr. Kelly Evans, the speaker showed that one overseer employed by the Government is 90 years of age, while another, in the words of the Government's own commissioner, "couldn't row a boat." He suggested that the fisheries of the province should be managed by a commission similar to the hydro-electric commission or the Temiskaming and Northern Ontario Railway commission.

Hon. Dr. Reaume, minister of public works, endeavored to prove that the catch of fish in the last few years had shown an increase and that the inland waters of the province were not being rapidly depleted, as the South Ontario Liberal had contended. The minister said further that licenses were now issued indiscriminately to applicants, and not merely to friends of the Government, as in past years when the Liberals were in power. Also the Government officials were careful to see licensees did not exceed the number of yards allowed on their licenses.

Employees as Politicians.
Mr. W. R. Ferguson (West Kent) did not agree with the Minister of Public Works, that any change had been made by the Government in the policy of issuing licenses. Furthermore, he could not see how the Government could repudiate a report made by its own special commissioner. He said the practice of permitting employees of the fisheries and game department to take part in elections was reprehensible and deleterious to the efficiency of the service.

Mr. R. R. Gamey (Manitoulin) contended that the recommendations made by Mr. Kelly Evans were completely impracticable. He defended the policy of the Government. The United States fish trust did not frighten him. It was absolutely necessary that such a corporation should be permitted to purchase the fish caught in Ontario lakes, as there were no concerns here big enough to handle such large quantities as Ontario fisheries had to sell at certain periods of the year.

Do-Nothing Policy.
Mr. Allan Stucholme (East Hamilton) contended that the Government was doing nothing. The Administration in Queen's Park was allowing American trusts to come and take away Ontario's fish supply, and that should not be. "Why should we permit them to take our fish, grade them and ship the culls back here for us to eat?" the Labor member asked.

Mr. J. C. Elliott.
Some pointed remarks were made by Mr. J. C. Elliott (West Middlesex). What struck him about the effort of

HOOD'S PILLS Cure Biliousness, 25c. Best for all liver ills. Try them.

KINCARDINE BOARD WANTS A NEW PUMP

Considerable Discussion Over Steam and Electrically Driven Apparatus.

[Special to The Advertiser.]

Kincardine, March 18.—At the regular meeting of the water and electric board, Mr. Ingram gave a report of his examination of the various kinds of city pumps. There was some discussion re the efficiency of electric-driven versus steam-driven pumps with the power at disposal.

The secretary was instructed to write to various manufacturers of pumps and learn the terms, efficiency, capacity, etc., of a 1,000-gallon-per-minute pump.

Mr. Harris, night engineer, asked for a two-weeks holiday season some time throughout the summer. It was not granted.

The question of patrons being in arrears was inquired into. Instructions were given the secretary to bring in a report of all in arrears previous to 1913, and have the money collected if possible.

Instructions were given to the secretary to get a map of the water pipes, gates and shut-offs in the town, sizes of mains, and general information. The knowledge of positions is not known to anyone but the engineer.

An electric fixture is needed at the standpipe for shut-off or letting on of water in cases of fire.

DECLARES HE LED TAXI-CAB BANDITS

Head of Gang That Has Been Terrorizing New York Confesses.

[Canadian Press.]

New York, March 18.—Joseph Taylor, the dapper, cane-twirling young man, who coolly confessed to the police last night that he was the leader of the band of taxicab bandits that has been terrorizing the city for the last few months, was expected by the police today to make revelations which would lead to further arrests. Besides Taylor, ten men are held today as the result of the work of detectives, who have been trying to run down the perpetrators of some of the boldest street robberies in the present generation of police. Taylor gives the names of some of his alleged confederates, but with one exception refused to implicate them further.

Deputy Police Commissioner Dougherty said today he was confident that Taylor would tell more and added that he believed his confession would spur the others in custody to confess also. Taylor, according to the police, is inclined to boast of his prowess.

SERVED 37 YEARS

[Canadian Press.]

Waupun, Wis., March 18.—Edward Eckart, of Pennsylvania, was today paroled from the Wisconsin Penitentiary after 37 years of actual time served behind the bars. He was convicted of murder when 21 years old. Eckart's victim was Charles Peterson, also of Pennsylvania. The two were trapped in Wisconsin during the excessively cold winter of 1875. In a quarrel over a fire started beside the railroad track near Jefferson, Peterson was killed and Eckart was sentenced to life imprisonment for the murder. He never has admitted the crime, maintaining that Peterson was killed by a tramp.

In the 37 years of prison confinement never a mark of credit has been placed against Eckart. He cannot leave Wisconsin, and his conduct must be exemplary in every way. In the third of a century of imprisonment his kin have deserted him, and he does not know the whereabouts of his wife and daughter. Prior to his imprisonment, Eckart saw much of the world, sailing the seas, and working in the diamond fields of South Africa. The judge who sentenced him and the district attorney who prosecuted are dead, and only three of the jurymen are yet living.

Eckart never lost hope. Without money he managed to bring his case before the supreme court of Wisconsin and the circuit court of appeals, but at every turn he was thwarted. In a desperate last hope he appealed to a Milwaukee newspaperman, who was instrumental in obtaining his conditional release.

QUAKE IN HAWAII.
Honolulu, March 18.—A heavy earthquake shock was recorded last night by the observatory seismograph at the volcano of Kilauea. It is estimated that the centre of the disturbance was 2,500 miles away.

LOST HIS RESIDENCE.

Winnipeg, March 17.—Col. G. C. Porter, news editor of the Telegram, lost his residence in Douglas Park by fire Sunday. The family was absent at the time. The loss is \$6,000, and insurance \$3,400.

Spring May Be Late, But This Is Easter Week

THE weather is frivolous, and it is problematical just what notion it will take between now and Easter—the best we can do is to be prepared, and considering the early date, our Easter display was never more complete.

An acknowledged authority on woman's dress has declared that this will be a frivolous season; and it is true that everything is gay, piquant in tone and draped, but above all it is a season of richness in fabric and color.

The new things we are unpacking every day are examples of this, and the piles of empty cases suggest how thoroughly we are equipped to meet every imaginable Easter need.

Women's New Easter Fashions in Tailored Suits, \$13.50 to \$50.00

WE ARE in full readiness for Easter and spring wear, and are particularly proud of our Women's Suits at from \$13.50 to \$25.00, and we feel justly so, as they are attracting much attention. No sooner out of the boxes until they are picked up. They are so different from the ordinary tailored suit, as they have touches that distinguish to-order suits selling at double and triple the price. The makers have taken their cue from Paris, and have reproduced the choicest conceptions from the best designers, and skilfully worked them into these tailor-mades of the finest imported materials. Women who have already seen these suits say that they are the best they have ever seen for the money. See special Easter Suits. \$13.50 to \$25.00. Novelty styles also up to \$50.00.

Your Easter Hat

HUNDREDS of Spring Hats are trimmed ready for Easter, fresh from our own workroom. A constant changing variety. Each day brings something new to replace those that troop out—and troping is the word, for never were Women's Hats so easily sold as this season. Each day adds variety. Not an endless repetition of styles.

Simplicity Is the Keynote

And the charm of the Hats this season. But it is the art in giving it that touch which is more difficult in simple styles than with hats heavily burdened with trimmings.

Our famous Trimmed Hats at \$6.00, \$8.00 and \$10.00, present an unequalled display. Unequalled in style, variety and quality. All made and trimmed in our own workroom, and only materials of excellent quality used. See special Easter showing at, each... \$6.00, \$8.00 to \$12.00.
