DIPPING THE FLAG.

One of the Oldest of All Methods of Marine Greeting.

The salutation given when a vessel lowers or "dips" its flag is one of the oldest and most honorable of all forms of marine greeting.

This form of salute has always been demanded by English speaking sea-men, and its exaction has burned the hearts and the powder of generations of naval commanders.

In the old days for a foreign ship,

whether merchant or naval, to enter an English port without veiling topsails or dipping its national flag was to run the risk of war, although the profoundest peace existed.

Without warning or argument the shore defenses or a man of war would send a round shot across the bows or between the masts of the foreigner. and if the offending flag did not instantly come down the insolent intruder was brought to her senses by being raked through and through

Such was the reception accorded by Sir John Hawkins in the sixteenth century to the Spanish admiral who, in time of peace, sailed into Portsmouth sound without veiling his topsails or lowering his flag.

Salutes are essential matters of paval etiquette and are exchanged on an elaborate code fixed by the maritime powers. The number of guns to be fired under all circumstances is minutely stipulated.-Harper's Weekly.

CHANGES IN WORDS.

How, For Instance, "Boor" Was Trans-formed Into "Neighbor."

Word building is as much a piece of carpentry as is house building; only it takes longer, sometimes a century or more, and by that time the word's first meaning is usually changed.

For example, the old word for "neighbor" was "sib." One's good neighbor was known as one's "good This became shortened to "godsib" and later to "gossip." Then the word's whole meaning changed and gossip no longer meant good neighbor, but applied to the sort of talk ex-

changed between good neighbors.
Take the word "farmer," too. The
old word for farmer was "boor." And
"boor" later was used for describing farmer-like or rough persons. farmer living nearest to one was known as the "nighboor," and this phrase in course of time was twisted to "neigh-

You've heard the proverb "Little pitchers have big ears." Well, it doesn't Well, it doesn't refer to the utensil that holds water or goes to the corner side door. "Pitcher" was a slang term with some such meaning as our word "chap" or "fellow." Thus "Little fellows have big ears" is a more sensible rendering of the proverb .- Chicago Journal

Samuel Pepys and Nell Gwyn. After dinner with my wife to the king's house to see "The Mayden Queene," a new play of Dryden's, mightily commended for the regularity of it, and the strain and wit, and the truth is, there is a comical part done by Nell, which is Florimell; that I never can hope ever to see the like done again by man or woman. The king and Duke of York were at the play. But so great performance of a comical part was never, I believe, in the world before as Nell does this, both as a mad girle, then most and best of all when she comes in like a young gallant and hath the motions and carriage of a spark the most that ever I saw any man have. It makes me, I confess, admire her.--From the Diary of Samuel Pepys.

DO YOU ENJOY EATING

Or Does Everything You Eat Distress You?

Experts declare that the reason stomach disorders are so common in this country is due to hasty and careless habits of eating. Stomach troubies and run-down conditions also usually go together.

John Lind, of Onconta, N. Y., says: John Lind, of Oneonta, N. Y., says:
"I have been troubled with a bad
stomach trouble for fifteen years, and
became so weak that I could hardly
walk or do any work. My appetite
was very poor, and it seemed impossible to get any relief. Since taking
two bottles of Vinol I find that it has
already made a remarkable/improvement in my health; my digestion is
much stronger, and I have gained in
weight."

Vinol makes weak stomachs strong because it strengthens and tones up the weakened, tired and overtaxed nerves of the digestive organs. Vinol is easily assimilated by the weakest stomach's, and is delicious to the taste, bottle of Vinol with the understanding that your money will be returned if it does not help you.

Microbes in Your Scalp Authorities say that a microbe causes baldness. If you are losing hair try our remedy at our risk,

hair try our remedy at our risk,
Professor Unna, of Germany, and
Dr. Sabouraud, the great French
Dermatolegist, claim that a mierobe causes baldness, and their
theory has been verified by eminent
scientists. This microbe destroys
the hair follicles, in time causing the
scalp pores to close and the scalp to
become shiny. Then, it is believed
nothing will revive the growth. If
treated before, this occurs, baldness
hasy be overcome.

We know of nothing that has
given such universal satisfaction in
treating the scalp and hair as Rexall
"93" Hair Tonic. It has been designed after long study to overcome
the cause of falling hair as discovered
by Prof. Unna, Dr. Sabouraud and
other scalp and hair specialists, and
we believe it will do more than anything else can to remove dandruff and
stop falling hair; and if any human
agency can promote a new growth
of hair it will do that, too.

We want you to make us prove it.
We will pay for a month's treatment

of hair it will do that, too.

We want you to make us prove it.
We will pay for a month's treatment
of Rexall "93" Hair Tonic used during a trial, if you will use it according to directions, and are not
thoroughly satisfied. When we will
do this, you surely should not hesitate
to at least try it.

four foxes and used to go in and out of their cage several times a day and invariably took with me a handful of raisins. I found they were very fond of any sweet fruit, especially raisins, and it was not long before they would eat them freely from my hand. At first I had to approach cautiously and not dare to attempt to place my hand on them. But by and by I petted them almost as freely as I would a dog, and they ceased to show any fear in my presence. It was the same with the coyotes and the lynxes or wildcats .-Detroit Free Press.

Metals and Metaphors.

"It is most amazing," said a metallurgist, "how the world relies on metals for its metaphors and similes. Thus an orator is silver tongued or golden mouthed. An explorer is bronzed by African suns. A resolute chap has an iron will. A sluggard moves with leaden feet. An ostrich has a copper lined stomach. A millionaire has tin. A swindler is as slippery as quicksilver. A borrower has brass."

Amicable Adjustment.

"I want you distinctly to understand, Emil, that when your colleague's wife has a new hat I want one too."

"Calm yourself, my dear. We've settled it between us. You're neither you going to get one."-Fliegende Blatter.

The Lesser Evil. "I hate a barber that talks politics

all the time, don't you?" "Can't say I do. I'd rather have him talk polities than hair tonic."-Washington Herald.

Rare Freak. "Funny, isn't it, about the blowing up of a manhole?"
"How's it funny?"

"Because a man generally blows up in pieces."—Baltimore American.

The family remedy for Coughs and Colds "Shiloh costs so little and does so much!"

Nonleakable Down Pillows.

When making down pillows the wrong side of the tick should be ironed with an iron rubbed over with beeswax, rubbing the iron thoroughly with the wax each time before it is put on the ticking. This will keep the down from working through the tick.

A Stirring Fork.
When stirring gravy, sauce, cornstarch, etc., use a cooking fork instead of the basting spoon commonly so employed. This will prevent lumps and the necessity of constantly scraping off accumulations from the spoon.

DON'TS.

Don't cackle loud unless, like the hen, you have something substantial to show for it.

Don't retreat, but beat defeat. A victory that has been won after failure is most precious and inspiring.

Don't expect every one to see as you do. You may be color blind or have an egotistic mind.

Don't kill time killing your prospects by starting a plant with bargain counter birds. To make good the best are none too good, and for these you must pay good money.
