To .... . .... Fare thee well! the word is spoken-Lips have breathed the last adieu -Hearts have bied o'er pleasures broken, Pure as friendship ever knew: Eare thee well-may absence find thee, Still the same as now thou art-Trearered thoughts of those behind thee,

Dwell forever near thy heart, Looks lit up with hope may meet thee, In some far and stranger land, Welcome smiles of pleasure greet thee, Eves of love and voices bland-But when brightly pass before thee, All the joys of fashions train-Memory's magic charm steal o'er thee,

Hearts drink agony, to-morrow, Whence to-day, their solace springs-Chequer'd scenes of light and sorrow, Mark the course of human things. Soon alas! the fairest roses, Lie disrobed of all their bloom-And life's pagean'ry discloses

Beas, thee to thy home again.

But a pathway to the tomb. Spirit sentinels protect thee, Till the final hour may come ; Faith unwavering then direct thee, To thine amaranthine home:-When with songs of joy and gladness, Friends may walk the pearly shore And the parting word of radness, Stir the depths of grief no more.
