peg; W. Phillips Cobourg; Mrs. and Mr.

The last Regina Leader says:- "We are making arrangements for  
having specimens of different cereals  
and produce which may be brought to us forwarded to Winni-  
peg, Toronto and Montreal, (and  
probably other centres), to be there displayed in public places, so that as much publicity as possible may be given regarding the capability of this province. We wish that the truth as regards our country may be widely disseminated to counteract the false impressions which are attempted to be made by those having adverse interests. As this can only be done with the assistance and co-operation of our agricultural friends, we invite them one and all, to lend a helping hand in promoting what will be for the advantage of the country generally, and for the ultimate benefit of every individual in it, no matter in what occupation he may be engaged. Any communication as to this matter either personally or by letter, will receive our immediate and earnest attention."

We fully approve of the Leaders  
enterprise, so much so indeed that we  
have decided to follow suit. We have already commenced the  
collection of samples which we shall forward to the Great Exhibition  
in Toronto, and to other places as the Nor'-wester's collection, and  
we think our friends throughout the country will do what they can  
to assist.
