

The following are the quotations (in sterling) of American produce in the Liverpool Corn Exchange, May 4. The column headed "higher," shows the rise within the ten last fortnight:—

	s.	d.	s.	d.	Hghr.
Wheat, per 70lbs.					
Genesee .....	12	6	12	9	0
Ohio and other sorts	12	6	12	9	0
"    "    red, mixed	11	6	11	9	0
Flour, per brl.					
W. Canal and Canada, sup.	38	0	42	0	1
"    "    No. 2	37	0	40	0	1
Philadelphia & Baltimore	40	0	44	0	1
Genesee & Ohio, ex. sup.	43	0	46	0	1
"    "    sour	38	0	41	6	1

The weather had improved, rain had fallen, and vegetation was rapidly advancing.

The *Pacific*, which arrived on the 30th ult., brings us several days later news. Her market reports are to the 18th. Breadstuffs, in consequence of the favourable weather, had not advanced in price. The quotations are:—Western Canal Flour, 40s to 42s; Ohio, 45s to 46s; White Wheat, 12s to 12s 8d; Red, 10s 9d to 11s 9d.

TORONTO, May 31, 1855.

The news by the *Pacific* had little effect on the Toronto markets. The three principal buyers agreed not to exceed 11s 3d for best samples of wheat; and although sellers stood out for a higher figure, we did not hear of any sales beyond that price. Higher prices have been paid for good samples during the last ten days; but the largest sales have been at \$2 and \$2½. Flour—best Miller's, at retail, 55s; wholesale, 45s; Farmer's sells at \$10 per barrel. Oats scarce at 2s 6d to 3s 6d per bushel. Hay \$22 to \$27. Potatoes sell at 2s 9d to 3s, large importations having been made from across the Lake. Fresh butter, 1s to 1s 2d.

The prices of all kinds of produce rule high notwithstanding the prospect of a good harvest in the Western States, and also in Canada. The weather has been cold, and for some time we had no rain of consequence in this vicinity. Still the crops look well, and the refreshing showers of the 1st instant will make amends for the past.

### COMBINED REAPER AND MOWER.

*Monny's Patent with Wood's Improvement.*

THE Undersigned are now manufacturing the above Machinery which has been thoroughly tried through the United States, and have given entire satisfaction. In the frequent trials made with every machine that has any claim to reputation it has proved the best in the following points, viz.:

Its perfect adaptation to uneven surfaces—its means of adjustability to various heights of cutting—its lightness of draught—the ease and facility with which it can be removed from field to field upon its own wheels, and changed from a reaper to a mower, and vice versa—the construction, for strength and durability—and its capacity for doing business.

By means of suspending the frame to the axle of the wheels the joint and lever, the driver is enabled at his will to elevate or depress the cutters from one to fifteen inches from the ground; and with the oblique platform the raker is enabled to discharge the grain in gazels, at a sufficient distance from the standing grain to allow the team to pass, so that the whole field may be cut without removing any of the grain.

Price, with two sets knives, \$13. We are also manufacturing Buroll's Reaper, price \$120; and Kelchum's Mower as improved, price, with two sets of knives, \$110, warranted.

These machines are capable of mowing or reaping from ten to fifteen acres per day on smooth land, as well as can be done with any other cradle.

### DAVY'S DEVON HERD BOOK,

NOW ready, a LARGE SUPPLY of both 1st and 2nd vols. bound in one book, and containing all the subject connected with the Devon records, of both England and America up to the present time; also as a frontispiece, the beautiful engraving of the celebrated picture known as the "Quarely Testimonial" which is a full length portrait of Mr. Francis Quarely, now living, at 91 years of age. It is also illustrated with two animals, Prize-winners in England. Price, \$5, can be had by enclosing the amount to B. P. Johnson, Cor. Sec. of N. Y. State Society, Albany, N. Y., Luther Tucker, Ed. of *Country Gent*, Albany N. Y., Sandford Howard, Boston, Mass., D. D. T. Moore, Ed. of *W. G. & S. Register* N. Y., A. B. Allen, Ed. of *American Agriculturist*, N. Y., Saml. Sands, Ed. of *American Farmer*, Baltimore, Md., A. M. Spangler, Ed. of *Progressive Farmer*, Philadelphia, Pa., Lee and Redmond, Eds. of *Southern Cultivator*, Augusta, Ga., and Wm McDougall, Ed. of *Canadian Agriculturist*, Toronto, C.W. It gives me pleasure to state that Mr. Davy has solicited Mr. S. Howard of the *Boston Cultivator*, to collect pedigrees and illustrations in this country for the 3rd. vol., and has authorised Mr. H. to obtain information as to any and all mistakes which may have been made as to the recording of American animals in Davy's 2nd. vol. and such corrections will be made in the 3rd. vol. The Plan proposes that a copy of all the pedigrees and illustrations collected by Mr. H., as the Editor in America, shall be forwarded to Mr. Davy, and a copy of those collected by Mr. D. will be sent to Mr. H. in this country. The whole matter will be published in America for our use, and in England for their use, by which means an American and English Devon Herd Book will be united, and the price reasonable, as the expense of English printing and duties will be saved. This concert of action has been brought about by Mr. Davy's good feeling and liberality towards this country; and I am only the instrument through which Mr. Davy acts; and from this time forth Mr. Howard will receive all communications on the subject, as will appear by reference to his advertisement.

All Editors who will give the above three insertions, will receive a copy of the 1st 2nd and 3rd vols.
