THE IMPORTED SCOTCH SHORTHORN BULL ECLIPSE (49526.)

The Property of James Guardhouse & Sons, Highfield, Ont.

This fine specimen of a Scotch typical Shorthorn bull, whose likeness is accurately reproduced in the above picture, was bred by Mr. Duthie, Collynie, and imported by A. Johnson, Greenwood, Ont., in 1884. An easy appearing animal, roan in color, and of a smooth, deep, fleshy character, he possesses a mellow hide, and straight and smooth outline, with a heavy body on short legs, full heart girth, and a neat head. He was calved on March 6th, 1882, and purchased to head the Rosedale Herd, of the Messrs. James Guardhouse & Sons, Highgate, Ont, in 1886. His sire, the Earl of March (33807), was a first prize winner at

The office of newspapers in their relation to the public is to furnish information that will at once prove interesting and useful. There is no item of importance published in all the year more useful to the farmer than the prize-hists of our leading shows. The creeks of ancient times thought so much of their wincing athlet at that they kept them the remaining por tion of their days at the public expense. Our Canadians think so little of the successe of their chamdians think so little of the successes of their champions in lines far more useful, that they will not give them publicity. Oh, shame on the press of Canada that refuses to recount the hard earned honors of those who supply them with bread and meat! The farmers naturally murmur, but what will that avail? About as much as a watch-dog barking at the moon. If they would but act in concert, they could get re dress in a single year Let them dip their pens deep the Earl of March (33,007), was a first prize without at the Highland Society's show at Aberdeen, and the exhibitions of the Province.
