STERLING ALGUIRE'S MILK AGITATOR.

### PATENTED APRIL 15, 1868. STERLING ALGUIRE PATENTEE,

FARMERSVILLE, ONT. For particulars address

J. B. HARRIS, ASSIGNEE

Bolleville, Ont.
The attention of fac'ory-men is respectfully called to the llowing testimony from one of the best factories in Oxford following County:

NORWICH, ONT., Aug. 26, 1868

J. B. HARRIS,

DEAR SIR.—Your Agitator needs no recommendation, it will recommend itself, and every cheese manufacturer can become convinced by giving it a fair trial; for my part I would not have it asken out of my two vats for twice the price. No cream can possibly rise, and it cools the milk to the same temperature as the state with one-quarter inch stream of water.

Respectfully yours,

H S LOSEE.

# Markets.

#### Toronto Markets.

"CANADA FARMER" Office, Aug. 28th. 1868.

The flour and wheat markets during the past fortnight have been very dull. There has been little or nothing doing in produce of any kind except in Barley; that grain has been offering free'y. The season has fairly begun, and large quantities have already changed hands.

FLOUR AND MEAL

FLOUR.—The market has been very dull; holders are asking \$6.50 for No. 1 super., but can find no buyers at that price; there is little or no demand; extra has been in fair demand for small lots at from \$7.25 to \$7.50; superior is altogether nominal, there being no lots in the market.

Outmeal-In good demand for small lots at from \$6.50 to \$6.75. Cornmeal-Small trade doing at \$5.

Wheat—New wheat has not yet begun to come into market. There is very little old wheat offering. Spring wheat and midge proof are nominally worth \$1.35 to \$1.40, and Fall \$1.45; on the street market a few loads sold as follows:—Spring wheat \$1.35; midge-proof \$1.32 to \$1.35.

Oats—The market is dull; holders are asking 50c. for car lots; on the street market 50c. to 62c. has been paid for a few loads lately. Onta-The market foc. to 62c. has been paid for a few loads lately.

Barley.—The past wook has been an active one with Barley buyers; as much as 60,000 bushels has already been shipped from this port to Oswego since the season commenced; the daily receipts by teams are considerable, amounting to from 10,000 to 15,000 bushels per day, the receipts by cars have averaged 3,000 to 5,000 bushels per day, the receipts by cars have averaged 3,000 to 5,000 bushels per day, the receipts by cars have averaged 3,000 to 5,000 bushels per day, the rolly two or three buyers in the market, the majority of operators being afrant to "go in" at present prices. Every bushel offering is, however, eagerly bought up at the rates named. It is generally thought that prices are higher than the state of foreign markets warrant, and a decline is therefore looked for by not a few. We think it not unlikely that rather lower prices will soon rule, and advise Farmers to take advantage of the present rates and at once bring their crop into market.

Peas.—There has been nothing doing during the past week. Prices are altogether nominal. On the street market there is none offering. Loads from farmers would bring 95c.

### PROVISIONS.

Pork.—There is no change in the market. The few lots in holders' hands are held firm at quotations, and the demand is

-Trade very limited. We quote 11c. to 12c. for Cum berland and Canadian

Butter.—The market has ruled firm at our figures for the past week. Shippers refuse to advance, as prices are supposed to be dangerously high. We quote really fine for city use, 20c. to 21c.; ordinaryround lots taken by shippers, at 17c. to 19c. rolls on the market, 23c, to 26c.

Strew.—Not much coming in. Selling at from \$8 to \$14.

London Markets, Ang. 25.—The attendance and amount of business transacted on the Market Square to-day was perfectly stiffactory. The grain receipts were large, quickly taken up at thir prices, and wheat, both fall and spring, remained steady throughout. Barley and peas were in good demand; competition for peas, however, towards the close, was less keen, barley keeping unusually stiff. Other seasonable products were well represented and met a fair-demand. Butter is much inquired after, and from recent appearances will rule high this winter. For other articles see quotations; red fall wheat, per bushet, \$1 25 to \$1 27; old spring wheat, \$1 25 to \$1 30; new spring, do. \$1 20 to \$1 25: barley, 92c. to 96c.; peas, 83c. to 86c.; dats, 30c. \$1 20 to \$1 25: barley, 92c. to 96c.; peas, 83c. to 86c.; dats, 30c. \$1 20 to \$1 25: barley, 92c. to 96c.; peas, 83c. to 86c.; dats, 30c. \$1 20 to \$1 25: barley, 92c. to 96c.; peas, 83c. to 86c.; dats, 30c. \$1 20 to \$1 25: barley, 92c. to 96c.; peas, 83c. to 86c.; dats, 30c. \$1 20 to \$1 25: barley, 92c. to 96c.; peas, 83c. to 86c.; dats, 30c. to 87c.; corn, 86c. to 85c.; buckwheat 64c. to 70c.
