MARKET AND GENERAL REPORT.

The market for all descriptions of goods, this week runs very quiet. Prices, however, continue about the same as they were at our previous dates.

We have to report an increase to the stock of flour, arrived from San Francisco by the *Kentucky*. Golden Gate still continues at the rate of \$14. The brands of flour received by the *Kentucky* were as follows:—Chile, (700 barrels) *Kentucky*, National, Pleasant Valley, and Commercial. Notwithstanding, however, these arrivals, the stocks of flour may be quoted as low.

On the 5th instant, an auction sale of hardware was held by P. M. Backus, the prices obtained generally being low. The sale, we understand, amounted to about \$1,200. The stocks of dry goods have been much augmented by the arrival of the *Knight Bruce*, from Liverpool, on the 24th December, and the market may be said to be fairly supplied.

The steamer *Enterprise*, from New Westmin-
