

NEW YORK EXCHANGE.

GRANGERS A SHADE LOWER.

TOBACCO STRONG.
PACIFICS STEADY.

GENERAL MARKET ERRATIC.

Total Sales To-Day 122,900.

New York, July 6.

The market is controlled almost entirely by local influences. Keene was credited with being a heavy seller yesterday and today. The Grangers were not much dealt in and showed weakness. The Pacifics were not quite so soft, but there is little snap in the market.

The specialties were all sold down at the early part of the session, except Brooklyn Rapid Transit and tobacco, these two seemed very strong the first on its hopeful future and the latter on manipulation. As the day wore on a much stronger feeling developed and these special issues gained a good deal of their early losses.

Jersey Central was very weak on what looked like manipulation.

Sugar was fairly active and sold within a range of 1/4c.

New York, 9.55 a. m., July 6.

London, again to-day, shows a buoyant tendency, although prices are not nearly as high, in comparison of our close, as they were yesterday. The London market has not been seriously affected by the weakness here yesterday, and all active stocks show advances of from 3/4 to 1/2 per cent.

London was a considerable buyer in our market yesterday, taking about 25,000 shares in all. They would probably have bought more stock if our market had not displayed such a distinctly weak tone.

There is nothing really new in the situation and the principal news that comes is in the way of confirmations concerning the sea fight of last Sunday.

Yesterdays market was a distinct illustration of how technical conditions can dominate all their influences. For some time Commission Houses generally have been advising their customers to accumulate stocks, in the expectation of good news from Santiago. From the substantial selling which met the advance yesterday morning, it would look as if a great many of the customers had taken this advice, and were only waiting for such an opportunity to sell.

New York, 11.40, July 6.

Bell & Co. held up Tobacco. Davis sold.

Stowe principal seller of People's Gas this morning, sold 1,000 shares. Very little support in the market.

New York, (noon), July 6.

Our market did not altogether respond to the better feeling in the higher prices in London this morning, and after a very irregular opening, it did not take long for the real tone of the market to be disclosed.

All around the room there were substantial selling orders, and Commission Houses were the principal sellers. London bought a few stocks, their buying, and buying by their traders, being the principal supporting influence.

To-day's market has been very much like yesterday's only on a smaller scale, and the selling movement has gone pretty well through the whole list.

People's Gas and Sugar have been the principal points of attack, the former suffering a net decline of 1 per cent.

On the whole, this morning's market has presented very few interesting features, and the general tone has been rather heavy.

PEOPLE'S GAS.

There is no specific news to affect People's Gas, but the strength of it during yesterday's markets seems to have exhausted the buying power, and there is little or no support to the stock.

On the other hand, the selling has not been very vigorous, the principal selling being by a prominent trader of 100 shares.

NEW YORK STOCK MARKET.

AMERICAN RUBBER COMPANY.

New York, (9.40 a.m.), July 6.

Directors of the Rubber Co., will declare the regular quarterly dividend on the Preferred stock to-morrow. From the business so far this year, it is estimated that there will be an increase in net revenues of the current fiscal year of about \$1,000,000. In view of last year's experience, with the low prices and the ability to earn substantial sum of the Common stock even then, it is possible the Common stock will be placed on dividend basis in the fall.

ST. PAUL EARNINGS.

New York, (9.25 a.m.), July 6.

St. Paul, 4th week in June, decreased \$10,670. For fiscal year gross increase \$5,500,000 roughly. Crop reports from Road indicate conditions very good, but little damage from any cause.

AMERICAN TOBACCO.

American Tobacco has been a striking feature in to-day's market. It has advanced, and has held the advance well, in the face of the heavy tone the rest of the market has displayed. There is quite a short interest in the stock, and for the last few days the shorts have been displaying considerable nervousness, and the advance to-day has been largely due to their efforts to cover. The supply of stock seems to be very light, and the traders, who were long on the stock, never lose an opportunity to make it most uncomfortable for those who are short.

UNION PACIFIC.

Recent inspection on the Union Pacific Road shows the property to be in a very good condition.

STOCKS ARE MOVING.

If you wish to buy or sell stocks in the following well known Companies, call or telephone us.
