The Commercial certainly enjoys a very much larger circulation among the business community of the country between Lake Superior and the Pacific Coast, than any other paper in Canada, daily or weekly. By a thorough system of personal solicitation, carried out annually, this journal has been placed upon the desk of the great majority of business men in the vast district designated above, and including northwestern Ontario, the provinces of Manitoba and British Columbia, and the territories of Assiniboia, Alberta and Saskatchewan. The Commercial also reaches the leading wholesale, commission, manufacturing and financial houses of Eastern Canada.

THE *Northern Lancet*, the medical journal published at Winnipeg, proposes a convention of physicians of the province, to consider recent legislation bearing upon the profession. The very ridiculous bill recently introduced into the legislature, to regulate fees chargeable by doctors, is the principal incentive to the proposal for a convention.

THE Port Arthur *Sentinel* says: "It may be a chestnut to say that our mines were never looking better, but it is a fact all the same. No fictitious or extravagant statements are necessary to establish this. Actual and extensive work is going on, more than even persons in Port Arthur are aware of."

THE fourth colonist party of the season for Manitoba and the West left Toronto on March 18. There were about 350 passengers and three special trains of settlers and their effects. THE *News*, of Vancouver, B. C., says: H. Galt, of the firm of Galt Bros., wholesale grocers, arrived Thursday and yesterday opened for business. It is their intention to do a general wholesale grocery trade, making, however, a specialty of teas. They will buy China and Japan, Ceylon and India teas, and, by the direct communication with the west which it is hoped will shortly be established by other lines as well as by the present China steamships, Vancouver will become the great emporium for the tea trade of the Dominion, as it has every advantage over the Suze route. Mr. Martin, who will have this department in hand, is a specialist in the tea trade and understands it thoroughly.

A GENTLEMAN who returned to Winnipeg last week from the west, states that the cattle in the neighborhood of Maple Creek and Medicine Hat have come through the winter in good shape, but farther west there has been heavy losses on the ranges. He was creditably informed that out of a flock of 4000 sheep on one of the Kay farms, only four died during the winter. The snow was all gone in the Medicine Hat district, but farther west it was still rather wintry at the time of his visit.

THE town council of Portage la Prairie passed the following resolution concerning the proposed provincial exhibition, at its meeting last week: "Resolved, That whereas it has come to the notice of the council that a deputation of Winnipeg citizens has been interviewing the Local Government with the object of getting some assistance toward holding a provincial exhibition in the city of Winnipeg; and whereas, it appears from a report of the interview that the Government was not favorably disposed toward the same, the council take this opportunity of endorsing the action of the citizens of Winnipeg and urging upon the Government the importance of the scheme, believing that it would be to the best interests of the whole province to have a successful Provincial Exhibition held in the city of Winnipeg."
