

**FORMULARY.****COMPOUND ELIXIR OF CHLOROFORM.**

The following formula is spoken highly of in cholera morbus and kindred complaints:

B	Oil, cinnamon .....	gtts. x
	Chloroform	
Tinct. opii		fl. 3 vj
Tinct. camphora		aa
Spt. ammon. aromat.		
Spirit frumenti .....	fl. 3 jss	

One half to one teaspoonful at a dose.

**The Prescription.****STABLE MORPHIA SOLUTION.**

The following solution is claimed to be stable:

B	Morph. hydrochl..	gr. xv
	Alcohol .....	3 iv
	Glycerin .....	5 iiii
	Aqua, q. s. ....	fl. 5 viiiii
	Misce et filtrum.	

Sig. Sol. 1:30.—*Rundsch. f. Pharmacie.*

**SPRUCE BEER.****(Mineral Water Review.)**

Hops .....	oz. 2
Sassafras .....	oz. 2
Water .....	gal. 10

Boil half an hour then add

Brown sugar .....	pd. 7
Essence of spruce .....	oz. 1
Essence of ginger.....	oz. 1
Pimento .....	oz. 1½

Put the whole in a cask and let cool; then add ½ pint of yeast; let stand for 24 hours, fine, and bottle.

**EMULSIO CAMPHORATA.**

B	Camphora .....	gr. 210
	Mucilag. acacia .....	fl. 3 i
	Aqua .....	fl. 5 iv

Triturate the camphor, if necessary, with the intervention of a little ether, to a moderately fine powder, and gradually rub it with the mucilage and water to form an emulsion. Shake the mixture well, before dispensing.

To be applied, on absorbent cotton, to gangrenous bedsores.—*Garrigues Char. Hosp.*

**COCAIN-SECT.**

This is the name given in Germany to a new and popular "pick-me-up," which, according to the *Deutsche Dest. Zeity.*, has the following formula:

Angelica root.....	24 gm.
Valerian root.....	55 gm.
Cardamoms.....	70 gm.
Coriander .....	199 gm.
Orris root .....	10 gm.
Cinnamon .....	55 gm.
Zedoary root .....	110 gm.

Bruise, or reduce to coarse powder, mix and boil with 3 liters of water for a few minutes. Draw off the aqueous extract and set aside. Add 8 liters of 95° alcohol to the residue, let stand for two days, draw off, and add the alcoholic macerate to the aqueous extractive. Mix 25 gm. of green tea leaves with 200 gm. erythroxylon coca leaves and pour over them 1 liter of boiling water, and let siphon for a few moments. Draw off and set aside the infusion, pour over the residue 1 liter of 95° alcohol, and let stand for twenty-four hours, at the end of which

time draw off and mix with the infusion. Finally mix the two liquids and filter, and to the filtrate add 30 liters of alcohol of 95°, and 35 kilos sugar dissolved in sufficient water to make a syrup. Color, to suit the fancy, in the usual way.—*Nat. Druggist.*

**EXTEMPORANEOUS PREPARATION OF GLYCERINE SUPPOSITORIES (Pharm. Pr.)**

B	Carbonate soda (anhydrous) .....	grm. j
	Sleavine (shavings).....	grm. ij

Put into:

Alcohol .....	grm. xv
---------------	---------

Heat on a water bath till the alcohol is driven off, then add:

Glycerine, q. s. ....	ad fl. grm. 60
-----------------------	----------------

Heat on a water bath until it becomes limpid, and pour into the moulds. The above makes four suppositories, and the preparation takes about thirty minutes. The suppositories keep well and are elastic.—*Gas. de Gynecol.*

**TOILET LIQUID SOAP.**

B	White hard soap, in shavings.....	lb.
	Rectified spirits.....	ij
	Aqua .....	3 iv
	Perfume (at will) .....	q. s.

Put the ingredients into a strong bottle of glass or tin, cork it close, set it in warm water for a short time, and occasionally agitate it briskly until solution is complete. After repose pour off the clean portion from the dregs (if any) into clean bottles for use, and at once closely cork them. If the solution be not sufficiently transparent, a little rectified spirit should be added before decantation. A little spirit fully proof, may be added if it be desired to render it thinner.

If much essential oil is used to perfume it, the transparency of the product will be lessened.—*Am. Soap Makers' Gazette.*

**LUBIN'S EAU DE TOILETTE.**

Orris root .....	30 gm.
Tincture of tolu .....	10 gm.
Essence of mace .....	12 gm.
Extract of muskline.....	10 gm.
Tincture of oil of lavender .....	16 gm.
Tincture of bergamot oil .....	30 gm.
Tincture of clove oil .....	1 gm.
Tincture of attar of ylang ylang .....	5 gm.
Alcohol .....	75 gm.

Mix and let macerate for several days, then filter.

**CREOLIN-IODOFORM OINTMENT.**

The advantage of this prescription is said to be that the smell of the iodoform is well masked:

B	Creolin .....	grs. xv
	Iodoform .....	grs. xxx
	Vaseline.....	3 vj

Make into an ointment.—*Therap. Gazette.*

**CHEAP THYMOL MOUTH-WASH.**

The *Journal fur Zahneilekunde* gives the following formula for an excellent, and at the same time cheap, mouth or tooth-wash:

Rhatany root, coarsely powdered .....	500 gm.
Cinnamon .....	100 gm.
Orange peel, coarsely powdered .....	150 gm.
Alcohol .....	2 liters
Water .....	1 liter

Mix, and macerate for fourteen days in a warm place, then filter carefully, and to the filtrate add 15 gm. thymol, and dissolve.

A tablespoonful of this liquid added to a glass of warm water for each collutory.—*Nat. Druggist.*

**ARISTOL PLASTERS.**

M. Cavailles makes these for the Hospital Saint Louis by mixing fine powdered aristol with a small quantity of oil, and adding to a mass of lanolin and caoutchouc plaster, previously cooled and made very fluid by the addition of benzoin. The benzoin is evaporated to a sufficient degree to leave a preparation suitable for spreading upon muslin.

**Additions to the Berlin Formulary.**

The edition of the Berlin Formulary for 1893 contains some 40 new formulas, some of which we reproduce below from the *Pharmaceutische Centralhalle*:

**COLLODII IODOFORMI.**

Iodoformii .....	gram. 1.5
Collodii elasticii .....	ad gram. 15.0

**INJECTIO BISMUTHI.**

Bismuthi subnitrici .....	gram. 5.0
Aqua distillata .....	ad gram. 200.0

**IODOFORMUM DESODORATUM.**

Cleii ligui sassafras .....	glt. II.
Iodoformii .....	ad gram. 10.0

**LINIMENTUM CHLOROFORMI.**

Chloroformii .....	gram. 20.0
Linimentum ammoniati .....	gram. 30.0

**MIXTURA ANSTRHEUMATICA.**

Sodii salicylici .....	gram. 10.0
Tinctura aurantii .....	gram. 5.0
Aqua distillata .....	ad gram. 200.0

One tablespoonful four times a day.

**MIXTURA DIRUETICA.**

Liquoris potasse acetici .....	gram. 30.0
Olei petroselini .....	glt. II.
Aqua destillata .....	ad gram. 200.0

One tablespoonful three times a day.

**MIXTURA NERVINA.**

Potassii bromati .....	gram. 8.0
Sodii bromatii .....	gram. 4.0

Ammonii bromatii .....	gram. 3.0
Aqua destillata .....	ad gram. 200.0

One tablespoonful three times a day.

**OLEUM ZINCII.**

Zincii oxydati .....	gram. 25.0
Olei Olivarium .....	gram. 25.0

**PASTA ASEPTICA.**

Acidi salicylici .....	gram. 0.5
Acidi borici pulv .....	gram. 5.0

Zincii oxydati .....	gram. 10.0
Petrolati .....	ad gram. 50.0

**PILULES ASIATICAE.**

Acidi arsenicosi .....	gram. 0.06
Piperis nigri pulv .....	gram. 1.5

Radicis liquoritiae pulv .....	gram. 3.0
Mucil. gummi arabici q. s. ut f. pil. No. 60.	

Each pill contains 0.001 grammes of arsenious acid.

**PILULES EXPECTORANTES.**

Terpini hydrati .....	gram. 3.0
Radicis liquoritiae pulv .....	gram. 1.0

Succ. liquoritiae pulv .....	gram. 2.0
M. f. pil. No. 30.	

Two pills three times a day.

**PILULES FERRI ARSENICOSI.**

Ferrri redacti .....	gram. 3.0
Acidi arsenicosi .....	gram. 0.06

Piperis nigri pulv .....	gram. 1.5
Radicis liquoritiae pulv .....	gram. 1.5

Mucil. gummi arabici q. s. ut f. pil. No. 60.	
Two pills three times a day.
