Montreal Stock Market	353
Review of the Montreal Markets	351

NOTICE TO SUBSCRIBERS.

There was no number of this Journal issued in July. The volume will of course be completed a month later in consequence. The delay in closing the Session of Parliament, has prevented this number being published earlier in the month as was intended, as we were anxious to furnish our readers with the New Tariff and Usury Bill as finally passed. The Tribune newspaper intended to be published by us, has not yet been issued, the number of subscribers not being so far sufficient to warrant its publication.
