T. P. COFFEE, Manager

LEGAL DEFINITION OF MINERAL.

The English courts have given a very comprehensive definition of the word "mineral." One of the notable cases is that of the Attorney-General v. Tomline (L. R., 5 Ch., Div., 750), in which Lord Justice Fry held that "the word 'mineral' includes every substance which can be got from underneath the surface of the earth for the purpose of profit." In the case of Nisbet Hamilton v. North British Railway Company (13 Ct. Sess. Cas. 4th series, 454, at page 461), Lord Adam said, "Common earth and sand are minerals."

THE YUKON REGULATIONS.

Writing of the recent changes in the gold mining regulations for the Yukon region, made by the Canadian Government, as of some importance, the Engineering and Mining Journal, of New York, says:

"The first order is one that has several times been asked for; it provides for a yearly exemption of 5,000 gross output per claim, before royalty is charged on gold recovered. This will benefit the smaller miners and may stimulate prospecting. At any rate, it will be a concession to a general demand which will doubtless be appreciated.

"The second order provides that no Government officer or other person employed by the Government in any capacity shall hereafter be permitted to locate or record claims on mining lands in the Yukon. This will put an end to a practice of which much complaint has been made, and which has amounted almost to a public scandal. It is an intimation also to Government officials that they are sent to the Yukon to attend to their proper business, and not to locate and develop mining lands. Apparently the relatives of officials are free to take up claims, and are doing it."

PATENT REPORT.

Messrs. Fetherstonhaugh & Co., patent solicitors, furnish the following complete weekly list of patents granted to Canadians in the following countries:

Canadian Patents—Water guard, A. L. Schram; wrench, F. Hoerens; rowling bed of moulding machine, J. Ballantine; shaft for vehicles, A. Prince.

United States Patents—Treating plaster-of-paris casts, A. Broodsky; valve gear for engines, F. X. Drolet; locking device for bottle stoppers, P. Filteau; machine for wrapping stay wires around line wires, W. McCloskey; attachment for sewing machines, A. Nolan; seed drill, W. Stephenson; disk seed drill, W. Stephenson; scraper for disk seed drill, W. Stephenson; acetylene gas generator, J. D. Forsyth; corset fastener, A. Leeson; (design), golf stick handle, W. A. Griffith.

"PLEASE hand the enclosed to your engineer," is on the envelope which encloses a bill file from the Eureka Mineral, Wool & Asbestos Co.
