

## CONSIDER YOUR REPUTATION FOR A MOMENT !

Then answer this question. Is it worth while to talk about Beautifying and Preserving Finishes to your client unless you specify the use of good Varnishes, Stains and Enamels?

We have been making Standard Products for over forty years and many prominent Architects, and other kindly disposed people, are good enough to say that we have worked wonders.

That may or may not be. Best that you should secure our new Architects' Album of Superior Finishes and judge for yourself. May we send you one?

The following Standard Products are all worth a place in your specifications:—

KLEARSTONE STAINS, ELASTICA FINISHES, FLATTINE FINISHES, SATINETTE WHITE ENAMEL

MADE BY

**INTERNATIONAL VARNISH CO.** LIMITED

TORONTO and WINNIPEG

## IRON STAIRS

Our organization and equipment for the construction and installation of Iron Stair work are particularly efficient.

In our new *D-E Standard Iron Stair* we offer a first-class stair suitable for all ordinary requirements. Its special features of construction enable us to install it at a very reasonable cost. It combines abundant strength with lightness and a pleasing substantial appearance.

We are also prepared to execute contracts for Iron Stairs of the most ornate style, and have the finest facilities for *Duplex Copper Plating* the largest class of work.
