Products/Services

Optical chemicals, dyes and coatings • Ultraviolet absorption meter for optical processing

Current Export Markets

U.S.A., Europe, Asia

Company Summary

Founded in 1980, O.M.S. Inc. Optical Moulding Systems specializes in lens coatings, and offers an extensive range of products for the optical trade worldwide. In 1983, the company developed a new type of optical hardcoating, an ultraviolet (UV) curable resin that earned it international recognition. More recently, Optical Moulding Systems began marketing a line of optical ionized dyes, anti-scratch coatings and treatments, optical chemicals and a precision testing instrument, the UV-Protec Meter for ultraviolet transmission testing.

Products/Services

Self-contained breathing apparatus • Manual resuscitators • Resuscitator kits • Oxygen and air regulators and ventilators

Current Export Markets

U.S.A., Europe, Asia, Latin America, Caribbean

Company Summary

Founded in 1971, O-Two Systems International Inc. develops, manufactures and distributes more than 300 products worldwide. The company's entire product line is suited to the emergency medical services industry which includes ambulance and paramedic services, fire departments and the military. All products meet military specifications; in many cases exceeding international standards. The company's fully-integrated 3,240-square-metre (36,000-square-foot) manufacturing facility employs about 60 people. O-Two's line of self-contained breathing apparatus designed for toxic or potentially toxic environments was introduced in 1987, and has quickly gained a strong market share.

Resuscitation, inhalation and aspiration in one compact portable unit from O-Two Systems.
