after July 1, 1957, the Canadian defence authorities will find it necessary to terminate special language training facilities which have been maintained as an additional service for NATO students at London, Ontario. As instructions will continue to be given in English both in air and in classroom it is understood your authorities will arrange to have all students brought to the required level of language proficiency prior to their arrival in Canada.

5. Accept, Excellency, the renewed assurance of my highest consideration.

THOMAS A. STONE
*Canadian Ambassador.*
