My dear Mr. Douglas

This little line is just to convey my sincerest good wishes for a successful convocation at the close of the most auspicious year I have seen for U.C.I.E. for more than a decade - Thanks entirely to you - I can't resist this impulse to tell you so.

I was sorry - we both were - not to see you before sailing - we tried but found you both away again! - Better luck for us on our return early in June when we hope you will not already have flitted away before coming to our shack in the country.

We have had delightful weeks in Italy & are off to the Dordogne & to Provence before sailing.

With sincerest greetings from us both to all at home.

Very Sincerely
C. Martin
