**COTTON PRICES NOW
AT A DEAD LEVEL**

Since the first of January the closing
price of October cotton on the New
York Cotton Exchange has fluctuated
within a range of one cent. The high
for this period was 11.85 on Jan. 2,
and the low 10.87 on April 30. On May
1 the closing was 11.04, from which it
dipped to 10.88, with a recovery to
11.16 yesterday. Political, financial,
industrial and crop influences are run-
ning counter to one another, and the
market seems to be waiting to see
which will prevail.

LIVERPOOL GRAIN EXCHANGE.
LIVERPOOL, May 27.—The market
opened with moderate movement. The in-
duced by the steady American cables
and reduced American estimates on win-
ter wheat and crop were higher. Dur-
ing the morning profit-taking developed
in a dull market and prices declined.
Plate offerings were largely foreign crop
conditions more favorable, increased de-
mand and weakness in Paris with the Unit-
ed States. The market was quiet. The de-
cline was checked by the free distribu-
tion, after arrivals for three days were
large.

Prices opened unchanged. The firm-
ness in America and the strength in
Russia have caused light offerings. Lat-
er prices declined on a poor spot demand
and liberal Plate offerings with favorable
weather in Argentina.

**CHURCH ASKS LOAN
WITHOUT INTEREST**

Royce Avenue Presbyterians
Need Money For New
Edifice.

APPEAL TO PRESBYTERY
Commissioners Appointed to
Act at General As-
sembly.

Will some kind person loan the
Royce Avenue Presbyterian Church
\$20,000 and refrain from asking for the
interest on it until a few years hence?
If such an investor can be located the
church will immediately begin to erect
a new building on a \$25,000 property.

The Toronto presbytery tried yester-
day to solve the problem of the church.
The church has a congregation of 400
and seating capacity for 200. The offi-
cers pointed out that within two or
three years they could take up the in-
terest and also the loan. At the pres-
ent time they would find it impossible
to even pay the interest, and it would
be necessary that the church be ex-
empt from meeting the interest until
funds had been established.

The presbytery were of the opinion
that a fund was needed where churches
in the same predicament as Royce
avenue could borrow the money with-
out interest being charged.

Commissioners Rev. G. B. McLeod
and Rev. B. B. Weatherall resigned.
Rev. Dr. Turnbull and Rev. Dr. Alex.
McGillivray were appointed to act in
their place at the general assembly,
which opens Saturday. Owing to the
refusal of Rev. T. H. Roger to answer the
call to Cowan avenue church, Rev. Dr.
Turnbull was granted permission to
act as moderator in a second call.

Need New Church.
Fairbank was also reported to be in
need of a new church.
Victoria congregation appointed W.
G. Ross, a recent graduate of Knox
College, to assist the minister. They
asked that he be ordained and the
presbytery acquiesced.

Rev. W. D. Valentyn presented his
report as hospital visitor for the past
six months. It was decided to hold
hospital Sunday through the churches
on June 22, when a special appeal will
be made in connection with this work.

TORONTO WILL BE
ON WHEAT ROUTE

C. N. R. Western Line Will Be
Operated by Way of This
City.

WORK IS BEING RUSHED
Five Thousand Men Engaged
in Laying Rails and Other
Work.

Toronto is to be on the wheat route
of the Canadian Northern Railway on
the completion of the line from the
west at the close of the year. This
will be due to the fact that while the
Toronto-Port Arthur section of the line
will be ready for service by that time,
the new Capreol-Ottawa wheat line
cut-off will not be ready until at least
six months later. Until that is finish-
ed the route via Toronto will be used,
and in order to have this route ready
for the movement of this year's crop,
nearly 5000 men have been put to work
on the completion of the connecting
line between Ruel and Port Arthur.
When that is finished a thru connection
over the C. N. R. to the Canadian west
will be an established fact.

Only a ten-mile stretch between
Chaffee Locks and before the Toronto-
Ottawa line will be ready for service.
Before this ten miles of steel is put
down, however, the remaining portion
of the line, which is already laid, will
be tested and put in first-class condi-
tion. The work of doing this is now
under way and the line will be thrown
open for service early in July.

With the Toronto-Ottawa line com-
pleted the C. N. R. will possess the
shortest route between Toronto and
Quebec, it being the only railway hav-
ing a direct line between Ottawa and
Quebec, all other lines going by way
of Montreal.

An official informed The World yester-
day that this will probably mean that
the Royal Line steamships Royal
Edward and Royal George will trans-
fer their immigration business to the
railway at Quebec instead of at Mont-
real, as is now the case.

Arthur Meighen, M.P., Warns
Senate Against Rejecting
Naval Bill.

CORNWALL, May 27.—(Special).—
The annual meeting of the Liberal-
Conservative Association of Glengarry
was held at Alexandria today. There
was a representative gathering and
great enthusiasm prevailed.

J. A. McDowell, K.C., was elected
honorary president; D. R. McDonald,
ex-M.L.A., president; J. A. McGillivray
and A. J. McKeown, vice-presi-
dents; J. A. McRae, secretary. Arthur
Meighen, M.P. for Portage la Prairie,
and Mr. Rainville, M.P. for Chambly
and Vercheres, were the speakers.

Mr. Meighen went very fully into
the merits of the naval bill and claim-
ed that it was justified by a direct
mandate from the people; it was a
matter which the representatives of
the people had the right to dispose of,
and no one else. If the senate defeated
the bill the odium might be more than
the senate of Canada could bear.

Mr. Rainville spoke strongly in sup-
port of the naval bill.

Berlin Sold the Stock Freely —
Market Unsettled by Balkan
Difficulties.

LONDON, May 27.—The delay in
the signing of the peace treaty be-
tween Turkey and the Balkan States
unsettled the stock market today, es-
pecially in the sections in which the
continent is interested. Berlin sold
Canadian Pacific and Paris offered Rio
Tinto and Kafirs pretty freely. Con-
sols and Nigerian tin shares were
about the only steady exceptions. The
closing was easy. American securi-
ties opened quiet and unchanged. Lat-
ter the list declined under the lead of
Canadian Pacific, which was sold by
Berlin. The market finished at the
low.

**BEARISH FACTORS
PILE UP IN WALL ST.**

Erickson Perkins & Co. (J. G. Beatty)
wired: Whether it was the price re-
ciprocity and coincident break in
that company's securities, the decline
in Canadian Pacific and other special-
ized securities, or the general bearish-
ness of the market, it is not clear. The
decline of President Lovett of Union
Pacific, that caused the general re-
action in prices, was not clear. Along
with this were despatches from Wash-
ington asserting that Attorney-Gen-
eral McReynolds intends to proceed at
once with several suits against the
Anthrax companies. Wall street was
disappointed over various things.

IF GLASS STICKS.

If tumblers become fixed, one inside
the other, tap gently round with another
tumbler, and, like magic, they will come
apart, says The Ladies' World. If a glass
stopper is fixed, tap around it with an-
other, and it will become loosened. Flower
pots from screens, etc., tapped with one of
similar kind, can all be separated easily.

Sealing With Paraffin.
In using paraffin, many housekeepers
are careless, and consequently complain
that their fruit and jelly do not keep
well. Have the jelly glasses absolutely
cold and dry. The least bit of moisture
above the jelly, at the sides of the glass,
will prevent the paraffin in that particu-
lar spot from hardening. Consequently,
after the moisture disappears, an air
space is left. While the paraffin is hard-
ening the glasses must not be moved in
any way whatever. A slam of a door will
sometimes shake the glass just enough
to make a crack in the paraffin while it
is hardening, and this will let air enter.
It is not necessary to heat the paraffin,
but only necessary to melt it. This can
be done at the back of the stove, where
there is no danger from fire.

SANGUINOL
---For Loss of Appetite

Loss of appetite is occasioned by a
general run-down condition of the
system. To restore the appetite, it is
first necessary to tone up the
body. With healthy blood, strong
nerves and sound tissues, a normal
appetite is assured.

Sanguinol is an ideal blood and
nervine builder. It contains nothing
but the elements of which the blood
and nerve cells are built. Its action
is merely to feed these elements to
the system, when nature herself
cannot supply them quickly enough
to keep pace with the demand.

Get Sanguinol today, and know
again the joy of a healthy appetite.

and others are ready to use, the ends being
embellished with hand work or machine
work. The quality of the towels is of
the quality of the huck. As a rule, but
one or two towels of a kind are to be
found—it is because the lots are so broken-
up that the price is so reasonable. Some-
