

Canadian.—This breed originated in the Province of Quebec, where they are now recognized as a distinct breed. They are descended from the cattle brought to Canada by the early French settlers. They are small in size, very hardy, and give large returns in butter for the feed consumed. They are darker in color (the favorite color being black with

CANADIAN.

ROUEN (589)—One of the five cows chosen to represent the Canadian breed at the six-months' dairy contest at Buffalo in 1901. Record for the six months: Milk, 4898.7 lbs.; per cent. of fat, 4.46; value of butter at 25c. per lb., \$64.30; cost of food, \$23.68; net profit from butter alone, \$40.62; weight of cow at entry, 794 lbs.; gain in weight, 27 lbs. Breeder, Arsene Denis; present proprietor, T. B. Macaulay, Hudson Heights, P.Q.

an orange stripe on the backbone and a fawn-colored muzzle) and smaller in size than the Jersey, but have many of the characteristics of this well-known breed. They have been recognized as a distinct breed since 1886. J. A. Couture, V.S., Quebec, is Secretary of the Association and in charge of the herd books.
