PLANNED TO KILL DETECTIVE BURNS

McManigal Says J. B. McNamara Proposed to Use Bomb But Scheme Was Abandoned.

INDIANAPOLIS, Nov. 22.—(Can. Press).—Explosions on non-union grounds in Milwaukee, Omaha, and Springfield, Mass., were explained by J. B. McNamara, the dynamite conspirator, today as having been done by him shortly before he and James B. McNamara, arriving in Detroit to "clear up" that city, were arrested with suitcase filled with dynamite.

For weeks before his arrest, he testified, he had observed he was being followed, having seen strange heads dodging around the corners of elevator shafts in the ironworks headquarters in Indianapolis.

"I told James B. before we started for Detroit that Wm. J. Burns had detectives after us, that detectives were even coming up near the vault where we stored the dynamite and that one of them followed me on the street when I was going with a suitcase of dynamite to blow up the South Chicago shop," said McNamara.

McManigal said if we saw any more of them we would go to Chicago and rent a room next to Burns' office, put an electric wire thru the wall and arrange to set off from our room a bomb in Burns' desk when he was sitting there. That would make an end of our troubles with him, he said. I told him I didn't think we would do anything of the kind or ever get near Burns.

That was about April 5, 1911, McNamara said. He and McNamara were arrested seven days later.

Farmer's Heavy Loss.
BROOKVILLE, Nov. 22.—(Special).—A costly fire took place today at the farm of John Bourne, near Addison. Thrashing operations were in progress at the time and a spark from the engine in use at the work thought to have been the cause. The burned buildings were all large ones and included a grain barn, a cow byre, and a hay barn. They were all destroyed with the season's crops. The loss will be upwards of \$4000.

Lighting the Home

THERE is no home like the well-lighted home.

Up-to-date gas lighting means all the light you want for reading, writing, sewing, or for general illumination purposes, at little cost.

Gas lighting to-day is the cheapest and best of modern illuminants.

A single gas lamp gives nearly 100 candle-power of clear, powerful light—all you require for a large room, at a cost of only one-third of a cent per hour. Think of it—to read, write, or study all evening without fear of eye strain, nerve strain, or purse strain. The Gas Company's exhibit of fixtures have been chosen with the fact in mind that everyone should have something that will thoroughly satisfy them in both service and appearance. Beautiful chandeliers abound on every side, and it is but the matter of a few moments to select just exactly what you need. Gas Fixtures and Portable Lamps make excellent Christmas presents. Salesroom open evenings.

"Gypsy Love" a Lyric Opera

Toronto is sure to like "Gypsy Love" when it comes to the Princess Theatre for a week's engagement, beginning Monday, Nov. 25, where the melodious comic opera will be presented by A. J. Woods' perfect operatic organization of eighty people. "Gypsy Love" is a true lyric opera. The whole appeal is intensely romantic and picturesque and full of fiery atmosphere and unusual color. Prominent among the people in the company are Phyllis Partridge, who will play Zorika, and Arthur Abro, the Russian tenor, who made a tremendous hit as Joss, the gypsy dancer. Abro is to sing the opera stage which is to be grand opera.

"Alias Jimmy Valentine"

No sweeter, daintier and at the same time more thoughtful play has been written in years. The comedy by Arnold Bennett and Edward Knoblauch, which has created such a sensation in the States, is being produced in Toronto by the Princess Theatre, with the week of Dec. 2, "Alias Jimmy Valentine" is a melodrama that has its roots in the best sense of that word, and while it offers thrills to its audiences it does so without ceasing to be a visual spectacle to feel ashamed of its excitement.

There are twenty-seven catchy musical numbers, and the picture presented with many richly dressed women on the stage is one of considerable splendor. Great Program Arranged For National Chorus

Rehearsals for the concert to be given by the National Chorus in January are now reaching a stage at which some conception can be had of the worth of the program outlined, and Dr. Ham is highly gratified with the outlook. He has discovered a number of voices of unusual calibre among the forty odd members that have been added to the chorus, which now numbers some 220 members, and is confident that in the coming concert he will even excel the high standard attained in previous years for character of tone and perfection of phrasing. The programs include numbers that make strong demands on perfectly-trained voices, but the chorus may be relied upon to cope with them in the use of brilliant technique. Among these is "Blessed Be of Strains," a short cantata by Sir Robert Parry, for eight-part chorus and orchestra, and "The Song of the Lark," a six-part chorus, which met with such an enthusiastic reception that it was added to the repertoire for the present season. A very important feature in view of the fact that the works of Granville Bantock now obtain in England, is a charming part song by Bantock, "The Song of the Lark," which has been sung with great success in London and Paris recently. The second evening the principal numbers will be "Fringes of Spring," a song from the unpublished opera, "The Vanagon," by the celebrated Hugo Wolf, and "We'll sing a song," a part song for double chorus, a magnificent contrapuntal work, pronounced by

There will be supplemented by choruses, madrigals and part songs for male voices, and full chorus by Edgar, German, Macfarren, Albert Ham and other composers. The New York Symphony Orchestra, under Walter Damrosch, will give a Wagnerian program on the first evening in celebration of the centenary of the great composer, and on the second will render Beethoven's "Pastoral Symphony," a charming work, but rarely heard in Toronto. Mr. Damrosch will also present a novelty in the shape of a suite of five numbers arranged by himself from Maurice Ravel's "Mother Goose," which was performed for the first time by him in New York this month, and received with marked evidence of the warmest appreciation by the critics as well as by the musical public.

The orchestra is particularly busy these days, and is booked for several engagements before Christmas, the most important being the one with the Philharmonic Society of St. Catharines and "Chatham and Owen Sound" and the Toronto program Mr. Weisman is again

Strong People Are Full of Electricity Weak People Are Lacking in Electricity

Doctors all over the world are now talking Electricity, and are using it in one form or another. This is the direct outcome of the announcements of the world's greatest scientists, and is a practical admission on the part of physicians of the power of electricity over drugs as a curative agent.

I have known for twenty years that drugs could not restore strength. My knowledge was obtained from actual contact with thousands of people who have tried drugs in every form and they were worse off than before they started drugging.

Are you a weak man? Are you over-tired and gloomy? Is your sleep broken? Have you pains and aches in different parts of your body? Is your back weak and painful? Have you lost the vigor of youth? Are you rheumatic and gouty? Have you varicose veins? These are the results of the waste of vital force. The gentle stream of electricity from Dr. McLaughlin's Electric Belt going into the weak nerves for hours every night soon replaces all the lost energy and makes every nerve and muscle perfect. It cures permanently in every case.

Give me a man (or woman, for that matter) who has been sick and suffering for years, and taken medicine until the system is all run down and debilitated, the stomach unable to digest the food, and the nerves shattered. My Electric Belt will give new life to every organ, drive out disease, and restore health.

Now, take a letter like this one, that Mr. A. G. ROFFEY, Wabgon, Ont., writes me. This man, I venture to say, would rather part with \$1,000 than forfeit the good he has received from the use of my Belt. These are his words:—

"Dear Sir,—Your Belt has been a boon to me. The emisions have ceased. My Rheumatism in the shoulder has gone. I must say that I feel life is now worth living for. The most unbearable thing is the blood; it seems to have become very much in circulation. Before using your Belt I took a swim in the lake I very soon got cold, but now I am in the water every morning at 6 o'clock and I don't feel cold at all. I think your Belt will do all you claim it will and then some more."

Thousands of men have written me in a similar way, which proves that electricity is life. Take the case of Mr. W. J. HONEYFORD, Collingwood, Ont., who says:—

"Dear Sir,—I have found your Belt to be a great help to me, and since using it I have regained my usual weight and can sleep well. I feel that I have had a new lease of life. In fact, I can say that your Belt is all you say it is. If there are any from here who want to talk to a user of your Belt, send them to me, for I am satisfied with your Belt."

My Belt, with special Electrical attachment, will restore your vigor. It will check all loss of vitality and strengthen every organ of the body. It cures Nervous Debility, Varicose Veins, Rheumatism, Lame Back, Lumbago, Sciatica, any case of Kidney Disease that has not gone as far as Bright's Disease, Stomach Trouble,
