

WRITS NOT YET ISSUED BUT THEY SOON WILL BE

Scott, Ross and Sifton in Conclave Preparatory to Final Organization for the Polling.

Winnipeg, Nov. 21.—(Special).—From information received here from Regina to-day it would appear that the announcement of the issuance of the writs for Saskatchewan was premature, tho there appears to be good foundation for the report that the provincial elections will be held on Dec. 23.

Walter Scott left here to-night for the west without making the expected announcement and he was accompanied by Mr. Ross, now of Moose Jaw, and formerly notorious in connection with Yukon scandals who was his first commissioner and subsequently federal representative when that constituency was abolished.

Ross has considerable influence in Central Saskatchewan and is thought to be together with that of Clifford Sifton, is regarded by some as being the final gathering of the party before the issue of the writs.

The party of coercion yet lacks a candidate in Yorkton, and these gentlemen are now on their way to confer in that city with a view to the nomination of the election may be expected almost immediately.

ASKING FOR TARIFF FAVORS ENAMEL MEN PRESENT CASE Industry Which Caters to People in Precarious State Because Europe's Low-Priced Labor Competes.

London, Nov. 21.—The tariff commission had a very busy session this morning, a number of deputations being heard. C. H. Wile of the London Rolling Mills Co. asked that the duty on enamel be not increased. He made a similar request in regard to the 22 ton duty on iron filings purchased in the United States. He also wanted 20 per cent. reduction on the duty on bituminous coal. He stated that the preferential tariff had caused his main competitors to come from the United States. The anti-dumping clause had also prevented the slaughter of American iron bars and steel in Canada.

The London fruit and vegetable dealers made a reply to the petition of the Fruit and Vegetable Growers' Association at Toronto by asking for lower duties where the latter had asked for increases. They believed the dealers had been the means of increasing the consumption of fruit and that the growers had benefited thereby while imported fruit did not come in at a price which would allow them to compete.

The manufacturers in Canada of steel enameled ware presented a statement asking that whatever the maximum ad valorem duty, which is recognized in the tariff act, there be a duty of 25 per cent. ad valorem on the ware, but that the duty be applied to the value of the material used in the manufacture of the ware, and not to the value of the finished ware. The duty on iron filings purchased in the United States should be reduced to 20 per cent. The duty on bituminous coal should be reduced to 20 per cent. The duty on iron bars and steel in Canada should be reduced to 20 per cent.

Mr. Embree said he did not think so. Dr. Sheard had given him the assurance that there were no more cases. However, that assurance was given before the case developed on Close-avenue, and he could not say how the medical health officer would view the latest phase.

The three pupils all belong to the third form. There are two divisions, however, at the principal was the only one able to say off-hand whether all were in one room. However, the classes were in adjoining rooms and a certain amount of mingling took place among all the scholars of the form.

"Do you think it will be thought best to close down the high school for a time?" was asked.

Mr. Embree replied that there were, and gave as a reason the fact that parents were overly anxious. Just now he was more disposed than usual to keep schools at home.

Mr. Embree said that care was being taken to have the school books of smallpox patients kept from being sent to the school. In the case of the Webb pupils, they had been securely wrapped up and labeled. The school books belonging to the latest sufferer dealt with in a way to prevent contagion.

Dr. Sheard's attitude has been that the smallpox epidemic in Parkdale was not a dangerous one, and has given frequent assurance that there was no cause for alarm.

Onbreak in West. Marquette, Man., Nov. 21.—(Special).—Smallpox has broken out north of here. Three cases are already down at Lake Francis, and all affected points will be immediately quarantined.

Total vote polled for Roche 1888

Table with 2 columns: Candidate, Vote. Includes Majority for Mulock, King Towns, etc.

The constituency in Wentworth was created in 1868 and in the election of 1894, Saylor (Lib.) was elected by 20 majority. In a recent by-election, Judge Saylor, E. C. Saylor, on the ground that the returning officer improperly marked the poll in Valens, was elected by a majority of 10.

The vacancy in West Lambton was caused by the death of Dr. T. G. Johnston (Liberal). Fast election results show:

Table with 2 columns: Candidate, Vote. Includes 1894-Dr. T. G. Johnston (Lib.), 1898-Dr. T. G. Johnston (Lib.), etc.

The vacancy in Antigonish, N. S., is caused by the retirement of Col. J. J. MacCallum (Cons.), who held the seat for the continental railway commission.

It is Sir John Thompson's (Cons.) bill which has been successful there, as these returns show:

Table with 2 columns: Candidate, Vote. Includes 1894-C. F. McIsaac (Lib.), 1898-C. F. McIsaac (Lib.), etc.

Major Davelle opened the proceedings and touched upon the necessity of a farmer's party. He said that the Conservative party and a supposed plan to have the Conservative party to deep consideration. He was opposed to many corporations because of the interests of the farmer.

The Hon. Mr. L. A. was received with enthusiasm. Various party holders, he said, were using their best efforts to defeat Mr. McCallum and threatening that if Mr. Aylesworth were defeated a parliamentary representative would be elected in his place.

Mr. McCallum was one of the speakers. He said that the Conservative party was not a party of farmers, but a party of the people. He said that the Conservative party was not a party of farmers, but a party of the people.

Mr. Aylesworth had practically repudiated his colleague. The industry bill had been put thru in the closing stages of the session.

The success of Dr. Chase's Syrup of Linseed and Turpentine as a cure for coughs and colds is due largely to the fact that it is a natural remedy.

Linseed helps by forming a sort of protective film over the inflamed and membranous lining of the mouth, throat and bronchial tubes, thus relieving the coughing and preventing serious results from it.

Turpentine disinfects and stimulates the inflamed and irritated passages, and is especially effective in bronchitis and severe chest ailments.

Other ingredients found in Dr. Chase's Syrup of Linseed and Turpentine have a powerful influence on the inflamed nerves and a far-reaching effect on the whole system, so that the coughing, colds, and bronchitis, whooping cough, asthma and similar affections, to protect you against imitations of the famous receipt book author, 50 cents a bottle at all dealers.

THE KIND YOU HAVE ALWAYS BOUGHT

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. It is Pleasant, it cures you in this, Counterfeits, Imitations and "Just-as-good" are but Experiments, and endanger the health of Children. Expectant against Experiment.
