A BAD COLD SETTLED ON THE LUNGS

All the most serious affections of the throat, the lungs, and the bronchial tubes, are, in the beginning, but coughs and colds, and failure to take hold at once and get rid of them will cause many years of suffering.

Dr. Wood's Norway Pine Syrup

contains all the lung healing virtues of the pine tree and will certainly cure all coughs colds and lung troubles.

Mrs. Jas. McDowell, Langton, Ont., writes: "In November, 1905, I caught a bad cold that settled on my lungs, so I got two bottles of Dr. Wood's Norway Pine Syrup, and used one and a half of them and that time I was cured. I laid the balance of the bottle away for future use. A few days after our eight months' old baby took the whooping cough.

He was so bad we had to call the family physician, but he said he could do but little. I commenced using the Dr. Wood's Norway Pine Syrup and to my great satisfaction the baby was cured. I only used four 25 cent bottles; a small doctor bill.

I believe there is no other remedy for coughs, colds, etc. Price 25 cents a bottle at all dealers

Hon. J. W. St. John and W. F. Maclean, M.P., Discuss Present Issues at Dovercourt Meeting.

The principle of public ownership was never more heartily endorsed than by a large and representative meeting of the ratepayers of Dovercourt in Earlscourt Baptist Mission Church, St. Clair-avenue, on Saturday evening.

Notwithstanding that the roads in that district are in an almost impas-sable condition, and that the meeting was arranged at a late date, the attendance was good. Hon. J. W. St. John and W. F. Maciean, M. P., were accorded a rousing reception The gathering was non-political and

Should Keep in Touch, W. F. Maclean, M. P., declared that the federal or provincial representa-tive who failed to meet and confer with his constituents from time to time was lacking in the first elements of a good member. Only by contact could he keep abreast of the times. There were great problems before the people of Canada to-day. Locally, there were weighty difficulties which the suburban residents would require to face, such as sewage, water supply, railway extension and, possibly that of union with the city. Within a radius of five miles fully 20.000 peo-ple were now living outside the city limits, and some comprehensive plan would before long be required to deal

Other matters touched on by the member for South York were the express rates, the high freight rates the inefficient service given by the electric light companies, and the evils of the parcel post system.

"We have at enormous cost built our canals and improved our waterways," said Mr. Maclean, "but are we reaping the full advantage of all our expenditure? It is a well-known fact that we are not, and I charge the two great railways, the Grand Trunk and the C. P. R., with 'queering' the navigation business of this country. They are public enemies."

RAINCOATS THE popularity of the raincoat has never ceased since the introduction of Cravenette several years ago. It's an all-round useful good-looking coat and it will be mighty hard to supplant it in popularity.

This spring's coats are now ready in the men's store. When your winter coat feels heavy or the spring sunshine shows up its shabbiness, come and have a look at the raincoats.
