THE BURNING OF TOLLGATES.
Edward of 2000 offered for conviction—
sapa Towards Re-creation - Takik -
Toll in the Open Air.
High Constable Jones and County
Engineer Macdonald have been look-
ing over the sites of the tollgates
in North Toronto. The high constable
has offered \$20 reward for the discov-
ery of the offenders, and the county
has augmented this sum by \$300. Mr.
Atkinson for the tollgates yesterday sat
by the roadside to gather toll, where the
check gate stood, and his sister sat
amid the charred ruins of the No. 1.
Some farmers objected to paying toll
where they could see no gate house,
but the leaves informed them that his
presence was sufficient. Warden Slater,
Reeve Fabiley and the County Engi-
neer held a meeting and determined to
re-build Gate No. 1 will be restored
at a cost of about \$20, but it is pro-
posed to put up a galvanised shed at the
other place. County Constable Stew-
art said that the County Constable
and the County Engineer have the case
in hand, but they say that it will require
considerable ingenuity to find the per-
petrators, as the whole neighborhood
is in opposition to the gates.

THREE GREAT BIG CRUMPS,
And One a Canadian, Will Swim for the
Hand of Miss Jessie O'Brien at
Bath Beach, L.I.
Bath Beach, L.I., Aug. 17.—Another
chapter has been added to the swim-
mer-wives incident in Bath Beach.
Joseph Byrne and Rupert Cox may find
that a third rival will appear. W.
Bylle, a handsome and popular Cana-
dian, who has been swimming in Bath
Beach this summer, saw the beautiful
Miss Jessie O'Brien in the roof garden
last night, and instantly was impres-
sioned deeply with her beauty and grace.
He inquired her name from some one
present, and then tried to find how he
could be presented to the charmer. It
was at the time that Mrs. Alice Camp-
bell was getting up the bath bench.
Mrs. Chism knows the young woman,
and Mrs. Wylie brought her to make
it possible for Chism to meet Miss
O'Brien. As a bribe he took tickets
for the opera, and Chism's entertain-
ment with Mrs. Chism's promise in regard
to the introduction. Now Mrs. Chism
does not know the young woman, and
O'Brien has gone on a cruise for a
week, and the time that the Canadian
has to be in Bath Beach is very short
and shorter. Whether Mrs. Chism will
have to give up the \$10, whether Mr.
Wylie will give up his private life, and
whether Mrs. Chism will give up her
race for love and a dozen other ques-
tions will have to be decided when the
cruise is over and the little returns
with the fair maid on board.

TOUR OPERA HOUSES.
George W. Monroe Will Open the Season
in His New Play.
Of the many Irish comedians on the
stage, it is not often that one can
complete with George W. Monroe.
His comedy is different from any
other, and more natural in its treatment.
It is admitted by the leading critics of
the day that his plays are the most
Small's grand opening attraction at
the Toronto Opera House on Aug. 31.
He is a new and original musical com-
edy satirist, entitled "A Happy Little
Home." Playgoers who remember his
impersonation of the Irishwoman in
that furiously funny play "My Aunt
Bridget" will be glad to see the new
comedian laughing all over again
when they contemplate calling on "A
Happy Little Home." The roof cov-
ers some of the cleverest comedians
of the day, and his play is a con-
fession of the theatrical profession.

WORKINGMAN WHO WANTS CARS.
Editor World: In looking over the news
of the 10th inst. I can find no notice
signed by Charles Durand, in which he
says the cars run on a Sunday would
be a cause of vice and carousal. My
have had a chance of inquiring into the
above facts, and find that the cars
run in every sense of the word. The
Bridget and the other plays, excepting
any other class of people. He also says
he will go to the Queen's Park on hot
days. Well, I must say he does not go
very far from home, only three streets at
the most, and he is not a very good
go as many miles. I think the good
of this city should have a little sym-
pathy for the people who would use the
cars for other purposes than pleasure.
for one work seven days a week already,
and to have the cars go to and from work
much shorter and enable me to have more
time at home with my family.

CHIEF JUSTICE RUSSELL'S HOLD.
Dobb's Ferry, N.Y., Aug. 17.—Lord Rus-
sell, Chief Justice of England, and the
solicitor who accompany him, spent the
morning driving about the country here
and viewing the magnificent country places
of the many New Yorkers located here-
abouts. Mr. Henry Willard, food Russell's
host, declares that the Chief Justice
delighted with his trip to the United
States, and that he has expressed great
admiration of the scenery along the Hud-
son.

THE DOGS BARKED IN TIME.
Vardo, Norway, Aug. 17.—A Nansen left
here this morning on his way to Christiania
Dr. Nansen and his party, the English ex-
plorer, was the result of the barking of
the dogs. The Norwegian and his com-
panions were exploring one day when they
heard barking, followed by the sound of
their amazement they reached Jackson's
camp. Vardo has been an fête and dec-
orated in honor of the return of Dr. Nansen.

A Fearsful Explosion.
Lancaster, Pa., Aug. 17.—A party of men
in the employ of the Pennsylvania Tele-
phone Company started to work in
of New Holland this morning,
and need 100 pounds of dynamite
wagon which was standing in the yard of
A. G. Miller's residence. The wagon ex-
ploded, killing three men, fatally injuring
three others and seriously injuring a score
of others.

THE FAKE AUCTION ROOM NUISANCE.

ed to the Police Commissioners of the so-

claim that the continuous performance

away from the neighborhood.

SUMMER PASSING.
THE ROBERT SIMPSON CO. LTD.
At this period of the year, when summer is passing
and autumn is coming, all the balances of strictly summer
stocks must go. To accomplish this we cannot afford to
stop long enough to consider losses. Briefly, absurd
cheapness appears in scores of places. Also immense im-
porters and dealers in all sorts of things must liquidate
summer merchandise. The big outlet of this house com-
mands them. And so we are passing on goods at figures
that are a satire on values.

Peculiar Prices on the Carpet Floor.
This is a section of the store where very noticeable
values present themselves. Carpets are staple goods all
the year round, and yet the policy of this house is to bring
down stocks in the most staple goods in midsummer. Be-
sides it is a time of the year when there are many end
pieces just as good as the first cut off a new roll, but with
us such a condition seriously affects prices. Thinking of
anything in carpets or curtains visit the floor—take ele-
vator.

**It hardly seems probable that prices for furniture will
ever touch again so low a notch. Manufacturers have
been particularly anxious to dispose of surplus stocks,
or accept orders for special lots, the present summer.
Without a store of this kind they would put in a very dull
season, but we are in no way tardy in ordering furniture
in summer when prices are right. With our outlet we
can sell furniture in August as well as later, and the way
you are keeping us busy on the furniture floor is evi-
dence that you recognize the bargains we are giving.**

Drug and Patent Medicine Department.
There seems, in a measure, little need of much talk
to bring this steadily growing department to shoppers'
notice. Success has come to it. The character, the
thoughtfulness, the exactness, the quality of our work, have
appealed to you, and to-day this department has high
place in the minds of the physician and the public as a
careful, conscientiously conducted drug store. Need we
say more? Your prescriptions are always safe in our
hands—and how little are our charges contrasted with the
old way of doing things in the ordinary drug store!

W. Fullerton, mining broker of Rosland and Toronto, writes:
"Dear Sir.—The 'Nest Egg'—Having resided in Rosland for the past six months
I am in position to state that the Nest Egg is one of the best partly developed prop-
erties in that camp. This is the opinion of all the best mining men in Rosland, and
the fact is taken into consideration that the capitalization is only \$500,000,
and that the company owes two millions, with the B.R. running along almost the en-
tire length through both these, there is no question in my mind but that the stock at
25c will realise handsome returns in time for the purchasers as development pro-
gresses."—Commission on all shares sold by me was taken in stock. W.L. FULLERTON.
