THE TORONTO WORLD: WEDNESDAY MORNING SEPTEMBER 16 1896

In no inconsiderable sense the Millinery Opening of this store, which takes place to-day, and continues the remaining days of the week, is more important to the ladies of Toronto than the Industrial Exhibition. It is an unparalleled exhibition of that which is so dear to the heart of women-fashionable headwear.

The very latest Parisian novelties are here-that is a commonplace advertising saying of millinery, but here it means a great deal. The showrooms are in princely attire. Everything and everybody at their best-a showing which can only be made in showrooms built as are these in this palace store.

Nor is the display confined, though this is the great starting point, to hats and bonnets. The new mantle stocks are all open, and those who have had years of experience in placing this class of goods on racks and tables are in raptures over their magnificence and beauty.

You must see the Millinery. You must see the Mantles; and you will not miss the Dress Goods and Silk displays on the main floorin a store that has no competitor in the Dress Goods and Silk business.

## BLACK DRESS GOODS DISPLAY.

BLACK DRESS GOODS DISPLAY. The selling of Black Dress Goods to the individual consumer can only reach complete success when made a particular study by those whose place it is to buy these goods as well as to sell them. You have in the Fall stock that we are now showing the most judicious and careful selection of buyers who have made dress goods business, their one particular hobby, and who, through the broad opportunities of this store, are enabled to touch the high-est and greatest of dress goods manufacturers. Prices that we here quote you can figure as from 20 to 30 per cent. lower than the same goods can be bought for anywhere else in Toronto-we care not where:

## FIRST ISSUE OF 150,000 PROMOTERS' SHARES.

Directors Red Point Gold Mining Company, Limited.

J. W. McRAE, Esq., President Ottawa Electric Railway, Managing Director Ottawa Electric Light Co., Secretary-Treasurer Ottawa Transportation Company.

GEORGE P. BROPHY, Esq., C.E., Superintendent Ottawa River Works, Director Ottawa Electric Railway Co., President Kootenay and Columbia P. and M. Co.

HAROLD KENNEDY, Esq., Lumber Merchant and Ship Broker, Quebec.

The "RED POINT" Mine, situated on Look Out Mountain, was taken up in May, 1893, and was the first claim located in that phenomenally rich district. It has been thoroughly prospected by the Kootenay & Columbia' Prospecting and Mining Company of Ottawa, by means of tunnels and the DIAMOND DRILL, regardless of expense, and the showing on its FOUR VEINS OF ORE is SIMPLY WONDERFUL.

This stock is not being offered for sale on the strength of "IRON-CAPPING" and POSSIBILI-TIES, as so many properties now on the market are, but is an honest investment, backed up by CANADIANS and men of known repute and integrity. It is one claim out of many, prospected and tested by the company, and is placed before the public entirely on its merits. This issue of stock is the first and is limited to 150,000 \$1 fully-paid shares at the price of 10 cents per share, and is a genuine opportunity to investors to "GET IN ON THE GROUND FLOOR." The ore assays about \$83.60 per ton, and the mine is situated only one and a half miles from the Trail smelter, so that heavy freight charges are avoided. A further and final issue of 150,000 shares will be placed on sale at a later period at such advanced price as the directors may deem necessary, but no more stock will be sold at the price of this first issue of ten cents.

The "RED POINT" is situated within about a mile of the "Crown Point" and a short distance from the G.R. Sovereign, and it has abundance of timber and water available for mining purposes. The directors are at present making arrangements for a 15-drill air compressor plant, which will be installed within a few weeks.

Certified copies of assays, engineers' reports, maps, etc., may be seen at the office of
