the body was conducted by Dr. J. P.

The post mortem examination on the body was conducted by Dr. J. P. Waddy, and the inquest was commenced at 4 o'clock, conducted by Dr. Young. The next witness called was the constable, J. G. Dixon, who stated how the body had been found and the bringing of it to Rosseau.

The next witness called was the son, James Cooney, who gave a ramoing statement of the death, saying his father had been sick since a week ago last Saturday and had not, been out of bed. I'me only medicine he had given him was salts, the only nourishment alltitle milk and some grule he had made for him. He said, ne used to take any money he could get his hands on and frequently took a dollar or any change he could, and Saturday, the 9th, the first day of his father's illness, during his absence from the room, he went through his pockets and took out 50 cents. He then stated his father had died about 10 o'clock Sunday morning. About two hours afterwards he picked him up and moved him into another room, and then went out to dig the grave, dury up the body and searched for the money, but found none. He believed his father out on his back and put him in the grave. He did not search the pockets at the time of death, but returned on Monday to the grave, dury up the body and searched for the money, but found none. He believed his father had about \$30 on him. On Sunday he stated he would bury his father on Wednesday, and later on admitted he had buried him on Sunday.

Dr. Waddy was next called. He found an injury on the head sufficient found the stomach and bowels empty of any food. The cross-examination of Dr. Waddy will be taken up at 10 o'clock to morrow. The inquest was adjourned until then.

Richard Baycroft Met With a Terrible

beath at Gravenhurst hurst early this morning. Richard Baycroft, brakesman, was working on top of some freight cars while the train was shunting, and accidentally fell to the track, the cars passing over him and mangling his body horribly. Death came instantly. Deceased was about 30 years of age and belonged to this town. He was married about a year cgo to Miss Morley. She has been with him at Gravenhurst for some time. Two fellow-brakesmen went north this morning to bring his remains here for burial.

Richard fund of \$18 each on account of license fees paid by them some years ago at the time the difficulties arose respecting the right of the peddlers to pursue their calling on certain streets. The property Committee of last year recommended that the refund be made, but Mr. Caswell again advises as above, and the peddlers cannot get the money. The opinion points out that the city's right to issue the license has not been questioned, and the peddlers were bound to take out a license before they could pursue their calling whether the city had or had not the right to prohibit them from doing so on certain streets.

AT THE CITY HALL.

The Rosseau Sensation is Being Developed.

The Mayor was yesterday afternoon served with two writs on behalf of William Andrew Mills and Eloisa Winton respectively, asking for an injunction to declare invalid bylaw 2841, by which an assessment of \$36,180,22 was made upon the plaintiffs and other property owners for the extension of Gladstone-avenue. They also claim damages for injury to their land by reason of the extension. These actions are the result of the judgment against the city in Petman v. Toronto, which was given against the city in Petman v. Toronto, which was given against the city recently, but which the City Solicitor advises should be appealed to the Supreme Court. The writs were issued by C. R. W. Biggar, Q.C., who was City Solicitor at the time that the bylaw, which it was sought to quash, was passed. There are in all seven writs served or ready for service in connection with this blunder.

THE CIVIC INSURANCE SCHEME.

Althoush Ald. Lamb did not succed in getting his civic insurance bill through the Legislature last session he has by no means given up the fight. He has secured the co-operation of the Autorney-General Hardy, asking him to arrange for an interview at an early date upon the question, in order that a bill may at once be prepared for introduction at the coming session of the Legislature. Last session Sir Oliver Mowat granted a committee permission to look into the question, but owing to the lateness of its appointment nothing tangible in the shape of legislation resulted. The promoter of the scheme is in hopes that by mak iny an early start and vigorous work he will succeed in getting the bill through. In the meantime he has been collecting additional information, and yesterday received a letter from Ald. Hannaford of Hamilton, offering the co-operation of that city.

It was urged upon the Minister that a scheme should be devised for the exportation of tender Canadian fruit in refrigerator cars and boats to European ports, and that an emporium should be established in London for the purpose of advertising Canadian fruits.

The growers were also of the opinion that cold storage warehouses should be established in the various fruit centres, and they were requested to formulate a scheme for such warehouses and other suggested improvements and submit it to the Minister. H. AND B. INCLINE RAILWAY.

H. AND B. INCLINE RAILWAY.

At the annual meeting of the Hamilton and Barton Incline Railway Company, the business of the year was shown to have been fairly prosperous and a 2 per cent. dividend was declared. The following directors were elected: W. G. Walton, John Dickinson, M. L. A.; James Chisholm, J. D. Evans, John M. Eastwood. Messrs. Walton and Dickinson were subsequently re-elected president and vice-president respectively.

FIRE AND WATER COMMITTEE.

The first meeting of the new Fire and Water Committee to-night was peaceful and harmonious, the predictions of many municipal prophets being altogether astray. Chairman Dixon and the entire committee were present, as were also Mayor Colquhoun, Engineer Barrow and Chief Altchison. The question of prohibiting the connection of electric light wires with buildings was taken up and discussed at length, with the result that the Board of Fire Underwriters will be further consulted in the matter. Chief Altchison reported the total loss by fire during the past year to have been \$20,921.99, of which \$1416 was not covered by insurance. The loss was divided: On buildings \$6252.17, on contents \$14,669.82.
