

WILLIAMS PIANOS

NINETEENTH YEAR

AGAINST THE EXPORT DUTY ON NICKEL

Henchemen of Americans Thick on the Ground at Ottawa.

Canadian Copper Company Wants the Present State of Affairs to Go On, But Mr. S. J. Ritchie Wants the Smelting and Refining Done in this Country - What Will Government Do?

Ottawa, March 20.—(Special).—The opponents of an export duty on nickel, who consist of the henchemen of the American mines, are thick on the ground these days. Among them are two especially representative citizens of Sudbury, Dr. Struthers and D. L. McKinnon, but their disinterestedness will be readily realized when it is explained that Dr. Struthers is physician of the Canadian Copper Company, which is putting up the fight against an export duty, while Mr. McKinnon is a gentleman who has the contract to roast the nickel ore for the Canadian Copper Company. Then there is also here Mr. J. G. Huestock, one of the legal representatives of the company. The other day there was distributed to every member of the House a copy of an anonymous pamphlet prepared in advocacy of the maintenance of the present condition of affairs. A copy of this circular fell early into the hands of Mr. S. J. Ritchie, who has large interests in Canada and who is anxious to see the smelting, refining and manufacturing of nickel done in the Dominion. Mr. Ritchie, in a few hours prepared, and has caused to be issued, a telling indictment of the Canadian Copper Co. which was granted in the House of Commons on Tuesday last, and is believed cannot fail to influence the Government to improve the full amount of the export duty, which was authorized by the Tariff Act of last session, namely, 10 cents per pound upon nickel and 2 cents upon copper.

A Heavy Point Chalked up. A heavy point is scored against the Canadian Copper Company, which is showing that they have not only failed to carry out the conditions of their Dominion charter, which was granted in 1888, Hon. W. B. Ives makes the following statement: "I was the chairman of the Private Bills Committee of the House of Commons at that time, and have to-day refreshed my memory by looking over the original records of the bill, and such as brought before the committee asked power to establish treating and smelting works in any province of Canada elsewhere."

The words or otherwise were struck out by the committee by the view of forcing the companies to treat and refine their ores in Canada. And yet, according to this provision, the company has been sending all its product in the shape of matte, to New Jersey for treatment.

Can Slow Either Way. That the opponents of an export duty on nickel can blow hot or cold is suitably proven by the following statement. One of the warmest champions of the subsidiary company is a member of the committee on the subject, the Canadian Mining Institute, which was appointed at the recent meeting in Montreal to secure an efficient import duty on lead and lead manufactures. The circular this committee has prepared says: "It would seem that all patriotic Canadians, irrespective of party lines, should be united in opposing the bill as a prohibitory duty, similar to the one levied by the United States on Canadian lead at the present time. It would be the means of making the Canadian market for Canadian lead, and establish a highly important industry for Canada."

Can Slow Either Way. That the opponents of an export duty on nickel would precisely achieve the same object.

TORPEDO BOAT FOR HALIFAX. Britain sends a 30-Mile-an-Hour Flyer to Join the North American Squadron.

Halifax, N.S., March 20.—According to advices just received here from England, the torpedo destroyer Rocket has been ordered to Halifax, and will arrive here in a few days. The craft is one of the swiftest torpedo boats owned by Great Britain, being of the latest design. The speed is said to be 30 knots an hour. The first of the British North American station. The reason for sending the boat to Halifax is that it can be learned in naval circles here.

BRANTFORD FIREMAN DEAD. Foreman W. F. Allen Succumbed as the Result of a Bicycle Accident.

Brantford, March 19.—W. F. Allen, foreman of the Fire Department, passed away at noon to-day. Deceased was one of the first to join the firemen under the present system, and was highly respected. He leaves a wife and two children, a boy and a girl. Deceased was out on his bicycle Tuesday afternoon, when he was thrown violently to the ground, but he proceeded to the house and he would not give up, but on Wednesday he was taken to his home, when he became worse, and died on Friday.

A Comet With a Tail. Cambridge, Mass., March 20.—A telegram has been received from the Harvard College Observatory stating that Dr. Curtis has just discovered a comet, its position March 20, 0h 53m 52s, Greenwich time, 21h 15m 30.8s, declination north, 16 17 and 79 longitude, also 4, 4 and 6 King Street East. Phone 158.

Wine Vaults—Call when passing and see our assortment of choice Wines and spirits. Largest variety in Canada. 17 and 79 Yonge Street, also 4, 4 and 6 King Street East. Phone 158.

Yonge Street Changes. Mr. G. A. Bingham, the long-street druggist, will shortly remove to one of the new stores at King Street, and Messrs. and Messengers will change their quarters to the opposite side of the street during the rebuilding of their old premises.

A Motorman Assailed. Nelson Priest, 87 Sherbourne-street, a motorman, has a party street railway car, which was the victim of an unprovoked assault at Sherbourne and Dundas-streets on Wednesday night, but he does not know his assailant.

AN ALL-BRITISH CABLE HAS BEEN COMPLETED

And Now Canadians Are Not So Dependent on the U.S.

Halifax-Bermuda Cable Company's Line Completed to Jamaica—Mr. Tarte Gives Out More Literature About the Route and Threatens the Tories Generally—Montreal News.

Montreal, March 20.—(Special).—A work of great importance to the Empire and to Canada has just been completed. Mr. Joseph Rippon, general manager of the Halifax and Bermuda cable, arrived in the city to-day, and states that he has just completed the laying of the company's cable, between Bermuda and Jamaica, which now forms the all-British route from Halifax to Jamaica, and frees the country from its former absolute dependence upon the United States lines. Mr. Rippon, who is en route for Ottawa, is accompanied by Mr. P. H. Skinner, whose father is chairman of the Halifax and Bermuda Company, as well as a London director of the Canadian Pacific and the Bank of Montreal.

Messrs. McKenzie and Mann are in the city to-day and all sorts of rumors are afloat as to the fate of the famous Yukon bill. A member from one of the Montreal divisions reports that Hon. Messrs. Drummond and Sanford, and several other wealthy Conservative Senators, will vote for the bill, and this statement being made to Hon. L. P. Pelletier, the latter remarked that if the report were true it was a bad outlook for the Conservative party. On the other hand, the inspired Government organs do not appear as sure as they did a week ago. Hon. Mr. Tarte writes as follows in La Patrie: "Our opponents boast that the Senate will reject the Yukon bill. The Conservative party has committed many errors since the death of Sir John Macdonald. In fact, they have committed suicide by their divisions, by their narrow political views, and by their appeals to race and religious prejudices; therefore, the leaders of that party should be ashamed to have their names mentioned in connection with such a course. If to all their other mistakes they add that of delivering over to the Yankees the immense Yukon trade, they will have purely and simply consummated their ruin. We consider the Yukon bill as quite certain. It has done its duty to the Dominion in opening to Canadian trade immediate communication with the Yukon. If the Senate places obstacles in the way of such a policy, Mr. Wilfrid Laurier and his colleagues will fall in the first of the determination necessary to meet the new situation created by the Yukon bill."

Liberal Family Quarrels. It would appear that as soon as the report in one of the Liberal tribunes is put down it breaks out among the Liberals in other parts. For instance, the Geofrion Club in this city has, in connection with the Bickford Club, appointed delegates to wait on Sir Wilfrid Laurier and Mr. Wilfrid Laurier, and to urge the action of certain Ministers. The members of the Geofrion Club at Quebec are likewise kicking like steers, and, from their speeches, have become so rebellious that the Solel refuses to print a reprint of their meetings.

DANGER OF FLOOD. The Big City of Montreal Had an Anxious Night, but the Water Has Receded—A Heavy Point Chalked up.

Montreal, March 20.—(Special).—It was thought this morning that Montreal was to be flooded out, as the water rose above the retention wall. The dyke, however, held quite firm, and to-night the water cooled over two feet. The chief engineer states that all danger is now past, and that a good many dollars and mills in the lower part of the city are flooded.

DECK-HAND NEARLY DROWNED. Frank Owens of the Lakeside Got Entangled in the Heaving Line and Had a Ducking.

Port Dalhousie, March 19.—This evening as the steamer Lakeside was landed at the dock one of the deck hands, named Frank Owens, was drawn into the harbor from off the pier, by getting tangled up with the heaving line, and had it not been for the assistance of the steam basting net, Solis Bly, being close at hand, he would have been drowned. They succeeded in getting him pulled up, but he had been nearly an hour under water. The evening of the accident, Mr. Bly was close by at the time, and finally brought him to, after a very close call. He is being cared for at Henry Bell's hotel, and is doing as well as can be expected, but is not out of danger yet.

OUTRAGE NEAR CORK. Halls Torn Up on the Cork and South Coast Railway Approaching a Viaduct 70 Feet in Height.

Cork, March 20.—On the Cork, Baldon & South Coast Railway, where a strike is in progress, the line patrol discovered this evening that the rails had been torn up at the approach to a viaduct 70 feet high, a few miles from Cork. The patrol was just able to stop the express.

Of Special Interest. Special anniversary services were held in Carlton-street Methodist Church yesterday afternoon and evening. At the morning service, Rev. G. H. Durr, presided, and at the evening service, Rev. G. H. Durr, presided, and at the evening service, Rev. G. H. Durr, presided.

Have you tasted "Salada" Caylon Tea? The "Manton" the famous Colorado Springs, Minn., is a healthy, appetizing, and peculiarly beneficial food. It is an all-Diessipia and Stomach trouble. Swan Bros., Agents, 102 and 104 King-street east.

1909 Tea is had try Messers.

A BAD MAN FROM OSHKOSH.

JONATHAN: Young feller, are ye armed? ALFONSO OF SPAIN: No, senor. JONATHAN: Waal, then, blame ye, come on.

THE VOLUNTEERS OF CANADA

Will Be Interested in the Report of Dominion Rifle Association.

To Send the Bisley Team across the Pond and Back Oct 6th 1898—Receipts From Ordinary Sources Amounting to \$16,816 in Fact the D.R.A. is in a Flourishing Condition.

Ottawa, March 20.—(Special).—The report of the Council of the D.R.A. to be presented to the annual meeting of the association on Wednesday is an admirable statement of the work done last year. The number of rifle associations is 17, and the number of members 1,700. The D.R.A. is in a flourishing condition.

HOW THEY RAISED MONEY. Winnipeg Counterfeiters Paste Tobacco Stamps Over One Dollar Bills and Pass Them for Five.

Winnipeg, March 20.—Counterfeiters are at work in this city again, raising \$1 bills to \$5. The work was much better than that of the previous case, reported about a month ago. A Dominion Government \$1 bill had been used and the large 5's cut from tobacco stamps had been pasted over so as to cover all the 1's, both on the front and back of the bill. The "5" of the "one" had been erased and in front of the "one" the letters "5" had been substituted, so that the word "five" appeared in the place of "one."

THE BILLS WERE LOADED. Woodstock, March 20.—Fredrick McKeeble, the 14-year-old son of Professor McKeeble, was shot in the eye yesterday while entering Minkler & Lawson's repair shop.

REV. G. R. SANDERSON DEAD. One of the Oldest and Best Known Methodist Preachers in Canada Gone.

London, Ont., March 20.—The Rev. G. R. Sanderson, a superannuated Methodist minister, and one of the oldest and best known divines in Ontario, died shortly before midnight to-night at his residence, Wolfe-street, this city.

THE GREAT FINCON-ARMOURIES, THIS EVENING. For Bargains at Dinco's This Week.

Hutchinson, Kan., March 20.—The Bank of Nickerson, at Nickerson, Kan., near Lawrence, was robbed last night. Five men were held up and forced to go inside, where they were kept until the safe was blown open and the money secured. About \$5000 was obtained. The robbers mounted horses and fled.

SS. OSBORNE IN TROUBLE

Broke Her Tail Shaft in Mid-Ocean and Was Towed a Thousand Miles to Halifax.

Halifax, N.S., March 20.—The Osborne, a freight steamer chartered by the Atlantic Transport Line, was towed within sight of the harbor to-night by the Petroleum Tank Steamship Company's boat, the Duffield. The Osborne is a fine steel steamer, running between London and Philadelphia. She broke her tail shaft on Friday, March 11, and drifted helplessly until Monday, when she was picked up by the Duffield in mid-ocean and towed 1000 miles without mishap until just inside the harbor here, when the tugboat and the Osborne had finally to be brought in by steam tugs.

Desperate John Glassford Brought Down From the Jail Wall.

London, Ont., March 19.—A sensational incident occurred at the jail here to-day. About ten minutes before 1 o'clock this afternoon Turnkey Stickle took John Glassford, a prisoner, to the yard for exercise. They had been there only half an hour when Stickle, happening to look around at the river, Glassford took advantage of the momentary opportunity and "shinned up" the water pipe with the agility of a cat. When Stickle again saw him, Glassford was at the top of the wall. The turnkey shouted to him to stop, but he paid no attention. Stickle tried to over Glassford's head, but still the prisoner freed himself, and shot him in the back.

STICKLES SAW THAT EXTREME MEASURES were needed, and shot Glassford in the back, the bullet entering the shoulder. Just below the shoulder blade, the prisoner fell over on the roof of the building as though dead, and was removed by way of the skylight into the Court House, and thence to the cell, where he was attended to by the medical staff.

THE GREAT FINCON-ARMOURIES, THIS EVENING. Daring Bank Robbers.

Hutchinson, Kan., March 20.—The Bank of Nickerson, at Nickerson, Kan., near Lawrence, was robbed last night. Five men were held up and forced to go inside, where they were kept until the safe was blown open and the money secured. About \$5000 was obtained. The robbers mounted horses and fled.

KLONDIKE DELEGATES APPEAL TO THE SENATE

Say the McKenzie-Mann Road Will Not Benefit the Miners.

Will Address Members of the Upper House on the Subject on Tuesday in Room No. 8—English and French-Canadian and United States Delegates on Hand—Moonshine Despatches.

Ottawa, March 20.—(Special).—The three delegates selected by the miners of the Klondike, to come to Ottawa and solicit amendments to the mining laws, have arrived here and interviewed the Minister of Justice. They are Mr. Maxime Landreville, representing the French-Canadian, Dr. A. E. Williams, the English-speaking Canadian, and Mr. E. J. Livermash, representing the alien or American miners. Of course, since their departure from Dawson the regulations have undergone considerable change in the right direction, so that upon their first visit here a few weeks ago they were able to congratulate Mr. Sifton to that extent. Since then the weighty question of communication has been taken up, and the Government has bound itself to the McKenzie-Mann road, so that the delegates have a subject quite as serious as Minister Sifton's absurd mining laws, in the matter of the McKenzie-Mann road, which is the subject of the bill before the Senate.

APPEAL TO THE SENATORS.

As the bill has passed the Commons by force of the Klondike's partisan majority, the delegates have determined to plead their case before the Senate. There is considerable talk here, says the correspondence, "over the meaning of the trade and of great passing moment. Through the courtesy of the Klondike, the delegates have been invited to our disposal, where, on Tuesday, the 22nd inst., at 10 o'clock a.m., they will appear upon matters bearing on the Yukon mining law, before the Senate. You are cordially invited to attend. (Signed) M. Landreville, E. J. Livermash, Edward J. Livermash, All Moonshiners."

THE EASTERN SITUATION.

French Demands on China Said to Have Been the Occasion of a Special Conference in London.

London, March 21.—The Chinese Ambassador visited the Foreign Office Saturday evening by special invitation. It is supposed that the French demands on China were the subject of discussion. There are some doubts as to the extent of the demands. A despatch to The Daily Mail from Nagasaki mentions a report that the Yangtze valley is included, which tends to confirm the report from Peking that France has demanded that China shall not cede any portion of the Province of Kwei-Chow, which provinces belong within the valley. The Times has a despatch from Peking, however, which explains that the demands apply only to the three provinces, Kwang Tung, Kwang Si and Yun Nan, in Laotia. Discussing the matter editorially, The Times suggests an expansion of these discrepancies that M. Duhal, the French Charge d'Affaires at Peking, has demanded more than was authorized to demand, and that M. Hanotaux, in consequence, had disavowed him in the statement issued yesterday, saying that there was no connection between the demands of the French Government in China and the Chinese loan. The Paris correspondent of the Times reports passages of a conversation with a diplomat in the course of which M. Hanotaux, the French Foreign Minister, said that he had intended to join any scheme for the disintegration of China.

A BATTLE IMMINENT.

Anglo-Egyptian Troops and Dervishes Coming to Close Quarters on the Nile.

Kumar Camp, Nubia, March 20.—A battle is imminent between the Anglo-Egyptian column and the dervishes. The combined forces have started to advance up the Atbara to meet the enemy, who are also advancing, but who, it is believed, are not aware of the proximity of the British.

A NEW WAR CLOUD.

Boer Organ at Johannesburg Says England Must Abandon Sundry Claims or Fight.

Johannesburg, March 20.—The Standard and Diggers' News, in a scintillatingly inspired article, says: "War is almost inevitable unless England abandons her claim to sovereignty." Don't waste money on soft stone monuments, which will only last a few years. Buy only granite. The McIntosh Granite and Marble Company, Limited, office and showroom 524 Yonge-street.

FIGHTING JOE MARTIN WILL FIGHT AGAIN

If a British Columbian's Statement Proves to Be Correct.

Mr. Greenway's Old Colleague Will Enter the Political Arena in British Columbia. It is Said, as Attorney-General in Premier Turner's Cabinet—D. C. Fraser to Have That Judgeship.

Ottawa, March 20.—(Special).—A prominent British Columbian is authority for the statement that at the close of the present session of the British Columbia Legislature dissolution is to take place, and it is currently reported that Premier Turner will appeal to the province with a reorganized Ministry, in which Joseph Martin, the ex-Manitoba, will be Attorney-General. It seems to be settled that D. C. Fraser, M. P., will get the vacant British Columbia Judgeship. The members from the Pacific Province are divided on the subject, but the advocates of the appointment of a local man have no good name to suggest, the two best available men, Messrs. Bodwell and Davis, each having declined the position.

MATTERS AT DAWSON CITY.

A Saultman Man Arrived at Seattle Says Stampede Are Frequent—Winters' Work Turning Out Well—\$45,000 in Drafts.

Seattle, Wash., March 20.—W. G. Wallace of Saultman, Michigan, arrived here yesterday from Dawson City, which place he left Feb. 15. Concerning matters at Dawson, Mr. Wallace says that stampedes to the several creeks are frequent. Word does this winter is all turning out well. There is a reason, said he, why the country west of the Yukon should not prove to be as rich as that on the east side. The west is practically barren. The trade and of great passing moment. Through the courtesy of the Klondike, the delegates have been invited to our disposal, where, on Tuesday, the 22nd inst., at 10 o'clock a.m., they will appear upon matters bearing on the Yukon mining law, before the Senate.
