### OBJECT TO POLITICAL TALK AT MEETING

Denforth Park Ratepayers' Association Hear Address on Gardening.

What at first promised to be a battle royal took place at the meeting of the Danforth Park Ratepayers' Association on Friday in the Secord School, Barrington avenue. The trouble started when James T. Gunn, Labor candidate for South York, addressed the meeting. He spoke of the words of Col. Roosevelt, when he stated, "When you hit, hit hard." And Mr. Gunn advised them to be sure and hit W. F. Mactean hard on Dec. 17. Up jumped a man in the audience and protested, "When the association approached the school trustees and asked for the use of this hall," he said, "no mention was made of politics, and "no mention was made of politics, and they should be cut out." they should be cut out."

T. L. Hutchinson, a member of the association, also protested. "I also wish to protest." he stated. "At the beginning of the meeting Mr. Maclean took the chair, and took it like a gentleman. Like a gentleman, he did not mention politics, and I strongly protest against this being turned into a political meeting against Mr. Maclean." Loud cheers greeted this announcement, and the incident closed. dent closed.

### TABLET UNVEILED. Memorial to Late Captain Major, Who Was Wounded in Action.

Very impressive were the memorial services held in Whitevale Methodist Church at three o'clock on Sunday afternoon, in memory of the late Captain H. L. Major, son of Alfred and Mrs. Major of Whitevale, and conducted by Rev. A. E. Owen, pastor of the church. Captain Major's death took place in July, the result of wounds received in battle, and a feature of the services yesterday was the unveiling by Captain Moore of Brooklin of a beautiful tablet given by the officials of the South Mead Hospital, in England, where Captain Major was for a time. There was a very large attendance, the church being filled to the doors. The memory of Captain Major, who was well known all over south Ontarlo will The memory of Captain Major, who was well known all over south Ontario, will long be cherished by the people of that district. ## Far Exceeds Objective in Victory 'Loan Campaign.

Few towns in Ontario have responded more freely to the call for men and money than Newmarket, and, while the reports are not as yet all in, it looks as the the campaign for the Victory Loan carried on there during the last counie of weeks, has met with the same gratifying success. The objective aimed at by the committee was \$180,000 and this was practically secured a week ago. Now the amount has risen to between \$225,000 and \$250,000. All over the county the returns are said to have been very gratifying. Markham Village taking over \$60,000 by private subscription, to say nothing of the amounts taken in by the local banks there. The Markham and Scarbook there in the markham and Scarbook there is the markham and scarbook canvass was largely in the hands of G. A. M. ### END OF ENLISTMENT

General Turner Said Reserves Would Be Exhausted in September.

related an interview which he had had with General Sir Richard Turner. in which he had spoken of the urgent need for reinforcements, having said as far back as early in August that he could see sufficient reserves providing for the ordinary average wastage of war to the end of September. He insisted that Canada had reached the end of the possibilities of voluntary enlistment, and that the Military Service Act was absolutely essential to continuance in the war. Sir Wilfrid Laurier, he said, was pledged, if returned to power, to suspend the operation of the Military Service Act until it should have been approved by the people thru a referendum, and pointed out that even if a favorable vote was received this would involve a defay of af least a year. Further, the country had no assurance that in the event of their accession to power Sir Wilfrid Laurier and his followers would endeavor to lead the country to approve of compulsory service, but on the contrary, there was every reason to believe that they would do their utmost to secure an adverse vote on such a proposal. ### UNREST IN INDIA SUBJECT OF ADDRESS

Speaker Asserts That India Has No Done Her Share in the War.

The general unrest in India, and the present call for home rule form-ed the subject of an interesting address given by Rev. Dr. J. Wilkes before the Royal Canadian Institute Saturday evening. He dealt with the problems that confronted the various states there, due to the influence of e small percentage of aightators. Nine-ty-two per cent of the population e told the audience, of the farming merest, knew that with the British Government they received justice, and had no desire for any change. But of the remaining classes there were about two per cent. that comprised the agitators, and today it was a dangerous thing for any official in dia to oppose these.

"They are persistently calling ou for what they call their rights," said Dr. Wilkie. "And just now they are representing themselves as being sadly abured." He said that Mrs. Anne Besant was one of the strongest political agitators, but he argued that to give democracy to a country unprepared means autocracy, and today India is not prepared. "And if ever again in India we have another mutiny," he told them, "it will be cue to the influence of these agita-

He said he did not wish to appear unpatriotic, but it was a fact that very few of India's sons had enlisted the war had begun.
