Several courses are open to the government. The government might extend the time for making the award but this would mean more delay and a further postponement of the coordination of the old Grand Trunk upon which the success of the National Raliways so largely the government is inclined to refuse this extension and it is said that the majority of the members at this morning's cancus took the same view. The government feels that the Grand Trunk officials will delay the case indefinitely if an extension be granted and yet if an extension be granted and yet if an extension be refused and yet if an extension be granted and yet if an extension be granted and yet if an extension be granted and yet if an extension be refused will claim that the shareholders would give the company when the surface to find the road is from the government in one can import the road went into liquidation and were sold under the hammer shareholders would get nothing. 1,600,000, exclusive of more than 800,000 who are on short time. These have been increased more than a million in the coal fields.

John J. Jones, Labor member of par-diament, in a speech at lifterd tonight, asserted that within recent weeks notices have been issued in sixty industries that wages were to be reduced by from ten to twenty shillings per week. A conference in the shipbuilding trade was held at Cardisle today to discuss the claims of employers for a reduction of six shillings on time rates and fifteen per cent. on piece work. The workmen demanded that the matter should be submitted to arbitration unler the industrial court act. The employers refused to entertain the demand, and the conference ended without a settlement having been reached. The workmen are now asking the ministry of labor to intervene, but it is expected a strike may result.

It was further pro-vided that the arbitrators should make their award within nine months after their appointment unless an extension of time was granted by the government. While the arbitration 613 was going on, the Grand Trunk was to be operated by a board of management to be jointly named by the government and the railway company. Upon the coming in of the award, the government was to take 440 possession of the railway and absorb 496 it into the Canadian National Rail-
