### DROWNS IN PLUNGE BATH IN Y.M.C.A.

**Twenty Year Old Lad Takes Cramps—Quickly Pulled From Water But Dead—Dynamite Kills Two**

Stratford, Ont., Nov. 22.—(Special)—W. M. Kane, aged twenty years, of Mitchell, was drowned in the plunge bath in the Y. M. C. A. building yesterday. He was seized with cramps while swimming in the bath and sank in eight feet of water. Although he was pulled out almost immediately, it was found impossible to resuscitate him.

He was represented by W. J. Ahern, who asked for an adjournment for a week. Crown Prosecutor Morrison consented. The defendant's counsel asked that his client be released on bail. The magistrate said he would take the matter into consideration. The prisoner looks well, and shows an apparent unconcern about the whole affair. He will fight the case.

### SIRENS ON MONTREAL FIRE APPARATUS

**Chief Suggests Change From Gongs in the Interests of Life**

Montreal, Nov. 22.—Owing to the risk that firemen have to meet in going to fires, Chief Tremblay has made a recommendation that the present bells on hose wagons and other apparatus be replaced by sirens powerful enough to warn all approaching vehicles to keep out of the way. It is the contention of the fire brigade that so many brass runs use bells as warning signals that they are no longer the protection that fast moving vehicles require on the way to fires.

Brantford, Ont., Nov. 22.—Ald. Ward, at a recent meeting of the city council, declared that a doctor had spoken to him of "unnecessary butchery" in the hospital, with no other consideration than that of profit. Legal action may follow.

Besides shipments by boat to Toronto and other lake ports, 485 cars of fruit were shipped, 359 of them going east to Montreal and 144 to Winnipeg and other western points. A copy of the resolution was directed to be forwarded to both leaders at Ottawa.

Washington, Nov. 22.—The next few days, perhaps one or two, will show whether the strained relations between the United States and Nicaragua are to be slipped or short. The United States government has not accepted as a fact beyond all controversy the report, touching the execution of Graep and Cannon in that republic. Secretary of State Knox is authority for the statement that a demand for reparation will be made upon Nicaragua should enquiries develop that allegations touching the death of the two men are well grounded.

The American ships of today are speeding toward Nicaragua. The gunboat Vesuvius will probably arrive on the Pacific coast today, and the cruiser Demarest may arrive about the same time. The Marietta too is on her way to the Atlantic coast. The transport Buffalo, sailing at Eschschmigg Bay, California, is under orders for Panama. There is a force of 500 marines in ready to board the vessel, should orders to that effect be issued.

The chance table, decorated pleasantly in white and red, and the candy table in white and red are of very tiny appearance, but those which are used in the number is that set apart for the sale of fancy-ware. This booth is decorated in pink and white, with many arches and garlands, each crowned with many rosettes. In the House of Mirrh, some merry surprises and hearty laughs are in store for those who enter.

The ice-cream parlor occupies all of one room and in another are found the amusements, consisting of bean-bags, bagatelle, wheel of fortune and other games. The City Cornet Band will be in attendance this evening. Tomorrow night the St. Joseph's orchestra will provide the music and it is probable that the band will again be heard on the following evening.

As the proceeds for the fair are for a praiseworthy object, the high tea should be well patronized each night.

Everything is in readiness for the opening of the Temple Fair in Temple Hall, Main street, this evening and it should be well attended. The work of the committee making preparations for the big event is completed today and they deserve praise for the efficient manner in which they have arranged for the affair.

Supper will be served in the Red Cross Dining Hall every evening during the week by a large staff of young ladies, dressed as Red Cross nurses. A band will present each evening. Games and amusements have been arranged and should prove attractive.

San Domingo, Nov. 22.—Col. John Jacob Astor's yacht, Nourmahal sailed from here on November 22, during the hurricane. The captain of a European steamer arriving here today reports that he saw the yacht in the Bay of Santo Domingo, lying between the islands of Catalina and Saona.

These islands are off the most southern point of the island of Santo Domingo and about seventy-five miles east here. They lie in the path of vessels proceeding east from here for Porto Rico. A revenue cutter has been ordered to sail immediately for the scene of the wreck.

Tampa, Fla., Nov. 22.—The government's wireless station at 7 a.m. completed an hour's sending to San Juan, Porto Rico direct. Many of the messages were for John Jacob Astor and members of his party.

The operator at Key West asked the operator at San Juan if the Nourmahal, Astor's yacht, was there. The reply was that he did not know, but thought it was. He would investigate. Communication was interrupted before he could make the result of his investigation known.

Key West, Fla., Nov. 22.—The San Juan, Porto Rico wireless station continued communicating with the Nourmahal wireless station here up to a late hour this morning, but no confirmation of the presence of the yacht Nourmahal with the New York millionaire and party was had from San Juan. The naval wireless men here declare that if the Nourmahal had been seen since she arrived here, they undoubtedly would have spoken of it.

His yacht, Varuna, which went ashore on the northwest coast, cannot yet be accounted for. The result of the search is being reported. ### AMERICAN SHIPS OF WAR SPEEDING TO NICARAGUA

Washington, Nov. 22.—The next few days, perhaps one or two, will show whether the strained relations between the United States and Nicaragua are to be slipped or short. The United States government has not accepted as a fact beyond all controversy the report, touching the execution of Graep and Cannon in that republic. Secretary of State Knox is authority for the statement that a demand for reparation will be made upon Nicaragua should enquiries develop that allegations touching the death of the two men are well grounded.

### FARMER NOT DAUNTED BY HOLD-UP MEN

Kingston, Nov. 20.—James Brady, a farmer residing near Kingston, is the hero of a sensational holdup which took place late at night in Williamsville, a suburb of the city. Mr. Brady was driving out to his home when two highwaymen halted him. One grabbed his horse by the head while both pointed revolvers at him and said: "Hand over your money or we will blow out your brains."

The farmer's answer surprised the pair. Instead of meekly holding up his hands he jumped out of the rig and, telling the hold-up men to go somewhere, he picked up some stones. The would-be robbers got "cold feet" and faded away.

### THREE OF WEDDING PARTY ARE KILLED

**Driving in Auto, Chauffer Tries to Light Cigarette and Sends Car Over Railway Bridge—Groom Brother and Driver Killed, Girls Badly Hurt**

Cuthbert, Ga., Nov. 22.—Three members of a wedding party were killed and two probably fatally injured in an automobile accident late last night two miles west of this place as the party was returning from Cuthbert to Coleman.

With the purpose of being married, James Shepard and Miss Helen Mattox, accompanied by Horace Shepard, a brother of the groom and Miss Mary Mattox, a sister of the bride, secured an automobile at Fort Gaines and were driven to Cuthbert by Curtis Williams. All the Cuthbert ministers, however, refused to marry the couple on account of their youth, neither of them having passed twenty.

After being unable to secure the services of a minister, the party hastily left town. Speeding along at a rate of thirty miles an hour and while attempting to light a cigarette, Chauffer Williams lost control of the machine crossing a thirty foot bridge over the central Railway and the party was dashed to the railroad track below.

The machine fell upon Shepard and Williams. The latter's neck was broken and death resulted instantly. The two Shepards died in a few moments. Miss Helen Mattox was severely bruised, her face and arms were badly lacerated and she received internal injuries. Miss Mary Mattox was also severely injured. The women were removed to a neighboring farm house. The bodies of the three men were brought here on a handcar.

### MUCH EXCITEMENT OVER McLAUGHLIN CASE

**Charged With Murder of Wife—Woman He Sought Will Give Evidence Tonight**

The testimony as to McLaughlin's treatment of and attitude towards his wife, may be also put in, but Coroner Bascom is of opinion that a verdict will be reached tonight.

### MURDERER OF LITTLE ONES DIES

**Rizzo, Who Brutally Slew Two Tots, is Electrocuted—The 36th Execution in Auburn Prison**

Auburn, N. Y., Nov. 22.—Theodore Rizzo, who brutally murdered Theresa Troopio, seven years of age, and Freddie Infusino, two and a half years old, in a lonely culvert of the city of Utica on Sunday night, Sept. 12, was put to death in the electric chair at 6:15 this morning.

The execution was the thirty-sixth one to take place in Auburn prison and was pronounced by the prison officials as successful. Three shocks were necessary to kill one of two seconds more than a full minute and the others of less than a minute each. The second one was of three seconds duration and the third one lasted but ten seconds.

The electrocution was without an unimpaired direction. Rizzo walked calmly into the death chamber, his demeanor about the same as during the trial. He was closely guarded and was accompanied by Rev. John Robinson and Rev. Thomas Carroll, Catholic priests of the city.

Some apprehension was felt that Rizzo might make a scene, but subsequent events proved these fears groundless. Holding the crucifix closely in his hands, Rizzo walked to the chair and sat down. While the electrodes were being adjusted and the straps made fast about his arms, he looked about the room in a curious manner.

There was no sign of fear evidenced, as he appeared to be searching for someone whom he might recognize.

The first contact was administered at 6:20 and was at 190 volts, then it was increased to the full voltage, when the switch was turned off at 6:38.22.

The second contact was given at 6:38.23 and lasted three seconds, while the third was put on at 6:40.55, and lasted ten seconds. Examinations were then made by the coroner, and he announced the official pronouncement of his death was made.

### BRINGS DEAD TO LIFE BY GALVANIC ACTION

**Woman Doctor in New York Claims Success in Restoring Heart Movements**

New York, Nov. 20.—There is a little woman in this city who is quietly achieving results which have attracted the attention of the medical profession in this country and Europe. By a method she has evolved, persons and animals in a state of apparent death have been restored to their normal activities. Even in cases where the most delicate instruments have failed to show any sign of heart action or respiration for many minutes, she has achieved successful results. This woman is Dr. Louise G. Rabinovitch of 28 West 128th street.

From intimate friends something of the wonderful work of this woman was learned. There is no claim of bringing the dead to life. But in cases where apparent death ensues, due to strangulation or the action of any drug which suspends the heart action suddenly, prompt treatment by the Rabinovitch method has been an almost certain means of restoration.

Experiments with animals have been highly successful. The heart is a muscle. By sending to it a current of electricity of a given amount and strength, the muscle contracts. When the current is shut off the heart relaxes. The same is true of the respiratory organs.

By placing the negative pole or cathode over the shoulder blades in the back and the positive pole or anode across the small of the back, and then sending a very mild current through those plates the heart and respiratory muscles are suddenly contracted. Shutting off the current relaxes them again, and by alternately applying and shutting off the current artificial heart and respiratory action is produced.

### ARCHBOLD TAKES OPTIMISTIC VIEW OF STANDARD OIL CASE

New York, Nov. 22.—Confidence of officials and leading counsel of the Standard Oil Co., were held here today to outline the company's action following the adverse decision in the government's suit rendered Saturday. Thirty days are allowed before the decree of the court will take effect and within that time the form of the appeal which the corporation has announced that it will take to the United States supreme court will have to be perfected.

### JOHN D. ARCHBOLD

John D. Archbold, vice president of the Standard Oil Co., took an optimistic view of the situation. He said: "I believe that the decision will result in action looking toward the repeal of the Sherman Anti-Trust Act. For under that law it is not only impossible for practically every corporation to transact business, but even co-partnerships may be attacked. I believe that the officials at Washington are coming to the view that the law is too drastic and that even Mr. Roosevelt himself shares in that opinion."

### DR. EMMERSON ARRIVES TO LECTURE HERE

### BELIEVE MORE MEN ARE ALIVE IN ST. PAUL MINE

Cherry, Ill., Nov. 22.—Two exploring parties in the St. Paul mine today found indications which lead them to believe that living men are still in the last workings. Nearly two hundred are still unaccounted for.

If men still live imprisoned in the depths of the mine, they are probably too weak to aid in their own escape. It was nine days ago that the fire occurred, and for that time any possible survivors have been without food and with very little, if any, water.

Their hope is the rescue party which is working frantically to remove the timber, dead animals and earth falls which block the way to the east workings. But it is slow work. Rain fell all night. Four of the store or more bodies seen lying in the black dam were hoisted. It is stated it is impossible to reach the others, although they were in plain view.

### VOLCANO BELCHING OUT LAVA FLOODS
