

## BRUIN PULLED FATAL STRING

Nova Scotia Story of Rob-  
ber Bear That Shot Itself  
With Trap Gun.

Among many of the interesting stories which are told of hunters and hunting, the story of the bear which shot himself is perhaps the most interesting which has come to local ears for some time, says a Shelburne, N. S., correspondent to the Halifax Chronicle. This is a true story of a bear who shot himself at Middle Ohio in Shelburne county, N. S. This bear for some time past had made himself a nuisance and a menace to the people of that community by stealing out by night and helping himself to a nice sheep once in a while and then scurrying off into the woods, there to devour his prey.

There were few people in the village who had not been the victims of some of his thieving excursions, but in spite of all the efforts which were made to capture this beast no one succeeded in bringing him to justice, and the greedy rascal remained blissfully at large. However, "Worry dog has his day," and probably this saying applies to bears as well, for could Bruin have only known it, his day of reckoning was not far distant.

On one of his nightly visits at the home of Howard Bower he became bolder than usual, and coming up to the house his curiosity overcame him and he stared boldly in at the window. This was not a wise thing on the part of Mr. Bruin, as Mr. Bower saw him and, seizing his rifle and rushing out of the house, fired at the bear, who disappeared into the darkness.

For some time after Bruin probably changed the scene of his misadventure, as little or nothing was heard of him until he commenced his recent depredations in Middle Ohio.

He then appeared in the vicinity of Mr. Thomas McKay's home, and each morning when that gentleman went out Bruin's tracks were plainly visible in the frosty grass, and Mr. McKay knew that unless they were able to bring this monster to account, it would mean the loss of several sheep and perhaps other live stock as well, so he determined that Bruin must be caught.

To do this he took a rifle down to that part of the field where the bear's tracks were the most plentiful and fixed it so that it pointed down the path. Then he loaded and cocked the rifle and tied a string to the trigger and ran the string through a pulley and across the path, so that when Bruin came for his nice tempting morsel of fresh moose meat he would bump into the string and set the gun off.

## POULTRY THIEVES ATTEMPT TO SLAY

Fire Point-blank at Farmer  
and Then Burn His Barn  
Down.

Serena, Oct. 22.—Poultry thieves who, it is believed, came from the American side of the border, on Friday attempted to murder Henry Craig. When discovered in a barn on Mr. Craig's farm in Moore township, near Courtright, they deliberately set fire to the barn, which burned to ground, with 1,200 bushels of grain and a large number of poultry, the total loss being estimated at \$3,000.

Mr. Craig had fired low with a shotgun at the men, whom he surprised coming from his barn with a sack of what are believed to have been chickens. One of the men drew a revolver, and shouting "I'll shoot you now," aimed point-blank and pulled the trigger. The bullet passed through Mr. Craig's coat sleeve. Mr. Craig attempted to retaliate with the second barrel of the shotgun, but the gun jammed.

Meanwhile the men entered the barn from one end, and as they emerged Mr. Craig noticed flames inside the building. Aid was summoned but the barn burned to the ground. Provincial police officers spent today in an endeavor to trace the two men, but without success. Mr. Craig was unable to give a clear description of them.

## NEW CHORAL SOCIETY.

The organization meeting of the new choral society will be held this evening and James F. Browne, the director of the society, said that the public interested in its formation would be heartily welcomed. The agenda for the meeting consists in the election of officers, discussion of musical possibilities, the work to be studied, the time and place of rehearsals, and any other business that may be brought forward. Mr. Browne is enthusiastic over the prospects for the society and is anxious to commence work at once.

Fifty-five deaths occurred in airplane accidents in the United States during 1921.

## THE LATE H. P. BORDEN.

(Ottawa Journal)  
The death occurred Thursday afternoon after a long illness, at his residence at Rockcliffe, of Henry Percy Borden, well-known civil engineer, who for the last six years had been a resident of Ottawa.

Mr. Borden, who recently entered private practice here as a consulting civil engineer, was born on December 6, 1872, in Port la Tour, N. S. He was educated at Mount Allison University, Sackville, N. B., and at McGill University, Montreal, where he was graduated in 1902 with the degree of bachelor of science. Mr. Borden began his technical career as an assistant engineer in the bridge department, Canadian Pacific Railway Co., Montreal, where he served from 1902 to 1909. In 1904 he was appointed as assistant chief engineer of the structural department, Montreal Locomotive Works, but

two years later he returned to the C. P. R. as an architectural engineer. In 1908 he received an appointment to the staff of the Quebec Bridge Commission as an assistant engineer and secretary and in 1915 he was promoted to be assistant to the chief engineer of the commission. In 1916, upon the death of C. C. Scribner, the Dominion government appointed Mr. Borden as a member of the Board of Engineers, Quebec Bridge, which position he held until the completion of that work in 1918. From 1919 to 1921 he was engaged by the Dominion government in a consulting capacity, and a few years ago Mr. Borden opened his office in Ottawa, with the intention of specializing in bridges and structures in steel and reinforced concrete. Mr. Borden was a member of the Engineering Institute of Canada and of the American Society of Civil Engineers.

Mr. Borden was a popular figure in social circles in the capital, and with an unassuming but charming personality he made many friends during a comparatively short term of residence in Ottawa. He was an enthusiastic golfer and up to within a short time ago was a familiar figure on the links of the Royal Ottawa Golf Club. His loss will be felt by his many friends who held him in the highest esteem.

He married in 1906 Edith Eva, daughter of the late Edward Alexander Hall, of L'Orignal, Ont., who survives him and two children, Gwendolyn Julia and Marjorie Mary. Mr. Borden is also survived by his mother, Mrs. J. R. Borden, and his sister, Mrs. R. B. Harris, of Fielding, Sask., and also a brother, Colonel Allison Borden, D. S. O., of Winnipeg. He was a cousin of Sir Robert Borden.

## NOVA SCOTIA APPLES.

A Bridgetown letter to the Halifax Chronicle says:—  
"Apple buyers are in the vicinity now. Allister Chipman reports prices low and market fall. The crop this year in England was good and the crop in the United States is about 60 per cent more than last year. The fruit in Nova Scotia seems to be the best produced for some years."

## JOHN ROOSEVELT WINS 27-CENT FARE VERDICT

Put Off Train, Cousin of the Colonel  
Sued Long Island Road for \$1,000

Riverhead, L. I., Oct. 23.—John Roosevelt of Sayville, a cousin of the late Col. Theodore Roosevelt, won a verdict of twenty-seven cents in the Suffolk County Supreme Court in a suit against the Long Island Railroad. The amount represents the fare on the Long Island Railroad between Jamaica and the Flatbush avenue station. Mr. Roosevelt brought suit for \$1,000 after he had been put off the train in East New York.

He had a communication ticket to the Pennsylvania Station, where he intended to go, but changed his mind before

he reached Jamaica and took the Brooklyn train. He asked the conductor for a slip to indicate his change of route, so he could go to the Flatbush avenue station, and the conductor on the second train demanded a fare from Jamaica to Brooklyn. When Mr. Roosevelt refused to pay it he was put off the train.

## HAZARDS OF A NOVELIST.

Will Give Henry Kitchell Webster  
Twice What Other Heirs Get.

Chicago, Oct. 23.—The hazards of his profession as a writer have given to Henry Kitchell Webster, novelist, a share of his late father's estate, double that of the other five sons and daughters of Tower K. Webster, whose will was admitted to probate here.

Henry Kitchell Webster received \$50,000 because "he is engaged in a form of occupation making his income and livelihood dependent on his present work," the will said. After bequeathing \$25,000 to each of his other children, and smaller bequests to other relatives,

## Makes Tea and Coffee Famous

HOUSEWIVES find that Carnation Milk is the secret of many a famous cup of tea or coffee. Carnation adds a flavor you can't get any other way. Makes wonderful cocoa and is delicious as a milk drink—add water and serve ice cold.

Carnation Milk is good because it is pure, rich milk from fine dairy cows; evaporated to the consistency of cream; then sealed in containers and sterilized. No sugar or preservatives in Carnation—just "whole" milk.

So handy, too. You buy it with your groceries and keep it always ready. Order several tall (16 oz.) cans now—or order a case of 48 cans. Carnation Milk recipes are famous for their goodness. Write for your copy of the beautifully illustrated recipe book containing 100 new ones. It's free. Try this recipe.

CARNATION-AS CREAM IN COFFEE—To give your cup of coffee an appetizing flavor with golden brown color—use Carnation undiluted as it comes from the container. A teaspoonful is enough—use more if desired.

CARNATION TEA—Three parts hot tea. One part Carnation Milk. Sweeten to taste. A most delicious beverage.
