

"LET THE BIG FIGHT WAIT!"

Tells of Work As Physician in Public Schools

Dr. Mabel Hanington, physician for the city schools, was present at the meeting of the school board last evening and outlined the scope and aims of the work which she and Mrs. Armstrong propose to do in their capacities of medical inspector and nurse. Pleasure was expressed at the re-appointment of M. Coll, the senior member of the board and the new member, J. D. P. Lewis, was welcomed, while regret was expressed at the loss of Dr. James Manning, the retiring member. Dr. W. S. Carter was heard from as saying that the one session days in the winter terms would be recognized as full school days by the board of education. Trustee Day was devoted on the condition of the Alexandra school grounds and the old Winter street building and said that the

A Serious Matter

There is a delicacy about mentioning piles. And yet so many suffer needlessly who could be readily relieved and cured if they only knew about Dr. Chase's Ointment. Men tell one another about this remarkably successful treatment. But many women pine away their health and vitality, dreading a surgical operation and not knowing how easily they can be cured at home by Dr. Chase's Ointment.

Best Home Treatment For All Hair Growths

(The Modern Beauty.) Every woman should have a small package of delatone handy, for its timely use will keep the skin free from beauty-marring hairy growths. To remove hair or fuzz, make a thick paste with some of the powdered delatone and water. Apply to hairy surface and after two or three minutes rub off, wash the skin and it will be free from hair or blemish. To avoid disappointment, be sure you get real delatone.

band concerts at the North End were appreciated by the people and were being attended by a very orderly audience. A letter was received from the Colonial Fuel Company saying that the coal for the West Side schools was already stored in their sheds. This coal was secured by the board for \$8 per ton. A bill for legal expenses in connection with the King George school building to the amount of \$275 was rendered by J. King Kelley, K. C., and on motion of Trustee Day, seconded by Trustee Coll and carried, this bill was authorized for payment. Trustee Day said that the commissioner of public works had suggested that the city council might be willing to provide a retaining wall on the north west corner of the Alexandra school grounds if the board would pay for the fence on the wall. On motion of G. E. Day it was carried that the matter be left to the visitors of the building with power to act. Mr. Day also reported that the woodwork on the roof of the old Winter street building was in a very rotten condition. Applications for positions on the teaching staff were received from Miss M. Inch, Rose Hoffman, Winnifred A. M. Clark, Margaret Burgess, Edith M. Cameron, Margaret Newcombe, Mona R. McGrath and Julia T. Crawford. Miss Mary Anderson thanked the board for salary received during her illness and a letter was received from Miss Lotie Manning asking for leave of absence for about one month. On motion of M. Coll it was carried that the request be granted with salary for one month.

Canadians Were Irresistible

London, Aug. 12.—(Canadian Press despatch from Reuters' Limited).—Sir Edward Kemp has given out the following statement: Reports up to last night regarding the work of the Canadian corps in the present offensive, further emphasize and confirm the extent of their successes. The corps' prisoners now total 9,000 with over 180 guns captured. The depth of the corps' advance at its maximum point is over thirteen miles. The activities of the past three days have been on the scene of the old Somme battle ground where the ground is fully traversed by old trenches and other defensive works, making the operations of our tank units, motor machine gun companies, cavalry and infantry more difficult, thus accounting for the slowing down of the early advance. All ranks of the corps are in the best of spirits and in the words of the corps' commander, who is highly enthusiastic, "they are simply irresistible."

NO LIQUOR ALLOWED Washington, Aug. 12.—Sale of liquor in railroad stations or on railroad trains was forbidden by Director General McAdoo, in an order effective immediately and applying to all lines under government control.

WHEN PICKING FOR VACATION NEVER FORGET

IMPERIAL PRESENTS ELSIE FERGUSON

Fine Photo-play Vehicle for Charming Star—War Picture Shows Colonial Troops on Way to the Front

The sacrifice by a young woman of her happiness to save the honor of her family threatened by the act of her erring sister, forms the basis of "The Lie," the new Artcraft picture starring Elsie Ferguson, which is displayed at the Imperial now. The superior excellence of this photoplay, coupled with the prominence of Miss Ferguson in her chosen field, doubtless will insure more big crowds today.

Miss Ferguson enacts the role of Elsinor Shale, daughter of Sir Robert Shale, a dissipated Englishman. She is in love with a man of wealth and social standing, when her sister, Lucy Shale, confesses a secret to her. Lucy later becomes the mother of a son, for whom Elsinor finds a godmother, thus opening the door of scandal and by which she is the innocent sufferer. Lucy wed the man whom her sister loves, but the latter makes no complaint, she preferring to suffer in silence rather than have her sister exposed. Elsinor ultimately finds happiness in her love for another and in the affection of her little nephew who worships her as his mother. It is a powerfully emotional story, written by a master of English drama and presented by an aggregation of truly artistic players.

In the History of the Great War Series the watcher is shown how the colonies transported their men and munitions to the front. Mutt and Jeff and a new comedy supplied excellent laughing material.

On Wednesday Billie Burke will be the star in a deliciously amusing comedy entitled "Let's Get Divorced!"

BIG ZEPPELIN DESTROYED London, Aug. 12.—British airmen today brought down a German Zeppelin in flames off the English east coast, according to advices to the Star. The machine was one of the largest and newest of this type of aircraft.

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief for Acid Indigestion.

So-called stomach troubles such as indigestion, gas, sourness, stomach-ache and inability to retain food are in probably nine cases out of ten, simply evidence that excessive secretion of acid is the cause. The acid is in excess because of the formation of gas and acid indigestion. Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development or secretion of acid.

To stop or prevent this souring of the food contents of the stomach and to neutralize the acid, and make it bland and harmless, a teaspoonful of bisulphate of magnesia, a good and effective corrector of acid stomach, should be taken in a glass of water or a glass of hot or cold water after eating or whenever gas, sourness or acidity is felt. This sweetens the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and inexpensive remedy to use.

An antacid, such as bisulphate of magnesia, which can be obtained from any druggist in either powder or tablet form enables the stomach to do its work properly without the aid of artificial stimulants. Magnesia comes in several forms, so be certain to ask for and take only Bisulphate Magnesia, which is especially prepared for the above purpose.

The Morning War Summary

(By The Associated Press.)

Although the Germans are employing fresh forces of reserves in efforts to hold back the Allied troops who are pressing them from the region of the Somme to the Oise, the American, British and French armies continue to make progress.

Monday witnessed gains of ground at various points along the battle front of high importance—for the further prosecution of the endeavors of the Allies to drive out the Germans from the old Amiens-Montdidier sector.

After an extremely bitter contest the Americans and British have gained a foothold in the important little town of Bray-Sur-Somme, on the northern bank of the Somme. A short distance across the river to the south the British have taken Proyart and midway of the line have pressed onto the east of Fouquescourt in a manoeuvre which has resulted in the further outflanking of Chaumes from the south and of Roye from the north.

On their part the French in the rolling country immediately north of the Oise River have captured Gury, a position of great strategic value lying south of Lassigny, and at several other points on the hills southward to the region of the Oise have advanced their lines further toward Noyon.

In Monday's fighting hundreds of additional Germans were made prisoners and the enemy also lost heavily in men killed or wounded.

Unofficial reports give the number of Germans captured during the present offensive as in the neighborhood of 40,000.

The Germans at last accounts were still throwing reinforcements to the west of the road running through Chaumes, Roye and Noyon, the passage of which by the Allies seriously endangers the German positions inside the pocket formed by the Somme on the north and east and the Oise on the south.

Not alone are the Allies endeavoring to press their advantage by frontal attacks, but they have drawn up to their back lines of guns of French and heavy caliber and with these they are heavily shelling the areas held by the Germans, even as far back as Bethencourt, which lies on the Somme seven and a half miles east of Chaumes. Meantime Allied airships continue to bomb German positions and to machine gun from low altitudes on troops' formations.

Seemingly the advances by the French troops on the southern part of the line cannot but have an extremely important effect on the present battle. The hill country, which they have gained not alone dominates the Oise Valley running northward to Noyon, but around Lassigny and to the west of the plain south of Roye.

Aside from the Amiens-Montdidier sector little fighting has taken place on any of the fronts. Along the Vesle the Germans again have delivered violent counter-attacks against the Americans, who are holding ground on the north bank of the stream. As on previous occasions when the enemy attempted to dislodge Allied troops the counter-attacks failed.

PLAYGROUNDS IN SOUTH END OPENED

The formal opening of the new South End playground at the foot of Britain street drew hundreds of people last evening. A lively game of ball was played by the Turtles and Victorias.

Before the game C. M. Lingley, chairman of the South End Improvement League, invited the people to join the

Delicate Young Girls, Pale, Tired Women

There is no beauty in pallor, but plenty of plenty of weakness. Exertion makes your heart flutter, your back and limbs ache, and you sadly need something to put some ginger into your system. Try Dr. Hamilton's Pills; they make you feel alive, make you want to do things. They renew and purify the blood—then come strong nerves, rosy cheeks, laughing eyes, robust good health. You'll be helped in a hundred ways by Dr. Hamilton's Pills, which are an old family remedy of great renown. Thousands use no other medicine and never have a day's sickness of any kind. Get a 25c. box to-day. Sold by all dealers.

YESTERDAY TODAY TOMORROW

"Feeling Fit" EVERY Day

Keen, Vigorous, Enthusiastic men and women, simply radiating Health, Optimism and Happiness. You've met them. On the jump—hurdling the passing days. Up on their toes, year in and year out.

These men and women know HEALTH—know that health depends on the regular and normal action of the organs of elimination.

Indisposition in all cases of Constipation, Indigestion, Kidney, Liver and Stomach Trouble.

Abbey's Effer-SALT

is the safest and most certain laxative to use—day in and day out—year after year. There is absolutely no re-actionary or unpleasant effect from its constant use. It is Palatable, Refreshing, Invigorating, and will do a great deal toward giving you perfect HEALTH. TRY IT.

Physicians and Druggists have recommended it for years.

league and help to make the playground a success. He then introduced Mr. Potts, the latter paid a high tribute to Mr. Lingley and those with him who had worked so hard to put the grounds in shape. Only those who had seen the place before the war began could realize what they had done. But there was more to do. A running track must be graded and a prize would be given the fastest runner in the 100 yards dash. This playground was for Sydney, Dukes and Queens wards, and the baseball teams would be composed of boys from those wards. He had decided to present a trophy to the team winning the series begun last evening and had authorized A. M. Belding to procure it. He said the playground movement owed much to Mr. Belding's continued efforts.

Mr. Potts welcomed Mayor Hayes, who was present, and seeing Commissioner Hilyard there also he put in a plea for a hydrant so that a skating rink could be provided in the winter.

Mr. Potts then declared the ground formally opened and pitched the first ball over the plate. He was heartily applauded.

Mayor Hayes, Commissioner Fisher, who has done a good deal to assist in the work, and Commissioner Hilyard all expressed themselves highly pleased with the new playground.

The Improvement League will be at work grading the running track.

AUSTRALIA WILL OWN BIG MERCHANT FLEET

Ottawa, Aug. 12.—According to advices from Australia, the commonwealth government has entered into contract, for the building of twenty-six steamships, and twenty-four wooden ships with a gross tonnage of 200 to 600 tons each. When these contracts are complete the Australian government will own a total fleet of seventy-seven vessels of a gross tonnage of 302,506 tons.

Of this number fourteen vessels have been purchased in England and fourteen are being built in the United States. At least one Nova Scotia vessel will be purchased by the commonwealth government.

Wine rope and hemp sail are required for the development of Australian shipbuilding.

NUXATED IRON

"To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron," States Senator Richard Rolland Ker of Delaware, at present Major of U. S. Army; General John L. Clem (tired), the drummer boy of Shiloh, who was sergeant in the U. S. Army when only 12 years of age; also United States Judge G. W. Atkinson of the Court of Claims of Washington and others. Nuxated Iron is dispensed by all good druggists everywhere.

FIND WOMAN'S DEATH DUE TO ALCOHOLIC POISONING

In a brief session last evening in the police court the jury empanelled to find the cause of death of Mrs. George Henderson, who was found dead last Thursday morning in her home at 83 Chapin street, North End, brought in a verdict of alcoholic poisoning. Some five witnesses were examined including George Henderson, husband of the deceased Charles Robinson, secretary of the New Brunswick Soldiers' Aid commission, Dr. Abrahamson, of the provincial board of health department and Mrs. McBeth, who lives in the same house as the Henderson family.
