That Street Paving

Sir,—In regard to the contracts to be let by the city for concrete and granite paving, I think the tenders are entirely too high, and in the interest of the city should be investigated, because I notice the tenders are \$1.00 per square yard—about forty-five cents a square foot. I can guarantee to comply with the specifications and substitute brick laid in cement on edge, for \$2.50 per square yard, which is used in Philadelphia.

I am, Sir,—not as a disappointed contractor, but as a citizen and heavy tax payer,

Yours respectfully,
C. D. McARTHUR.

SPECIAL POST OFFICE FOR CAMP SUSSEX

Two Men are to be Sent From The St. John Office to Carry Out The Plans

Owing to the fact that Sussex camp this year is to be one of the largest on record, and in expectation of the great quantity of mail to be attended to, the postal authorities have decided to establish an office on the camp grounds for the handling and distribution of the letters, papers, cards, etc. This is an innovation arising from the recent visit of George Ross, chief superintendent of the post offices of Canada, to this city, and his discussing the matter with Postmaster Edward Sears.

The postmaster said this morning that two men would be sent from the local office, one to attend to the office work and the other to act as carrier at the camp grounds. He has not yet determined on whom he will send. The chief superintendent is in favor of creating similar post offices at the other maritime camps on P. E. Island and in Nova Scotia, and it would not be surprising if this were done.

The establishment of the post office at Camp Sussex will be of material assistance, and is expected to prove valuable.

THE NEW POSTAL SCHEME WORKS WELL

Mr. Sears Expresses His Hopes As to Special Plans For Service in Exhibition Building

Postmaster Sears said this morning that the new collection service lately inaugurated was working successfully and that no complaints were now being received. Regarding the postal facilities at the Dominion exhibition, he said that he had received no word yet from the association as to what they were planning, but he was in hope that he would soon get a report.

His idea of what should be done at the fair is to establish a room in a central portion of the building where people could buy writing material and write their letters or cards besides meeting their friends in a room nicely arranged. Of course, he added, he had nothing to do relative to this, but if space would permit he would like to see the association provide a room of this description.
